DYNAMITE as a persuader is not regarded with favor by the employers of labor, as the Couer d' Alene rioters will probably find out to their sorrow. They have blown themselves out of all chance of a job.

ALABAMA democrats are quarreling because the gold standard sentiment is growing in the party. The Globe-Democrat says of this, that the silverites can gain nothing by losing their temper as they slide down hill.

A FEW of the democratic party leaders are protesting against the prosperity figures recently given out by Secretary Gage. They do not dispute the figures, but claim that such statistics should emanate from some other department.

DEMOCRATS and populists think, or say they think, that the tariff is the parent of the trusts. They are mistaken. The strongest trust in the United States, the Standard Oil "combine," is not aided by the tariff in the slightest degree, for petroleum, refined as well as crude, is on the free list. One of the most arbitrary and iniquitous trusts in this

country is that which controls hard coal, and yet not a cent of duty is imposed on hard coal. And indeed there are many other instances of enthusiastic editors throughout the gigantic trusts that are not fostered

FOR BLOOD POISON There is not the slightest doubt that the doctors do more harm than good in treating Contagious Blood Poison; many victims of this loathsome disease would be much better off to-day if they had never allowed them-selves to be dosed on mercury and potash, the Cure Yourself at Home. only remedies which the doctors ever give for blood poison.

The doctors are wholly unable to get rid of

this vile poison, and only attempt to heal up the outward appearance of the disease—the sores and eruptions. This they do by driving the poison into the system, and endeavor to keep it shut in with their constant doses of potash and mercury. The mouth and throat and other delicate parts then break out into sores, and the fight is continued indefinitely, the drugs doing the system more damage than the disease itself.

Mr. H. L. Myers, 100 Mulberry St., Newark, N. J., says: "I had spent a hundred dollars with the doctors, when I realized that they could do me no good. I had large spots all over my body, and these soon broke out into running sores, and I endured all the suffering which this vile disease pro-duces. I decided to try S. S. as a last resort, and was soon greatly improved. I followed closely your 'Direc-tions for Self-Treatment,' and the large splotches on my chest began to grow paler and smaller, and before long disappeared entirely. I was soon cured perfectly and my skin has been as clear as glass ever since. I cured my-self at home, after the doctors had failed completely." It is valuable time thrown away to expect the doctors

to cure Contagious Blood Poison, for the disease is be-yond their skill. Swifts Specific-

-acts in an entirely different way from potash and mercury-it forces the poison out of the system and gets rid of it entirely. Hence it cures the disease, while other remedies only shut the poison in where it lurks forever, constantly undermining the constitution.
