> CANCER IS DEADLY! This fearful disease often first appears Results Fatally in Nine as a mere scratch, a pimple. or lump in Portland. the breast, too small to attract any Cases Out of Ten—A notice, until, in many cases, the deadly disease is fully developed. Cure Found at Last.

Cancer can not be cured by a surgical operation, because the disease is a virulent poison in the blood, circulating throughout the system, and although

the sore or ulcer-known as the Cancer-may be cut away, the poison remains in the blood, and promptly breaks out afresh, with renewed violence.

The wonderful success of S. S. S. in curing obstinate, deep-seated blood diseases which were considered incurable, induced a few despairing sufferers to try it for Cancer, after exhausting the skill of the physicians without a cure. Much to their delight S. S. S. proved equal to the disease and promptly effected a cure. The glad news

spread rapidly, and it was soon demonstrated beyond doubt that a cure had at last been found for deadly Cancer. Evidence has accumulated which is incontrovertible, of which the following is a specimen :

"Cancer is hereditary in our family, my father, a cancer is hereaftery in our ramity, my rather, a sister and an aunt having died from this dreadful disease. My feelings may be imagined when the hor-rible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way as to cause great alarm. The disease seemed beyond the skill of the doctors, for their treatment did no good whatever the Cancer growing works all the while whatever, the Cancer growing worse all the while. Numerous remedies were used for it, but the Cancer grew steadily worse, until it seemed that I was doomed

to follow the others of the family, for I know how deadly Cancer is, especially when inherited. I was advised to try Swift's Specific (S. S. S.), which, from the first day, forced out the poison. I continued its use until I had taken eighteen bottles, when I was cured sound and well, and have had no symptoms of the dreadful affliction, though many years have elapsed. S. S. S. is the only cure for Cancer.-Mas. S. M. IDOL, Winston, N. C.
