The nomination of Capt. Wyatt Harris for mayor is regarded by the old boys of the G. A. R. as a graceful compliment to their order. The state encampment meets here this year, and it is fitting that they should be welcomed by one of their own number. The Captain will do the honors with ability and dignity.

We are bewildered by a mass of conflicting statements, in the attempt to get at the real facts of a hunting episode the first of this week. Elsie Wright and Morgan Baker are the chief witnesses. Wright claims that Baker shot a pheasant by mistake on forbidden ground, but had to skedaddle without securing the bird, and showed a good two minute gait speeding down a private lane. Baker charges Wright with being an accomplice and volunteering states evidence, thinking to save his own neck from the gallows. As near as we can figure it out, the whole party was stampeded and made for the brush at sight of an innocent party they mistook for the proprietor of the ranch.
