Obituary and marriage notices not exceeding 10 lines published free, if furnished in time to be current news. Additional matter 10 cents per line.

FRIDAY, JUNE 30, 1899.

BOSTON, the seat of anti-expansion, it will be remembered, was the source of most of those hysterical dispatches a year ago about "bombarding heard off the coast of New England."

MR. ALTGELD remarks that "if the democrats attempt to drop the Chicago platform the result will be the dissolution of the party." He could have gone further and said that sticking to it will cause a bigger defeat than that of 1896.

PORTLAND people are hugging themselves because of their escape from disastrous floods which they deemed inevitable early in the season. Providence has indeed been kind to the residents of the Columbia river basin this year.

THE Filipino envoys who were so well treated in Manila recently will be disappointed when they learn that a repetition of their visit will not be permitted. They were looking forward to many pleasant occasions of this kind, too.

THE good book tells us that there is a time for all things—to weep, to mourn, to dance, and perhaps one may add, to smile. The farmers having late sown grain are the ones who are smiling the broadest now, over the recent showers. The gentle rain has been a blessing in many ways.

A NEW use has been found for printers' ink. It is said by placing it around the base of prune trees it will prevent a new and destructive variety of insect from attacking the trees and destroying the fruit. Another illustration of the fact that a liberal use of printers' ink is a good thing in any line of business.

THE association of business men of Chicago who favor simple spelling will experience no difficulty in mastering the art. There is nothing so simple as simple spelling when one gets used to it. Still, we have been maintaining public schools at great cost in order to prevent too much simplicity along these lines.

"THE fruit crop of the entire world, north of the torrid zone, is short this year, and the cause has been just the same as in Oregon—prolonged cold rains," says Secretary H. E. Dorsch, of the Oregon state board of horticulture. Mr. Dorsch bases his assertion on information received from fruitgrowers all over the United States, and on letters received from American consuls in foreign countries.

VISITING Canadian editors at Spokane last Monday, by a simple act of courtesy, endeared themselves to a grateful people. On the flower-strewn carpet of Ensign Monaghan, who was killed by the natives in Samoa, lying in state at the city hall, and beside the red, white and blue of the United States, President Walter Scott, of the Western Canada Press association, placed the red, white and blue of Canada, while his brother editors, with bared heads, marched slowly by and paid a mute respect to the dead hero.

QUEEN VICTORIA has just celebrated the sixty-second anniversary of her accession to the throne, and it is said that the patience that has marked the long wait of her oldest son is telling upon him. The signs of old age which he has lately exhibited are rapidly increasing, and as an evidence of his rapid decline it is mentioned that he recently appeared in public in a pair of old shoes. By this breach of etiquette we are expected to believe that the prince is despairing of becoming the monarch, and has begun to economize in a manner peculiar to common people—by wearing out his old clothes.

WALLA WALLA has at a special election voted to bond the city for \$132,000 dollars to purchase the

water works now owned by private franchise and build sewers. An exchange calls this quite a practical hint to new municipalities to keep such matters in their own hands.

There is at least a glimmer of a new day in Tennessee, where a white farmer of influence has been sent to prison for ten years for killing a negro woman.

The Michigan legislature and the Connecticut legislature adjourned almost simultaneously, each after a more than five months' session, and it does not appear that the demise of either is greatly lamented.

McMINNVILLE people who go fishing and put their trust in the good old-fashioned remedy will learn with regret that a bacteriological antidote for snakebite has been discovered by a Philadelphia doctor.

THE honors won by Admiral Dewey have stimulated young men who are ambitious. So great is the rush of naval recruits in the large cities that the officers in charge are fairly overwhelmed. In some cities, the crowd at the door on opening day numbers a thousand men, all anxious to go to sea and become admirals.

THE internal revenue department has made a ruling that is of particular interest to all members of lodges and of secret societies. It provides that hereafter no stamps will be required on orders issued by lodges, benevolent societies, clubs, churches and Y. M. C. A. associations where they are to be cashed directly out of the funds of the societies or clubs mentioned.

NEXT Tuesday is the day upon which all patriotic citizens will celebrate. The Fourth this year ought to be a big day throughout the country. Much has happened during the past year to make an American feel proudly patriotic as well as expansive, and a year so full of brilliant national achievement naturally suggests a national holiday to fit the circumstances.

