Write It Down

Write it down in a book, so you can see it every day, that St. Jacobs Oil is as sure to cure Lame Back or Lumbago as you write it down. It does its best with it and leaves behind a cure that

A Prank of Lightning.

A stroke of lightning has been the means of an extraordinary archaelogical discovery in Voltara. The light. ning struck an old pine tree which crowned the summit of a hill, and the owner of the property ordered the tree cut down. When the workmen began to dig at the roots they unearthed a magnificent Ehruscan grave. It consisted of a spacious vault supported by four immense pillars. All around the grave were large marble tablets, and above them were urns placed in niches. This unique necropolis measured 50 feet in length and 40 feet in width.

## Good Money

Should Buy Cood Medicine That Will Bring Good Health.

The best medicine money can buy is Hood's Sarsaparilla. This medicine brings good health, because it makes good blood. It cures salt rheum, scrofula, rheumatism, dyspepsia, catarrh and other diseases that have their origin in bad blood. It prevents colds, fevers, pneumonia and the grip

#### Hood's Sarsaparilla Is America's Greatest Medicine. Price \$1.

Hood's Pills cure all liver ills. 25 cents.

New Ornamental Panel.

A new form of ornamental panel designed for interior or exterior decoration or utility, is placed upon a base of wire network, on which the panel is built up in relief in whatever design may be desired.

STATE OF OHIO, CITY OF TOLEDO, | 88.

FRANK J. CHENEY makes oath that he is the senior parter of the firm of F. J. CHENEY & Co., doing business in the City of Tolede, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH CURE.

FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886.

A. W. GLEASON, SEAL Notary Public. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free.

are planted with trees. From cork chippings, once thrown away, thousands of yards of linoleum are now made at Delmenhorst, Ger-

### MRS. PINKHAM'S ADVICE.

What Mrs. Nell Hurst has to Say About It.

DEAR MRS. PINKHAM:-When I wrote to you I had not been well for five years; had doctored all the time but got no better. I had womb trouble very bad My womb pressed backward, causing piles. I was in such misery I could scarcely walk across the floor. Menstruation was irregular and too pro-

fuse, was also troubled with leucorrhœa. I had given up all hopes of getting

well; everybody thought I had consumption. After taking five bottles of Lydia E. Pinkham's Vegetable Compound, I felt very much better

and was able to do nearly all my own work. I continued the use of your medicine, and feel that I owe my recovery to you. I cannot thank you enough for your advice and your wonderful medicine. Any one doubting my statement may write to me and I will gladly answer all inquiries .- Mrs. NELL HURST, Deepwater, Mo.

Letters like the foregoing, constantly being received, contribute not a little to the satisfaction felt by Mrs. Pinkham that her medicine and counsel are assisting women to bear their heavy burdens.

Mrs. Pinkham's address is Lynn, Mass. All suffering women are invited to write to her for advice, which will be given without charge. It is an experienced woman's advice to women.

all good orcharding .- Vick's Monthly. Corn-Husking Horse. The horse is made of light material.

The cut explains itself. The rung B should be 114-inch stuff, put in with shoulders cut down to 1 inch where it goes through the legs. The rung is put down so the ears of corn will not eatch when pulled forward. Corn-husking makes lame backs and sore hands, The horse will help the back and the following recipe will help the hands: Take white wax, one-quarter ounce, spermaceti, one-quarter ounce; almond oil, one ounce; glycerine, two ounces. Mix, melt the wax and stir in the oils antil they are perfectly mixed and still

HUSKING HORSE.

continue to stir until cool. Apply to the hands two or three times a day. Wash the hands in warm water and apply the salve while the hands are still quite damp, and rub them until dry.-Ohio Farmer.

Mixed Feed for Hogs. The Dairy Commissioner of the Do-

minion of Canada says: "I have found the best results to be obtained from using such grains (a mixa mixture of peas, corn and bran) ground very fine, and soaked for not less than thirty hours before they are fed. I think hogs should be kept so as to permit, and even to cause them to take a good deal of exercise until after they weigh more than 100 pounds each. In the growing of young pigs it is important that they should receive a daily allowance of skim milk for six weeks or two months after they are weaned. Skim milk is the great fleshforming or muscle and bone-forming food; and if the young pigs are stunted in these regards at that time they cannot be developed into the best class of hogs, no matter what breed they may be of."

Winter Ration for Fowls.

Here is Prof. Gilbert's winter ration: Bran, 3 pounds; fine feed, 3 pounds; cornmeal, 2 pounds; fed with clover hay steamed and cut, adding also a very small quantity of salt, and two or three handfuls of coarse sand and fine They stamp upon an ant hill until the oyster shells mixed. Sometimes boiled vegetables are used in place of the hay. At noon he gives a light feed of oats, and a good feed of wheat in the even-The total length of the streets, ave. ing. The grain ration is varied as nues, bouvelards, bridges, quays, and much as possible. He keeps raw vegeabout 600 miles. Two hundred miles turnips, where the hens can peck at them at any time. Prof. Gilbert has charge of the poultry department at the Ottawa (Canada) experiment station, and has done some good work in bringing out the egg possibilities of hens.-Agriculturist.

Wagon-Washing Device.

On many farms it is possible to wash the carriages and farm wagons by backing them into a stream or shallow river. The conveniences of the location are usually offset by the inconveniences-mud, and the wetting of clothes. The cut shows a plank walk. set on posts on the edge of the stream. into which the wagon can be backed. when it can be washed with great com-

fort. A slat platform, sunk into the

walk, will keep the wheels from the mud of the bottom.-American Agriculturist.

