PEACE COMMISSION'S WORK

Being Rushed by the Americans at Paris.

HAVE ALREADY MADE DEMANDS

Report of Reception of the Philippine Stupifies Madrid—Will Resist to the Verge of Hostilities.

Paris, Oct. 5.—Major-General Merritt reached Paris today. The American peace commission held a session this morning preparatory to a second meeting with the Spanish commissioners this afternoon.

Today's session lasted until 4 o'clock, at which hour the commissioners adjourned to meet at 2 o'clock next Friday afternoon, such interval being desired and necessary to allow separate consideration by each commission of matters before the joint commission. The interval will be thus filled with work by each commission, the ultimate results being so facilitated. The secretary of the Spanish commission will arrive tonight, and the interval will also be employed by the secretaries jointly in maturing plans for the work of procedure. While the American commissioners were at luncheon today, General Merritt called at their hotel, but did not wait to see the commission. He will call again tomorrow to see members of the commission.

The Spanish and American commissioners will be received tomorrow by President Faure. The hour fixed for the reception of the Americans is 3:45 in the afternoon. General Merritt will accompany the Americans to this function, which will be held at the Palace de Elysee.

The opinion is now held that the work of the commissioners may be finished within a month from the present time. While it is the general impression that today's meeting was again devoted to preliminary work, and that the adjournment to Friday was taken only to enable the secretaries to draw up a schedule of work, the representative of the press learns that the session was highly important, and that the Americans have made a demand of such character that the Spaniards find it necessary to ask for an adjournment in order to enable them to consult with the government at Madrid.

It is believed that the question concerns the Philippines, and it is known that the Americans are highly pleased at having so soon reached what they consider a very important phase of the negotiations, and consider the two sessions thus far held as very satisfactory to America.

The fact that a member of the commission expressed the belief that work would be completed within a month indicates a happy frame of mind. In the Spanish camp great hopes are built on what they believe General Merritt will advise, namely, that the Philippines are incapable of self-government, and that the whole situation does not warrant America in taking the responsibility for the entire Philippines. The Spanish commissioners are quite ready to give whatever America asks in the way of ceding stations, but will resist more, to the verge of a renewal of hostilities.

Madrid Worried.
Madrid, Oct. 5.—The reported intention of the United States government to retain the whole of the Philippines has created almost a state of stupefaction here, and it is semi-officially announced that the Spanish government has resolved to vigorously combat any action which, it is claimed, the terms of the peace protocol preclude. General Rios, governor of the Visayas islands, reports to the government another defeat of the insurgents. The Spanish volunteers, he says, also repulsed an insurgent attack on the town of Easan, and killed 31 of the attacking force.

TO CORNER WAR IMPLEMENTS.

Reported Scheme to Form a Combine of Warship and Gun Factories.

Cleveland, O., Oct. 5.—An evening paper says one of the most gigantic projects for a combination of capital is being examined in this city. It is nothing less than an attempt to unite the warship building interest and armor plate and gun-making interests of the world into one great syndicate. Men of international reputation in the financial and manufacturing world are in the deal. The projectors claim they can raise a capital of \$200,000,000. Among the Clevelanders who are in the deal is said to be Colonel Myron T. Herrick, president of the Society of Savings, and Robert Wallace, president of the Cleveland Ship Building Company. Dr. Gatling, the famous inventor of guns, has been here in conference with other men in the deal. Armstrong, the inventor of the gun which bears his name, has also been here. Andrew Carnegie is one of the chief men in the negotiation. Robert Wallace is now in the West with several foreigners. Before he returns he will stop at San Francisco, and the proprietors of the Union Iron Works will be approached as to whether they will come into the deal.

Killed His Wife and Himself.

Indianapolis, Ind., Oct. 4.—This evening Robert Lash, a desperate character, went to 324 Court street, where his wife was stopping, and, calling her into the hallway, shot her dead. Lash then killed himself with the same weapon. The tragedy was the culmination of many quarrels.

In the hotels built in China for the use of foreigners the highest stories are the most expensive because the erect-

THOUSANDS ARE SICK.

Critical Condition of the Army in Porto Rico.

