Germany has withdrawn objections. and will now accept arbitration. A six story building burned in Bos-

ton entailing a loss of \$180,000.

FAVORABLE REPORT. PRESENT FORCE TOO SMALL General Otis Details Conditions in the

Philippines. Washington, June 28.-General Otis, in reply to a cable from the war department, asking for information regarding the situation and conditions in the Philippines, today cabled a long reply

"Manila, June 28 .- Adjutant-General, Washington: It is the rainy season, and there is little inland cam-

paigning in Luzon. We occupy the larger portion of the Tagalog country, our lines stretching from Imus, south, to San Fernando, north, nearly 60 miles, and eastward into Laguna province.

"The insurgent armies have suffered Herald from Washington says: great losses, and ary scattered. The only large force together is about 4,000 of bands of from 50 to 500. In other porcent defeats.

"The mass of the people, terrorized by the insurgent soldiers, desire peace land on a special train, and everything and American protection, and no longwill be done to make pleasant and in- er flee on the approach of our troope, gladly welcome them. There has been no recent burning of towns.

"The population within our lines is General Otis. He believes 65,000 men, with the best of music, and will be are taking up land cultivation extenmuch as possible, as the city popula- in the other islands. tion is becoming too great to be cared

"The natives of Southeast Luzon are combining to drive out the insurgents.

"The only hope of the insurgent proclaim the near overthrow of the present administration is to be followed by their independence and recognition by the United States. This is the influence which enables them to hold out. Much contention prevails among them. and no civil government remains.

"Trade with ports not in our possescertain of the wisdom of this policy. as the people in those ports are without a supply of food, and the merchants are suffering losses.

"The courts are in successful operation, under direction of able Filipinos "Affairs in the other islands are comparatively quiet, awaiting the re-

sults in Luzon. They are anxious for reinforced. trade, and repeated calls for American troops are received. Am giving attention to the Jolo and Palawan islands,

"The American troops have worked to the limit of endurance. The volunteer organizations have been called in and replaced by regulars, who now occupy salient positions. Nebraska, Pennsylvania and Utah are now taking transports, and the Sixth infantry will be sent to Negros to relieve the Californians. These troops are in good physical condition.

"Sickness among the troops has increased lately, due mostly to arduous service and climatic influences. There is nothing alarming, however. Of the 12 per cent of the command reported sick, nearly 6 per cent are in the genof which are due to wound injuries. Many of the officers and men who served in Cuba break down under a recurrence of the Cuban fever, and the regular regiments lately received are inadequately officered. OT18." General Otis' detailed report is conOtis Needs More Men to Conquer the Filipinos.

POLITICAL SITUATION SERIOUS

Otis Gave In to the Administration When He Made His Estimate of the Number of Troops Required.

New York, June 2 .- A special to the

Major-General Miles is an advocate the dispatch of reinforcements to in Tarlac province, and Northern Pam- General Otis. He declined to discuss panga. Their scattered forces are in the political position in the Philippines other than to say it was serions. tions of Luzon-in Cavite and Batangas nor would he give any idea of the provinces-they could assemble possi- troops that should be sent to the Philbly 2,000, though demoralized from re- ippines to place the archipelago under American control.

General Marcus P. Miller, who recently arrived from the Philippines, where he governed Ilo Ilo, has been living here since his return. General teresting their first visit to Oregon and unless forced by the insurgents, but Miller's view as to the number of men required for the subjugation of the islands is very different from that of

> becoming dense, and the inhabitants at least, are required; 30,000 for the control of Luzon, and the remainder sively, being kept out of Manila as for the restoration of peace and order General Miller's view coincides with

> General Lawton's and that of other officers subordinate to General Otis. In fact, in other than administration circles there is a disposition to believe leaders is United States aid. They that General Otis' estimate of the men required was made when he knew of the desire of the president not to raise

volunteers if possible to avoid it. There is no truth in the story that General Miles has applied to be sent to Manila. General Miles would not wish to take any action to displace General Otis when that officer is doing commercial welfare. sion, the former source of insurgent all he can to quell the rebellion with revenue, is now interdicted. Am not the limited means at his command. Notwithstanding the report to the contrary, the president is satisfied with General Ots' course, and has no inten-

tion of relieving or recalling him. It is equally untrue, it is asserted by Acting Secretary Meiklejohn, that Gen- our commerce with Asia in a marked eral Otis has cabled that he will be degree." compelled to retreat unless promptly

# ATLIN ORE DISCOVERY.

#### Young Woman Locates a Vein a Mile Long.

Chicago, June 27 .- A special to the Chronicle from Tacoma, Wash., says: "Miss Frankie Flormon, of the Black Hills, S. D., has discovered what Atlin mining men believe will become the greatest quartz mine in Alaska and British Columbia. It consists of an ore vein from 200 to 600 feet in width and nearly a mile long. In its course this

immense vein is intersected by Atlin City. The ledge is a true fissure of free milling ore, with a hanging wall of serpentine and a foot wall of quartzite. The largest surface assay is \$27, eral hospital, of whom 3 per cent have and many assays average \$8, making it typhoid and 17 malarial fever; 12 per much richer than the famous Treadcent have intestinal trouble, and the well mine, if these values continue remainder have various ailments 14 with the depth. To determine this, After making her first location, Hiss salmon-fishing business.