Care of Tomato Plants Tomatoes may be forced in winter like other plants. The bouse should be light and warm, the roof five feet above the bed or benches, plenty of light being essential. The temperature should be from 60 to 65 degrees at night and 70 to 80 degrees during the day, the soil to be rich, and close personal attention should be given the plants. The flowers grown in large pots or boxes.

Distance for Apple Trees.

Cattle Dipping. At a meeting recently by the Texas State Live Stock Sanitary Board, at Fort Worth, Inspector Dean, of the Bureau of Animal Industry, said the department was satisfied with the dipping experiments recently made there and elsewhere, and insisted on maintaining the present quarantine line and a close season. He says dipping stations will shortly be established along the quarantine line. Inspector Dean reported satisfactory results attending the cattle recently dipped and shipped to Illinois. He advised dipping in moderate weather in order to avoid the efheat or cold while their hair was sat- against the French invaders. After the urated with the oil. The formula of the preparation which he recommends, and which has been adopted by the Government, consists of parffin oil,

known as dynamo and sulphur,

Close up all the little outstanding farm accounts. Make a list of the bills you owe, and the amounts owing to you. These little bills in the aggregate amount to a large sum. Make a settlement if you can; if you cannot, get the full amount of your bill; it is always best to know exactly what you do owe, and it is very bad policy to keep a running account-unless a settlement is made every month. Farmers are unusually careless in their money transactions; the only safe way is to keep a strict account of all outlays. Pay as you go, and take a written receipt for every bill paid. These bills should be pasted in a book kept for this one purpose. This work should be done every evening. It is not selfish to be correct in your dealings, nor parsimonious to be economical.—The American.

A Milking Stool. milk-stool that was found to be very years. convenient in fly time or in milking restless cows. The two upright pieces forming the legs and end of the stool are made of two by fours, about a foot

FOR RESTLESS COWS.

well to put three-cornered blocks under dor and would soon have presented his being under Russian jurisdiction. the seat and bucket boards as stays or credentials as such. braces. The most restless cow cannot upset a bucket on this stool.-New England Homestead.

The ! heepfold. The fine wool breeds of sheep are most subject to foot rot. Perhaps the best way to treat it is to cut off the dis-

eased portion and apply nitric acid. Sulphur should be kept in ready reach in the sheep house; insects and vermin do not like it, and it is preventive of many ills. Further, a piece of roll brimstone should be found in the feed troughs of the horses and the cat-

cause losses in the flock are taken in while watering at foul drinking places. Unless the water supply is watched a loss of condition among them, if there is no more serious loss.-Indiana Farmer.

Paint Against Rabbits.

At butchering time or by a visit to the local butcher, secure a quantity of blood. Set it away until it begins to emit an odor. Then lime, which has been thoroughly slaked, should be mixed with the blood, stirring it until about the thickness of whitewash. A little sulphur may be added.

To apply to trees, take an old whitewash brush and cover all parts which the rabbits can reach with the mix-They will not trouble a tree treated in this manner. One painting will last a season, and it is much easier to put on than winding with paper or covering trunks in any other way, besides being more effectual. The lime in the mixture also is beneficial to the trees.-Orange Judd Farmer.

Negroes and Mules.

An Alabama farmer, says that many negroes in the South are ruined by mules, and he thinks he has proved it. must be pollenated by hand in winter. He owns a great deal of farm land, which is done by knocking the pollen which he rents to negroes on condition from the flowers when the atmosphere that they shall do their work with an is dry and catching it in a spoon into ox instead of a mule. As a result, all which the stigma should be thrust. The his tenants are prosperous and pay plants should be well watered as re- their rent promptly. The ox, he exquired, instead of a little and often, and plains, is entirely capable in all the reshould be trained to stakes, the surplus | quirements of the cotton patch, but he branches cut away. They may be also has his limitations, and his colored masier does not think of mounting him and riding off on useless errands or Apple trees should be planted at pleasure trips. As the negro cannot wider distances apart than has usually ride to distant churches, cake-walks or been the custom. The best soils are "hoe-downs," and as he will not walk. none too good for the apple orchard, he goes to bed, and is rested and ready and such will develop much larger for labor in the morning.

SENOR MATIAS ROMERO.

A Gifted Mexican and Diplomat Who Recently Passed Away.

Don Matias Romero, who died in Washington not long since, was one of the best known foreign diplomats in this country, not only on account of his long occupancy of the Mexican legation, but also through his numerous contributions to American periodical literature, which rendered his name fatrees than will the poorer hillsides so miliar to the reading public. He was Discharging Ears and Deafness commonly chosen for orchard sites in very popular in Washington, and earnthe past. For the stronger growing ed the regard of many prominent kinds like the R. I. Greening, Bellflow- Americans, notably of Grant and Liner and Baldwin, a distance of forty feet coln. He was a man of large heart and is none too much, while those with less generous impulses, as was demonspreading heads like the Northern Spy strated at the time of the failure in and Ben Davis should have thirty feet 1884 of the banking firm of Grant & space each way. This assumes that Ward of which Gen. Grant was a partthe orchards are regularly to be culti- ner, when Senor Romero went on from vated, a practice that now prevails in Washington and offered his entire fortune to the general in order to enable him to tide over his personal pecuniary difficulties-an offer that was gratefully declined, and was said to have moved the general to tears.

Senor Romero was 62 years old, 'He was born in the City of Oaxaca, Mexico, and was given such education as the competent colleges of the City of Mexico had to offer the youth of the nation at that time. He was graduated as a lawyer and began his political and diplomatic career in 1855, when he was entered in the foreign office.

In 1859 he came first to Washington as secretary of legation, and for a time was charge d'affaires. He returned to fect of exposing the cattle to either Mexico in 1863 to fight for his country
