The gang had a \$50 note and a \$100 note partly finished, and planned to make plates for a \$20 note. They had paper and machinery to carry out the plan.

AMERICAN TROOPS ADVANCE

Occupied Quingua After a Sharp Engagement.

REBELS DRIVEN FROM A TRENCH

Col. J. M. Stotsenburg, of the Nebraska Regiment, Killed While Leading a Charge—Lieut. Sisson Also Killed.

Manila, April 25.—Four men of the Nebraska regiment, including Colonel Stotsenburg, Lieutenant Sisson, and three men of the Fourth cavalry, were killed, and 44 wounded in an engagement at Quingua. The Filipinos retreated with small loss.

The engagement developed into a disastrous, though successful, fight. The insurgents had a horseshoe trench, about a mile long, encircling a rice field on the edge of a wood.

Major Bell, with 40 cavalrymen, encountered a strong outpost. One of his men was killed and five were wounded by a volley. The Americans retired, carrying their wounded under fire and with great difficulty, being closely pursued, fog enabling the enemy to creep up to them. Two men who were carrying a comrade were shot in the arms, but they continued with their burden.

Major Bell sent for reinforcements to rescue the body of the killed cavalryman, and a battalion of the Nebraska regiment, under Major Munford, arrived and advanced until checked by volleys from the enemy's trenches. The Americans lay about 800 yards from the trenches behind rice furrows under fire, for two hours. Several men were sunstruck, one dying from the effects of the heat as they lay there waiting for the artillery to come up.

Finally the second battalion arrived, and then Colonel Stotsenburg, who had spent the night with his father at Manila, came upon the field. The men immediately recognized him and raised a cheer. Colonel Stotsenburg, deciding to charge as the cheapest way out of the difficulty, led the attack at the head of his regiment. He fell with a bullet in the breast, dying instantly, about 200 yards from the breastwork.

Lieutenant Sisson fell with a bullet in his heart, the bullet striking him near the picture of a girl, suspended by a ribbon from his neck.

In the meantime the artillery had arrived and shelled the trenches. The Filipinos stood until the Nebraska troops were right on the trenches, and then they bolted to the second line of the trenches, a mile back.

The Nebraska regiment lost two privates and had many wounded, including two lieutenants. The Iowa regiment had several wounded. The Utah regiment had one officer and three men wounded. Thirteen dead Filipinos were found in the trenches. Their loss was comparatively small on account of their safe shelter.

The Americans carried the second trench with small loss, and are holding the town tonight.

Colonel Stotsenburg had won a reputation as one of the bravest fighters in the army. He always led his regiment and had achieved remarkable popularity with his men since the war began, although, during his first colonelcy, the volunteers who were not used to the rigid discipline of the regular troops thought him a hard officer. The loss of the Nebraska regiment in the campaign is the greatest sustained by any regiment, and today's disaster has greatly saddened officers and men, who promise to take fierce vengeance in the next fight.

BURNED AT A STAKE.

Georgia Negro Cut With Knives and Then Set on Fire.

Newnan, Ga., April 25.—In the presence of nearly 2,000 people, who sent aloft yells of defiance and shouts of joy, Sam Hose, a negro who committed two of the basest acts known in the history of crime, was burned at the stake in a public road one and a half miles from here, this afternoon.

Before the torch was applied to the pyre, the negro was deprived of his ears, fingers and other portions of his anatomy. The negro pleaded pitifully for his life while the mutilation was going on, but stood the ordeal of fire with surprising fortitude. Before the body was cut into small bits, the bones were crushed into small bits, and even the tree upon which the wretch met his fate was torn up and disposed of as souvenirs. The negro was cut in several pieces, as was also his liver. Those unable to obtain the ghastly relics direct paid the more fortunate possessors extravagant sums or them. Small pieces of bone went at 25 cents, and a bit of the liver, crisply cooked, sold for 10 cents.

Sam Hose killed Alfred Cranford, a white farmer, near Palmetto, and outraged his wife, 10 days ago.

Demands Coghlan's Removal.

Chicago, April 25.—The Illinois Staats Zeitung, in a furious editorial on Captain Coghlan's utterances at New York, demands his removal, concluding: "The American government should get rid of officers of the kind of Coghlan."

The Counterfeiters' Plot.