# RECOVERY OF THE WEST.

What Controller Dawes Saw on His Trip to the Coast.

Chicago, June 27 .- Controller Dawes was in Chicago today on his return journey from Puget Sound, whither he accompanied Senator Fairbanks, of Indiana. The latter went up to Alaska on the revenue cutter McCulloch to investigate the boundary dispute. The controller spoke of the financial condition of the West, and other matters of current interest, saying:

"Today the West is becoming a creditor instead of a debtor, and is doing a large portion of its business with its own capital. Many of the banks in the West, which a few years ago were rediscounting large lines of paper at high rates, in the East, are now competitors in the making of loans in the Eastern market.

"The condition of business throughout the West is extremely good, and in conditions marked contrast with which existed there several years ago. The people seemed to be engaged almost exclusively in the development of the great resoucces of the country.

"The West of 1892 was in a great measure devoted to speculating upon future values, as was to a certain extent the case throughout the country; but the West of 1899 is developing present values. While the Western man of 1892 dealt largely in equities, he is is now dealing very largely in unencumbered fees. The recovery of the West from the depression of 1893 has been splendid. That such complete recovery could be made on the Pacific coast in a few years is a commentary

upon the great resources of the country, and a tribute to the character of its population. "There seems to be a general senti-

ment on the part of the people on the coast that the Alaska-boundary difficulty will be properly and rightfully settled without trouble. They feel, however, the kenest interest in the subject, and fully realize the import-ance of a proper decision to their own

"The question of Asiatic commerce has become one of added interest and importance to the coast since Dewey's victory at Manila, and the aggressiveness and alertness which the Western people have heretofore shown in common will inure to the betterment of

#### Passenger Cars Wrecked.

Topeka, Kan., June 27 .- The Union Pacific west-bound passenger train No. 1 was ditched at 9:30 o'clock at Ogdensburg, a little station seven miles east of Junction City. A telephone message from Junction City at midnight says that a relief train has just left for the scene of the wreck. Three persons are reported seriously and perhaps fatally injured. The train struck a split switch. The engine, tender, express car, mail car and a day coach are ditched, the sleeper remaining on the track.

Kansas City, Mo., June 27 .- At 2:30 A. M., Union Pacific officials here state that only one person was injured in the wreck at Ogdensburg. Frank Rooke, of Kansas City, the express messenger, was slightly injured.

Religious Riot Among Indians. Vancouver, B. C., June 27 .- Three shafts are now being sunk. Miss rival factions of the Indian community Flormon, her father and friends have at Port Essington had a bloody fight located claims covering the entire last Saturday. The steamer Princess ledge. It was discovered by her two Louise brought the news here, and months ago, while she was hunting for many of the Indians who took part in mineral. She has been prospecting in the fight came on her. It appears that Atlin for some time with her father, a few weeks ago the Indians encamped who is a well-known mining expert. at Essington went on a strike in the Flormon superincended the work of A corps of the Salvation Army arstripping the ledge to determine its ex- rived shortly afterwards and comtent. She has also acquired a site for menced to hold revival services. These were very popular for some time, and Frank Baker, a prominent Atlin oper- the Methodist and Church of England fator, has bonded her interest for missionaries then decided to emulate \$200,000 and started Expert William the example of the Salvationists, so that soon they had the camp about equally divided among them. This condition of affairs resulted in a serious riot, in which many Indians were injured, but none killed.

All the Northwest Invited

WELCOME

The National Editorial Association is one of the most extensive institutions of its kind in the world. In its membership are embraced the editors and proprietors of newspapers in every part of the United States. Every year this association holds a national convention, and this year it was decided to hold the convention in Portland, ting of his boat on Peacock spit at the Oregon, although many cities competed for the honor.

The editorial delegates to this great national convention will come to Portthe northwest.

Their sessions in Portland will be held in the Marquam Grand theater, and will be interestingly interspersed open and free to the public. On one of their evenings the editors will hold a Eugene Field memorial service, which will be a tender and touching tribute for. to one of America's geatest journalists

and poets. Portland extends a very cordial invitation to the people of the surrounding country and of the entire North. west to come and help her enjoy her

great Fourth of July. It will be an occasion quite full of enjoyment, and there will be things to see that have never been seen before.

Portland itself is now a city of 90, 000 people, a beautiful city, with all oared and Cornell freshmen were the modern conveniences and the best winners. The eight-oared race was an drinking water in the world. On all exciting contest between the Ithacans occasions the city is an interesting and inexpensive place to see, and you can ride for many miles in airy, open electric cars for five cents. There are beautiful parks to visit, and many attractive suburbs, and the five-cent fare enables the visitor to see them all.

One of the sights of this Fourth will be the launching of the torpedo-boat destroyer Goldsborough, which is being built in Portland at a contract cost to the United States government of \$285.000.

Portland business men have contributed nearly \$8,000 to defray the expense of having a good celebration and entertaining the editors this year, and that means that there will be many first-class attractions and amusements. all free to the people. There will be boat races and bicycle races and a parade that will excel anything of the kind ever seen in the Northwest, comprising cavalry, infantry, artillery and naval battalions, and all the military bands. In the big procession will be many civic societies and industrial floats, and there will be a brilliant public reception to the National Editorial Association, whose delegates will