Ponce, Porto Rico, Oct. 5.—It is the well-grounded and almost unanimous opinion of the medical staff of the American army in Porto Rico that the condition of the volunteer forces here necessitates their immediate removal north. Sickness is increasing, and has been increasing during the past three weeks at an alarming rate. Today the sick report shows over 2,700 in hospitals or in quarters, out of a total command of 10,000 men; that is, over 25 per cent of the troops are on the sick list. This, however, does not mean that there is an effective strength of 7,500 men. The soldiers discharged from the hospitals as fit for duty are in nine cases out of ten incapable of service, and if ordered on duty are almost invariably back in the hospitals within a few days.

The medical officers have found that the convalescents do not, and seemingly cannot, recover their strength in this climate, and for this reason they are being sent north as rapidly as possible, several hundred leaving every week.

FATAL FOREST FIRES.

Several Lives Were Lost in Wisconsin Woods.

Cumberland, Wis., Oct. 5.—The bodies of a man and a boy were found today in the woods between Amena and Poskin Lake, burned beyond recognition. Several persons are still missing. Peter Eklund, who was seriously burned by forest fires, was brought to this city today in a critical condition, and it is thought he cannot live. A 4-year-old daughter of Rudolph Miller, and the 7-year-old son of Neils Swanson were found in the woods, 1½ miles northeast of Almema, so badly burned that they cannot recover.

Mrs. Frank Heinrichmeier, at Poskin Lake, died this morning, as a result of fright and exhaustion in fighting fires. Relief rooms were opened today, and relief is being extended to starving families. The fire is still roaring on one side of this city, but the greatest danger is believed to be over. Near the town of Johnston, Polk county, eight miles distant, heavy loss of farm property is reported today, and fires are still raging.

AMERICAN PORK.

Thousands of Tons Have Entered Germany Without a Certificate.

Berlin, Oct. 5.—A most important revelation regarding American pork was made by the German government announcement in the semi-official press today, that it has received information showing that American pork had entered Germany without certificate. The United States embassy confirms the report that the discovery had been made that thousands of tons of American pork have been imported through a number of custom houses for years past without certificates. The embassy has requested the foreign office to instruct the custom house to insist in every case upon a certificate.

No American firm is implicated in these transactions, which explain the alleged discoveries of trichinae in American pork. German dealers in American pork offered in July last a reward of 1,000 marks for a case of human trichinosis due to American pork, and three months have passed without anybody claiming the money.

NEARING THE PEKING.

Foreign Ministers at Peking Hold an Emergency Meeting.

London, Oct. 5.—A special dispatch from Shanghai says that telegrams from Peking have been detained two days. The last telegram received, according to this dispatch, announced that the foreign ministers had held an emergency meeting. The German warship at Kian Chou, it also stated, had started hurriedly for Taku the day before.

Marquis Ito, who, it is understood, is visiting China, for the purpose of arranging an offensive and defensive alliance between China and Japan, has left Tien-Tsin for Shanghai, owing to the impossibility of prosecuting negotiations during the crisis.

The foreign ministers, it is stated, forbade any foreign residents going to Peking. It is expected that Sir Claude MacDonald, the British minister, shall surrender Kang Yu Wei.

Yamamoto, leader of the rebellion, in the Sze Chuen province, has issued a proclamation ordering the extermination of all foreigners.

Mob Menacing Foreigners.

London, Oct. 5.—The Peking correspondent of the Daily Chronicle, telegraphing Saturday by way of Shanghai, says: "A mob is menacing foreigners. The wife of the Italian minister was attacked yesterday, while on her way to church, and several Americans coming from the railroad were wounded by stones."

The foreign ministers have sent a collective note to the government, asking for the suppression of these outrages, and the punishment of the culprits."

Wheels Moving Again.

Lawrence, Mass., Oct. 5.—The Washington mills started up in all departments this morning, after a partial shutdown of several weeks. About 4,500 hands are now employed.

Klondikers on the Discovery.

Seattle, Wash., Oct. 4.—The steam schooner Discovery arrived at midnight from Alaska with 100 passengers and about \$50,000 in gold dust. The treasure was owned by a few men. A. Helwerth is credited with \$15,000, and George McCord \$10,000. Dan McDonald, a brother of Alex McDonald, the mining king, is said to have brought out \$10,000.

Crosses, of ancient times, possessed about \$20,000,000.

EMPEROR OF CHINA DEAD

Rumor of His Taking Off Confirmed.

HIS SUICIDE IS ANNOUNCED

Which Is Understood to Mean That He Was Assassinated—The Anti-English Feeling Is Spreading.