"YELLS" seem to be taking the country. First a lot of school boy clubs adopted a class yell; then the girls took it up, and then the college faculties, after solemn and calm deliberation, stamped their approval on the college yell. Now the colleges are yelling. Ten thousand clerks in convention at St. Louis recently, composed of long-whiskered men supposed to be capable of doing business without a guardian, screamed their "yell" as idiotically as if they had all inherited a streak of insanity.

The Wheat Crop.

It is evident from the report of the wheat condition which has just been made by the government that the yield in 1899 will be smaller than was expected a few weeks ago. The cold weather last winter and the absence of an adequate snow covering for the ground injured the winter wheat to such an extent that the condition, as seen by the government report, is about 23 per cent below that of a year ago. The spring wheat condition, too, is not up to the forecast made in May.

Conservative estimates based on the acreage and average condition make the wheat yield of 1899 from 625,000,000 to 550,000,000 bushels, as against a crop of 675,000,000 bushels in 1898. It must be remembered, however, that the yield of 1898 was the largest ever harvested. The 600,000,000 mark in wheat production was never passed before in this country except in 1891, when the yield was 611,780,000 bushels. The largest yield in any other year was that of 1897, which was 539,149,168 bushels. The yield of 1899, therefore, even at the lowest estimate yet made, will be as great as any ever harvested except in 1891 and 1898. On such an exhibit as this the country will find no discouragement. Moreover, a surplus of about 100,000,000 bushels is still left unused it is believed, of last year's crop.

In any case the wheat yield of 1899 will be sufficient to meet the wants of the country for food and for seedling, and allow a fair margin for exportation. That there will be a considerable demand from abroad is exceedingly probable. Russia's wheat crop, it is believed from the latest indications, will be much below the average of recent years, and that country is ordinarily a heavy exporter of wheat. In the other European countries in the aggregate the crop, it is figured, will be about a mean yield. The reports of the wheat situation at home and abroad justify the recent advance in that cereal. They also indicate that the American farmer will find a good demand for his crop, while the American consumer is not likely to have to pay exorbitant prices for his food.

A wreck at sea is not the only place where a life line is of importance.

There is a life line for the sick, as well as for the drowning man. It is Dr. Pierce's Golden Medical Discovery. It is not a cure-all, but it is a scientific medicine that goes to the fountain head of a number of serious and fatal diseases. When a man gets seriously sick, he can generally be cured by the right course of treatment. The treatment that cures many obstinate chronic diseases consists of pure air, good food, rational exercise, and the use of a remedy that will strengthen the weak stomach, correct the impaired digestion, invigorate the liver and promote the assimilation of the life-giving elements of the food. The "Golden Medical Discovery" accomplishes all these things.

"A young man lay pale and motionless upon (what neighbors called) his dying bed. Disease of the lungs, liver complaint, kidney trouble, and pleurisy were fast hastening him to the grave. The doctors had given him up to die. The neighbors said, 'he cannot live.' 'Oh, I would not care to die,' he said, 'were it not for leaving my dear wife and little child, but I know that I must die.' A brother had presented him with three bottles of medicine, but he had no faith in 'potent medicines'; but, after the doctors had given him up to die and he had banished every hope of recovery, he said to his wife, 'dear wife, give me the medicine, but soon there came a change. Slowly but surely he got better. Today that man is strong and healthy and he owes his life to that medicine. What was the medicine? It was Dr. Pierce's Golden Medical Discovery, and I, Luther Martin, am the cured man. Dr. Pierce, I thank you from the very depth of my heart, for rescuing me from the grave.' The foregoing is from Luther Martin, Esq., a prominent citizen of Lubec, Wood Co., W. Va.

THE relations between England and the Transvaal, if one may judge from surface indications, are fast drifting toward war. The London papers print inflammatory telegrams describing the military preparations of President Kruger, and charging that he has distributed arms among the Dutch of the Cape Colony, and one of the journals most interested in bringing on hostilities has printed what purports to be the Boer plan of invasion of the Cape Colony as soon as hostilities begin.

