N. P. Pederson of North Yamhill was in the city Monday, and chatted us at some length. He is an old sailor of ten years' experience in the Denmark merchant marine, and has sailed in the vicinity of the Philippines. He does not believe that Uncle Sam will make money by holding the islands. By using much persuasive argument on him, however, we believe he left us in a good frame of mind to become a convert to annexation.

"My wife raised the biggest hog in Yamhill county this year," said W. J. Sargent of Bellevue, who was at the St. Charles yesterday. "She's the farmer at my house and I run the store, and between us there is little trouble to get a living. She can raise as much wheat to the acre as any man in the county. In fact, a few years ago she averaged 44 bushels on her 640-acre farm, and that beat my good neighbor, John Henderson, who, after cutting his acreage down below the limit could only show up 42 bushels to the acre. This year Henderson started out to raise the biggest hog in the county. When he killed his prize porker it weighed something over 500 pounds. When the 'pig' my wife had been feeding was killed the scales showed 605 pounds. I guess Henderson will have to race with someone else, for my wife is the best farmer in Yamhill." Mr. Sargent says grain never looked better in his section than it does this year, and while he don't expect 44 bushels to the acre, he thinks his wife's farm will show up a good average this year.—Interview in Telegram.

Loris Johnson, a son of the late Prof. J. W. Johnson of Eugene, arrived home from Manila last week, having been 33 days en route. When a call was made for recruits, young Johnson, against the will of his parents, left home and enlisted in Co. C, Second Oregon volunteers. He was under age and is now but little past 16 years of age, but managed to get in. At the close of active hostilities, owing to his extreme youthfulness, his folks succeeded in getting a discharge for him. Young Johnson left Manila with quite a number of mementoes for home friends, among the lot being 18 canes and a couple of monkeys. The monkeys died on the voyage across the Pacific and the canes were stolen. He reports the health of the regiment very good when he left.

A pretty effect of frost on a window was seen on the west plate glass window of the Chicago store yesterday morning. It took the form of a large plume, and was as pretty as the tail of a peacock, barring the color. The work of nature in this particular often exceeds the skill of the artist.

Most people when sick like to be remembered. Hence the frequency of the mention just now. The grip has been no respecter of persons, and those who have escaped its clutches cannot tell why. While the weather remains cold its ravages may be expected to continue, but the doctors say that it has already passed its zenith, and from now on cases will be fewer.

The special Yamhill county edition of Pacific Progress is out, profusely illustrated with portraits of home people and home scenes. The present winter has been a very hard one on the old people of Oregon. Probably more have died this winter than ever before in the history of the state, many of them prominent in the early settlement of Oregon. The members of the old guard are rapidly passing away. A winter that is hard on the old is also hard on others. Take care of yourselves.

**To Compound Prescriptions**

Properly it takes time. It requires experience and a complete knowledge of drugs. It requires the druggist to have on hand a large variety of drugs—fresh drugs. He must give the best possible work, and for compensation he must be reasonable. With the above facts remember we are careful and strive to please one and all alike. These are reasons why our prescription file thrives all in this county. We are recognized by doctor and customer alike for being accurate and dispensing only the purest drugs.

**"Any Old Thing"**

Suits some people, because it's cheap, while as a matter of fact, dirt cheap goods are usually dear at any cost, especially in our line of trade. We keep some cheap goods in order to please those who must have them, but we constantly preach as a business principle the wisdom of buying a good article that it cost a trifle more. It's a saving in the long run of money and temper. Hence the quality of our goods, and the pleasant countenances of our customers.

**The Store that Advertises**

Is the Store that is known, and the Store that is known is the Store that trade goes to, and the Store that trade goes to is the Store that does the business, and the Store that does the business is the Store that can't afford to cheat.

Hence, when we tell you that we never misrepresent our groceries, it is not alone because we do not believe in lying, but we can't afford to. We are told, and are thus given a right to reiterate it, that the customer who steadily buys his groceries of us, comes out ahead of the fellow who buys of our competitors.

**This is Our Supreme Aim:**

A legitimate profit to us, a satisfied customer when he leaves our store. Suppose you try W. & W.'s store long enough in 1899 that we may make you a customer far into the 20th century.