London, Oct. 4.—A special dispatch from Shanghai says: The announcement of the death of the emperor is confirmed. The reports as to the means employed in his taking off differ. One story has it that he died of poison, and another that death was caused by strangulation, while a third states that he was subjected to frightful torture, a red-hot iron being thrust through his bowels.

Another dispatch from Shanghai says: Telegrams furnished by the taltai, or local governor, to a Chinese paper allege that the emperor committed suicide September 21, after signing a decree which placed the dowager empress at the head of affairs in China. This, it is added, is understood to mean that the emperor has also been announced semi-officially. All the English-speaking secretaries and the principal members of the Chinese foreign office, it is further announced, have been banished.

The British foreign office today received a dispatch from her majesty's minister at Peking saying Mr. Mortimer, a member of the British legation, on returning home yesterday with a lady, was insulted and attacked by a mob, which stoned him and covered him with mud. Later in the day, the dispatch adds, some American missionaries were similarly attacked, as was the Chinese secretary of the United States legation. The latter's ribs were broken.

Sir Claude McDonald, the British minister at Peking, reports that there is a dangerous feeling abroad.

Execution of Alleged Conspirators.
Washington, Oct. 4.—Minister Conger has cabled the following to the state department:

"Peking.—Six alleged conspirators were executed by order of the empress yesterday. Kang, the leading reformer and adviser of the emperor, escaped in a British vessel. Order and quiet prevail here. Trouble is feared at interior points."

DISORDERS IN PARIS.

Foreigners Are Preparing to Leave the City.

Paris, Oct. 4.—The Dreyfus demonstration organized by M. Pressence, one of the leaders of the agitation, for this afternoon, was prevented by the closing of the Salle Wagram. M. Pressence and his friends tried to force an entrance, and an uproar resulted. The police then intervened and arrested M. Pressence, M. Vaughn, editor of the *Aurore*, and Deputy Mory, amid shouts and counter-shouts of "Vive revision!" "Vive armee!" "Vive Zola!" and "A bas les juifs!" and the crowd was dispersed. The persons taken into custody were subsequently released.

Disorders, most of them in the vicinity of the offices of the *Libre Parole*, occurred during the evening. Many persons were slightly injured, though sticks were the only weapons used. Several arrests were made.

An ugly statement is made by the *Petite Republique* to the effect that Colonel Piquart, who had previously taken exercise in the courtyard of the jail, had not left his cell since Thursday, when he was seized with symptoms of cerebral congestion, followed by coma. There is no means, however, of verifying the statement.

The disorders have created intense alarm among the foreigners at the hotels, and it is probable that an exodus will occur, the guests fearing grave developments.

The working class, so far, has held aloof, but the leaders of the rival parties are doing their utmost to stir them up, and it is believed that the disorders will be repeated.

Le Matin publishes a dispatch from Cayenne stating that the French cruiser *Dubordieu* is lying off the Salut islands waiting to bring Dreyfus away.

A SPANISH THREAT.

Troops to Be Sent to the Philippines to Protect the Visayas Islands.

Madrid, Oct. 4.—The cabinet has decided to authorize General Rios to grant reforms in the Visayas islands, on the lines demanded by the inhabitants, and to concentrate his forces at Mindanao, as there are only 450 men garrisoning the Visayas.

The Spanish ministers also decided to protest to the government at Washington against the refusal of the Americans to permit Spanish troops to be sent to the Visayas, while it is claimed the insurgents are constantly receiving arms and cannon with which to attack other islands, "which the Americans permit without even pretending to intervene."

The Spanish cabinet, it is added, will acquaint its Paris commissioners with these contentions, in order that they may be used in the peace negotiations.

Finally, it is announced that the government will inform the government at Washington that it has decided to send reinforcements to the Visayas, and has ordered several batteries of artillery in Andalusia to get ready to start for the Philippine islands within 24 hours. In addition to this, the cabinet will repeat its protests against the insurgents continuing to hold Spanish prisoners in the Philippine islands.

A Russian does not become of age until he is 26.

TORNADO AND FLOOD.

Coasts of Georgia and South Carolina Swept—Property Loss Heavy.

Savannah, Ga., Oct. 4.—For 15 hours, from 3 o'clock this morning until 8 o'clock tonight, Savannah has been in the grasp of a West Indian tornado. During the day the wind blew steadily from 50 to 70 miles an hour.