Philadelphia, April 22.—Secret service men say the counterfeiters arrested here and in Lancaster, Pa., intended to attempt to bribe a trusted official of one of the United States sub-treasuries and dump \$10,000,000 of counterfeit notes directly upon the government. The gang had a \$50 note and a \$100 note partly finished, and planned to make plates for a \$20 note. They had paper and machinery to carry out the plan.

FOUL CRIME IN INDIANA.

Wealthy Woman Murdered for Her Money.

Pana, Ill., April 24.—The mutilated body of Miss Jane Brunot, a wealthy woman of Pana, Ind., was found buried in an abandoned well on the farm of her sister-in-law near here today. Mrs. Anna Brunot, her son, Henry Brunot, and Frederick Sibley are under arrest in this city, charged with the murder. The chief of police says that the persons under arrest decoyed Miss Brunot to the farm, and shot her through the head, and buried her body in an abandoned well.

Miss Brunot came to this city on a visit about April 1. It is said she brought with her a valise containing a draft for \$500 and other valuables. Neither Miss Brunot nor the valise was ever seen after April 1. A few days later Henry Brunot and Sibley disappeared. The police learned that the two went to Indianapolis, where they, it is said, cashed a draft for \$500, and spent the proceeds.

On the strength of this clew, and a letter from Indiana friends inquiring for Miss Brunot, the three inhabitants of the Brunot farm were arrested this morning. At 8 o'clock the police found Miss Brunot's decomposed body in an old well. Her clothing was found in the garret of the farmhouse.

IN THE INTEREST OF SCIENCE.

An Exploring Expedition to Be Led to the Brazilian Coast.

Stanford University, Cal., April 24.—Professor Alexander Agassiz, of Harvard, has made arrangements for Dr. Braunar, of the geology department here, to lead an expedition into South America in the interest of science.

The work will be upon the coral reefs of the Brazilian coast, extending from Ceave nearly to Rio Janeiro. The stone reefs will be mapped, and their relations to the geological history of the South American continent will be studied. Collections will be made for the museum of comparative zoology of Harvard university.

Professor Agassiz will afterwards publish the results of the work in the bulletin of the museum of comparative zoology at Cambridge. The party will leave New York about June 1, and will return in the middle of September.

DOUBLE TRIUMPH FOR QUAY.

Verdict of Not Guilty—Governor Stone Appoints Him United States Senator.

Philadelphia, Pa., April 24.—Matthew Stanley Quay was today declared by a jury to be not guilty of the charge of conspiracy to use for his own unlawful profit funds of the state deposited in the People's bank of this city.

The court officers were unable to keep back the struggling crowd that pressed forward to congratulate Quay, when the verdict of the jury was announced. As soon as Quay could get away from those anxious to shake his hand and congratulate him, he made his way to the elevator to descend to the street from the sixth floor of the municipal building. Here the scenes just enacted in the courtroom were repeated. Enthusiasts rushed forward and attempted to hoist him on their shoulders, but he waved them back, saying "Oh, no; I'm too old a man for that."

Quay walked with his friends to the office of his counsel, where he made his escape from the crowd.

Harrisburg, Pa., April 24.—Shortly after noon Governor Stone appointed Matthew Stanley Quay as senator to serve until the next session of the legislature.

The appointment is addressed to the president of the United States, and it is stated in the letter to be made under the authority of clause 2 of section 3 of article 1, of the constitution of the United States.

The clause above quoted says: " * * * Seats of the senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and of the third class at the expiration of the sixth year, so that one-third may be chosen every second year; and if vacancies happen by resignation, or otherwise, during the recess of the legislature of any state, the executive thereof may make temporary appointment until the next meeting of the legislature, which shall then fill such vacancies."

ON A TECHNICALITY.

The Charges of General Miles Will Not Be Sustained.

Washington, April 24.—The forecast of the beet inquiry report indicates that the charges of General Miles will not be sustained, although there is such a mass of testimony to show that had beef was distributed to the army. The reason for this will be technical. Miles showed nothing in his charge against canned beef, but used the term "embalmed beef." On this technicality it may be shown that the charges were not sustained.

The people will not be convinced that the board was not packed in the interest of the war department. It is also possible that there will be a demand for an investigation by congress from those who believe that neither the war committee nor the beef board was unbiased. The people are not ready to accept the reason of the two boards, who seem to sustain Algerism in the department.

Hobart's Condition.

Washington, April 24.—Vice President Hobart is in such poor health that it is doubtful if he will be able to preside in the senate next winter. He may recover, and his physicians are confident, but he will not run for vice-president again.