Pneumonia, la grippe, coughs, colds, croup and whooping-cough readily yield to One Minute Cough Cure. Use this remedy in time and save a doctor's bill—or the undertaker's. Rogers Bros.

Wednesday evening's lawn party by the Episcopal ladies at Mr. Apperson's residence was well attended. A program was rendered consisting of an instrumental duet by Mrs. Evenden and Miss Maud Hobbs, recitations by Misses Pugh and Harris, solos by Miss Snyder and Mrs. Doris, and singing by Treble Clef club and Hobbs-Patty quartet. The crowd was large and fashionable, and while the ladies ate two dishes of ice cream the men sat on the fence and wished for their overcoats, or ate cream and hustled off to get by a fire. The decorations were Chinese lanterns and U. S. flags in profusion.

Some of the results of neglected dyspeptic conditions of the stomach are cancer, consumption, heart disease and epilepsy. Kodol Dyspepsia Cure prevents all this by effecting a quick cure in all cases of dyspepsia. Rogers Bros.

CASTORIA

Bears the signature of CHAS. H. FLETCHER. In use for more than thirty years, and The Kind You Have Always Bought.

Lester E. Gilbert of Marysville, Mo., started last week from The Dalles, Or., with 25,000 sheep, which are to be driven overland to Kansas. Twenty-five men assist him in herding the sheep, and 50 horses are taken along. The trip will occupy the entire summer and fall.

Last fall I sprained my left hip while handling some heavy boxes. The doctor I called on said at first it was a slight strain and would soon be well, but it grew worse and the doctor then said I had rheumatism. It continued to grow worse and I could hardly get around to work. I went to a drug store and the druggist recommended me to try Chamberlain's Pain Balm. I tried it and one-half of a 50-cent bottle cured me entirely. I now recommend it to all my friends.—F. A. Babcock, Erie, Pa. It is for sale by Howorth & Co., Druggists.

OUR CLUBBING LIST.

Notice for Bids and Diagrams.

Notice is hereby given that the board of commissioners of Yamhill county, Oregon will receive, bids for building and constructing a bridge span, and approach to the same from the north bank, across the South Yamhill river at McMinnville, together with and according to plans and specifications and strain diagrams of same, enclosed therewith, said span to be 140 feet long, and piers six feet higher than present piers. Bids to be opened on the 7th day of July, A. D. 1899, at 10 a. m. The right to reject any or all bids is reserved.

27-2 J. H. NELSON, Co. Clerk.

NORTH YAMHILL.

J. N. Reed has moved into the house vacated by Prof. McCann.

Mr. Shepherd has moved out to the R. Wade farm, which he has lately purchased.

Prof. H. L. McCann has moved into the Major Moore property, which he has bought.

J. J. Roberts and wife left Friday last for Klamath Falls, where they will rusticate until about August 10th.

E. G. Seaton and wife returned Saturday from the east, where they have been visiting with relatives and friends the past six weeks.

All who attend the Fourth at this place will be well paid for their time, as they will get to see one of the best played games of baseball that has been played this year—North Yamhill against the crack team of Dallas.

With one of the finest groves in the state, good water and a good program, North Yamhill cordially invites the good people of Yamhill county to come and spend the 4th at this place, and assure all who may come that they will return to their homes well satisfied in having decided to go to North Yamhill.

Seasonable Merchandise

Get ready for the hay and wheat harvest. Rubber and Leather Belting, Compound Grease and Cups, Oils of all kinds. The camping season is here. We have Tents and Camp Stoves. Full Camping Outfits. Kodaks and Photographic Supplies.

O. O. HODSON.

Looks Easy, but Isn't.

You are told so often by so many advertisers that they are selling shoes "worth so and so," for "this and that"—ever so much below what it is claimed they are worth, that you come to think it an easy matter to sell shoes for less than they are worth.

BUT IT ISN'T. As a rule we must pay the makers of good shoes a good price, and we must make a profit or go out of business. If you want good shoes you must pay our price. We could sell you junk at less than we can sell really good footwear, but you wouldn't want it. You want only good shoes. We believe you are willing to pay fair prices.

Sign of the Big Boot. F. DIELSCHNEIDER.

Boots and Shoes.