While the city escaped with comparatively little damage, the loss of property among the sea islands of the Georgia and South Carolina coasts is believed to be heavy.

For miles in every direction around Savannah the towns along the rivers are submerged. Only one fatality has so far been reported—the drowning of a negro while attempting to reach the land from a small island near Thunder-bolt—but heavy loss of life is feared on the South Carolina sea islands, where such fearful loss of life occurred during the great tidal wave of 1893. The conditions now are similar to those during that storm. Owing to the submerged country and the isolated location of the islands, no news can be had from them until the water subsides.

For eight miles north of Savannah the entire country is a lake, with only the hummocks visible. At noon the water was eight feet above the highest tide. Driven on shore by the northeast storm, it filled up on the islands, swept over banks, and dams, carrying away the remnant of the rice crop that was left by the August storm, and had not been gathered, and wiping out farm crops. The loss to ricegrowers alone will be from \$50,000 to \$75,000. Of the entire rice crop along the Savannah river, valued at \$250,000, all but about 15 per cent was lost in this and the preceding storm.

The damage to shipping is considerable. The schooner Governor Ames, which was on her way to sea with a cargo of 1,500,000 feet of lumber, went adrift in the harbor, but was secured safely.

The wharves at the quarantine station, at the entrance to the river here, were partially carried away.

The telephone, police, light and fire alarm wires are down, and the city is in darkness.

On Hutchinson's island, opposite Savannah, and separating the city from the South Carolina shore, many negro families were rescued by boats from the revenue steamers Tybee and Boutwell.

ANOTHER HORROR SHIP.

Surgeon Protests Against Overcrowding on the Obdam.

Santiago de Cuba, Oct. 4.—Surgeon-Major Seaman, of the transport *Obdam*, declares that there will be a repetition of the awful horrors that have characterized the voyage home of the other transports if more sick soldiers are sent on board the vessel for transportation to New York. He says that when the *Obdam* left Porto Rico many on board were sick, yet the first quartermaster refused to furnish wine for their use, but supplied them with hardtack and canned food, saying that he had no authority to furnish wine. Surgeon Seaman said he would hold him responsible should any deaths occur, and finally succeeded in obtaining suitable food for those who were ill. He asserts that the ship has every man that she can carry, and that if she reaches New York without any deaths occurring, she will be lucky.

Hearing that a number of other sick soldiers were to be sent aboard her, the surgeon-major made a protest, and stated that he was informed by General Lawton that his protest showed lack of discipline, and that an officer had been appointed to see how many additional men the *Obdam* could carry. Surgeon Seaman says he will cable to Surgeon-General Sternberg a protest, disclaiming responsibility for whatever may happen.

Mayor McCleary, of Santiago, is endeavoring to compel the merchants to sell necessities of life at reasonable rates.

MILLION DOLLAR FIRE.

Serious Blow to the Town of Colorado Springs—Eight Blocks Burned.

Colorado Springs, Colo., Oct. 4.—This city had a visitation of fire this afternoon which threatened for four hours to destroy the entire business district. The wind was blowing at the rate of 45 miles an hour from the southwest when the fire started at the Denver & Rio Grande freight depot, at the foot of Chachar street, at 2:10 P. M., and the flames spread with great rapidity. A strip four blocks long from north to south, and two blocks wide from east to west, has been burned over, but at this hour the conflagration is believed to be under control. The flames are still leaping high over the burnt district, but the wind has died down, and there is no doubt that the fire engines, which have come from Denver and Pueblo in response to appeals for aid, will be able to confine the flames within the present limits.

The Antlers hotel, one of the largest in the West, three lumber yards and two blocks of business houses have been destroyed. In round numbers the loss is estimated at \$1,000,000, and insurance at one-half of that amount.

San Juan de Porto Rico, Oct. 3.—The meeting of the military commission yesterday was private, and no news was given out regarding what transpired. The American troops now occupy fully two-thirds of the island.

New Steamship Line.

Vancouver, B. C., Oct. 4.—The Canadian Pacific railway will establish another trans-Pacific line. The steamers *Tartar* and *Athenian*, of over 4,500 tons, will run between Vancouver and Vladivostok, the termini of the trans-Canadian and trans-Asian lines, respectively. The *Athenian* will sail first, loading here and then proceeding to Seattle and Portland, where grain will probably be placed on board for Russia.
