There are about ten boys who are allowed to go around each evening after school with guns and pistols. Some of them have hardly been out of their dresses for a year, but parents allow them to have firearms just the same.

The raising of our new flag was not a failure by any means, each part being exceedingly well delivered. The concert recitation by the primary school was excellent. The song "Cheer, Cheer We the Flag Ever True," led by Miss Snyder, was well sung. Hubert Martin and Inez Pugh snore quite well. The patriotic song by the 2d grade is seldom surpassed by such small children. Lillian Nowak delivered "Our Flag" in an agreeable manner. Marie and Georgie Irvine spoke their pieces in a very nice way. The song "Our Native Land" by three girls was good. Julian Woods and Charlie Ungerman spoke exceedingly well. The solo "The Star Spangled Banner" by Miss Jennie Snyder was nicely sung. The address "Patriotism in our Public School" by Dr. Grannis showed there is much patriotism in our school. Rev. Powell presented the flag in a neat and orderly way. Director Nelson accepted the flag by a short little speech. Mabel Reynolds read the "School House Poem" very well. America was well sung and then the crowd marched into the yard and the flag was raised by Peckham, Bodie and Eberhard. Then the mill whistle saluted us, the children gave their salute, the crowd gave one rousing cheer, and the flag was lowered.

#### How to Prevent Pneumonia.

You are perhaps aware that pneumonia always results from a cold or from an attack of la grippe. During the epidemic of la grippe a few years ago when so many cases resulted in pneumonia, it was observed that the attack was never followed by that disease when Chamberlain's Cough Remedy was used. It counteracts any tendency of a cold or la grippe to result in that dangerous disease. It is the best remedy in the world for bad colds and la grippe. Every bottle warranted. For sale by S. Howorth & Co.

#### Licenses to Marry.

Jan. 11th—Wm. Browning, 41, of Morrow Co., and Olive Davis, 40, of Bellevue.

#### La Grippe Successfully Treated.

"I have just recovered from the second attack of la grippe this year," says Mr. Jas. A. Jones, publisher of the Leader, Mexia, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days against ten days for the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy, as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting 'down.'" #### Capt. Heath Writes of the Death of Frank Hibbs.

Geo. Hibbs this week received letters from Capt. Heath and Lieut. Young, giving more particulars concerning the death of Mr. Hibbs' son. Capt. Heath's letter is as follows:

"Your son Frank died yesterday, Dec. 8th, at 12 o'clock noon, of heart failure. For some time past he has been troubled with dysentery, and about three weeks ago I had him sent to the general hospital, in order that he could be quiet, and he requested it also. He was in good condition at that time and walked over to the hospital. On the 7th I asked the man who is detailed to look after the company and who visits them in the hospital each day, how Frank was getting on. He said that he was not much worse, but seemed despondent and had said to him that he did not think his dysentery would get better in this climate. So early Thursday morning I went over to see him, and just as I got to the door of the ward the doctor came out and I asked how he was. He told me that he was dying, that complications of the heart had set in during the night and that it would not rally to stimulants. That it was a peculiar case. The doctor asked if there would be any objection to an autopsy being held, and I said no. I went in and saw him but he was unconscious and did not become conscious again. For a short time he opened his eyes but did not know anyone.

"The funeral was held at 5 o'clock on the 8th, the company attending in a body. He was buried in a metallic casket in a niche in Paco cemetery, section 112, niche No. 7. As soon as an inventory of his property is made I will send you a statement of it. Frank has been a good soldier, always ready for duty and I have not had to discipline him at all except for very slight offenses, and for which all the rest have been disciplined. The last duty he did was to dig a grave in Paco cemetery for Lewis E. Miller, for which duty he volunteered. That was the 8th of November and he rode to the cemetery with me in a carriage and he was cheerful and contented. We talked of home and the service here, and to me he seemed all right, although he said that he was troubled with a little dysentery, but he seemed to think that it did not amount to much. The day before he died he received three or four letters from home and I had one for him when I went over to see him which had arrived at the quarters too late to send to him the day before.

"The post mortem demonstrated a bad condition of the heart and bowels, the latter, however, not bad enough to cause death. I have, however, not interviewed the doctor on the matter yet, but will see him on my next visit to the hospital.

"If there is anything you want to know or anything I can do for you in the matter, let me know.

Respectfully,  
H. L. HEATH."

#### An Oregonian in Nebraska.

EDITOR REPORTER—Dear Sir: Perhaps your readers would like to read a few lines from the land of corn and hogs. Well, we landed here about two months ago. I found the country in a snow storm and it is still on the same basis. After my arrival, I bought a team and we took a two hundred and seventy-five mile drive northwest. The eighth day out we found ourselves in one of those Nebraska blizzards, but what of that.

The farmer we stopped with proved to be a brother who owned 212 head of cattle and horses also a fine drove of hogs. This gave us all work for the usual three days, and we all worked like heroes to save the stock. Some of us with team, and what the Nebraskan calls a wind rack, started to haul hay. Well, the boss was driving; he stopped for the gate to be opened when the wind lifted the rack from the wagon, and throwing it over the fence it rolled like a drygoods box for sixty steps. To the average Oregonian this was a rough day, but the boss said this was nothing for Nebraska. I confessed this was all right, but we preferred to eat big red apples and let him have the snow balls. So when the storm was over we called for our bill. The boss said "I'll jump accounts with you." This being the first and only chance we have had to earn bread and butter, I said O. K., then we started for home, a distance of 250 miles, and the snow was from six inches to three feet deep. We saw on our trip many beautiful fields of winter wheat making equal growth with any country. The corn is standing in fields in great quantities and no doubt will for some time to come, yet the farmers are all busy talking about gathering corn. So far as I can see, the farmers are in no better condition in this country than they were when I left here twenty-five years ago.