Washington, April 24.—Ex-Governor Lord, of Oregon, has declined the tender of the mission to Persia. Governor Lord was an applicant for the Peruvian mission.

TIMBER CRUISERS POISONED

Entire Party That Left Seaside Perished.

CAUSED BY CANNED FOOD

Bodies of Three of the Men Found—Parties Searching for the Fourth—No Marks of Violence.

Astoria, Or., April 26.—That the entire party that left Seaside April 7 on a timber cruise are dead is an assured fact as the bodies of three have already been found and search is still in progress for the fourth, who was the oldest and weakest member of the party.

As soon as S. H. Doty's body was found and brought into Seaside Saturday afternoon, Louis Chance, known as "Indian Louie," and John Burke were engaged to start out in search of the remainder of the party, who consisted of P. E. Heikman, a civil engineer, of this city; W. T. Radir, a timber locator, of Portland, and A. J. Cloutrie, of Seaside, who accompanied the party as a guide, as he was thoroughly familiar with that section of the country.

This afternoon "Indian Louie" returned with the information that they had found the bodies of Heikman and Radir at the foot of Sugar Loaf mountain, some distance apart, and about three miles from where Doty's body was found. "Indian Louie" returned to give the news, while Burke continued to search for the body of Cloutrie. According to information received, there were no marks of violence on the bodies, and the cause of their death can at the present time only be surmised, but it is generally supposed that it was the result of eating poisoned canned meat or vegetables.

A party started out from Seaside this afternoon to bring back the bodies, but it may be several days before they will arrive, as it is about 15 miles through a very rough country. Some writing may be found on one of the bodies that may explain the cause of the cruisers' deaths, but it now appears quite certain that they had been dead longer than at first supposed. The last entry in the field notes found on Doty were dated April 9, only two days after the party had started out from Seaside.

P. E. Heikman was 39 years of age, and a native of Germany. His father is now a major in the German army. He came to this country about 20 years ago, and was employed for several years in the engineering department of the Union Pacific at Omaha.

A. J. Cloutrie was 65 years of age. He came to this county from Portland about four years ago, and lived at Seaside during most of the time.

"Indian Louie" today made the following statement: "My opinion is that Cloutrie got hurt in some way, and they all stayed with him until he died, meantime exhausting all their provisions, matches, etc. After Cloutrie's death they evidently were lost, and wandered about seeking to recover their bearings. Whether the supposition that the death of any or all of the party was due to poisoning from canned meats or other edibles is true, there was nothing in their surroundings to indicate. Cloutrie was one of the most practical woodsmen in this section of the country. According to the notes found on Doty's body, the party was through its work and on its way out."

ARMY AT CALUMPIT.

MacArthur's Troops Before the Rebel Stronghold.

Manila, April 25.—On General Hale's advance on Calumpit 50 Filipinos and one American were killed. Hale is now before Calumpit. The army gunboats are of no further use to the army beyond Malolos, and have started back to Manila.

The Americans have evacuated Malolos, and hold only the railroad property.

Progress of Lawton's Troops.

Manila, April 26.—Although the sticky condition of the ground, due to a rain storm, seriously impeded its progress, General Lawton's column left San Jose today, and is expected to reach Norzagaray this evening.

Colonel Summers is marching from Bocave with two battalions each from the Oregon and Minnesota regiments, three troops of cavalry and two guns.

In the meantime General MacArthur's division is in front of Calumpit, preparing to attack the rebels' stronghold, and General Hale, with several guns, is threatening the enemy's flank.

A few rebels between Novalesches and La Loma have persistently interfered with telegraphic communication, but the signal corps has repaired the breaks and captured several prisoners.

A small body of rebels at Taktay was discovered this morning by the armored launch Napidan. A few shots scattered the rebels and drove them inland from the lake.

All is quiet along General Hall's and General Owenshine's lines.

Another Cigar Seizure.

Toledo, O., April 26.—Revenue officers today seized 30,000 cigars with counterfeit stamps. The total seized in this city is now over 70,000.

Getting Evidence.

Washington, April 25.—In spite of all denials, it is true the cabinet and the president have discussed sedition and treason as shown in the messages and letters sent to the soldiers in the Philippines and intercepted by General Otis. It is believed the matter will be again taken up by the cabinet as soon as details are sent by Otis and the names of the persons who have fought the government in this way will be made public.

HAS ENTERED A PROTEST.

Germany Takes Exception to the Utterances of Captain Coghlan.

Washington, April 26.—The German government has entered a formal protest against the language used by Captain Coghlan at the Union League Club banquet. The protest was lodged with Secretary Hay through German Ambassador von Helleben. Secretary Hay replied that the language could not be regarded as official or a public utterance in the sense that would warrant the department in acting. However, the navy department was fully competent to take such action as the case seemed to require.

There are semi-official intimations that the ambassador will not so much concern himself with the course of Coghlan as with the United States in dealing with Coghlan.

Hay Expresses Disapproval.

Berlin, April 26.—It is announced in a semi-official note today that United States Secretary of State John Hay has expressed to the German ambassador his strong disapproval of the conduct of Captain Coghlan, of the cruiser Raleigh.

FORTY-EIGHT NEW WARSHIPS.

Uncle Sam's Navy Growing at a Rapid Rate.

New York, April 26.—A special to the Tribune from Washington says: The completion within a few months of two great battle-ships, the Kearsage and Kentucky, serves to call attention to the remarkable rate at which the American navy is growing at the present time. Except among naval officers, who watch this progress, few persons realize that 48 warships are now under construction for the United States, involving expenditures under existing contracts aggregating \$33,336,600 for hulls and machinery alone.

These vessels, when equipped ready for sea, will have cost over \$50,000,000. Eight of them are first-class sea-going battle-ships, as good as any afloat, without taking into account the superiority of the gunners, machinists and officers to man them. Sixteen are torpedo-boat destroyers, averaging 29 knots speed; four are heavy harbor-defense monitors; one is a sister cruiser to the New Orleans, and 18 are torpedo-boats.

HAS AN AXE TO GRIND.

John Bull Will Not Abrogate Clayton-Bulwer Treaty for Nothing.

New York, April 26.—A special to the Herald from Washington says: Although willing to abrogate the Clayton-Bulwer treaty, Great Britain has made it plain to the United States that she expects an equivalent in return for her action. This equivalent will be exacted during the negotiations of the American-Canadian commission, which is to resume sessions in Washington in August next.

It is because of a demand for concessions equal in value to that which will be given to the United States in the abrogation of the Clayton-Bulwer treaty that the negotiations have not progressed with the promptness at first expected.

It is apparent to the officials now that Great Britain proposes to use the proposition to abrogate the treaty to further its own aims in connection with the settlement of the Alaskan boundary and reciprocity questions.

Great Britain is determined to make every effort to secure entry to the Northwest Territory through Alaska, and the United States is not willing to give it to her. It may be, therefore, that she will suggest that in return for such an outlet she will surrender all her rights in the Nicaraguan canal.

President McKinley and Secretary Hay have determined not to enter into any negotiations with either Costa Rica or Nicaragua respecting the Nicaraguan canal until the new isthmian canal commission has submitted its report. The Nicaraguan canal commission will report within a short time, and the president will then announce the personnel of the isthmian commission. The new commission will then proceed to Panama and later to Nicaragua, and it is the expectation of the president that it will submit its report in time for consideration early in the next session of congress.

WORK OF A MOB.

The Alleged Accomplish of Sam Hose Hanged Near Palmetto.

Palmetto, Ga., April 26.—The body of Lige Strickland, the negro preacher who was implicated in the Cranford murder by Sam Hose, was found swinging to the limb of a persimmon tree within a mile and a quarter of this place early today. Before death was allowed to end the sufferings of the negro, his ears were cut off, and the small finger of the left hand was severed at the second joint. These trophies were in Palmetto today. On the chest of the negro was a scrap of blood-stained paper fastened with an ordinary pin.

On one side of this paper was written: "New York Journal. We must protect our ladies, 23-99." The other side of the paper contained a warning to the negroes of the neighborhood. It read as follows: "Beware, darkies. You will be treated the same way."

Before being finally lynched, Strickland was given a chance to confess to the misdeeds of which the mob supposed him to be guilty, but he protested his innocence until the end.

CARRIED OPEN LAMPS.

Explosion in a Coal Mine Killed Four Men and a Boy.

Denver, April 24.—A special to the News from Albuquerque, N. M., says: Four men and a boy employed in Cook & White's coal mine at Madrid lost their lives at noon today. Orders are strict to the effect that only safety lamps shall be used in the mine, but two men, some time after the foreman had made his rounds, carried in open lamps.
