The present outlook of the peach crop at Ashland is that there will be from 50,000 to 60,000 boxes for export. This is the estimate of prominent growers and it is probably a very conservative one, says the Ashland Tidings. There is very little dropping of the fruit reported and everything is favorable at the present time for a good crop in quality as well as quantity.

W. C. Brown, a pioneer of 1847, is building a tomb for himself and wife in a private cemetery on his home grounds near Dallas, Polk county. It is of cut bluestone. The walls are two feet thick. Mr. and Mrs. Brown were given the prize at the Polk county pioneer reunion for the oldest married Oregon couple.

The article recently published in the Oregonian concerning Eugene Leeper as a human engine, was reproduced by the New York Sun, and now Leeper has a letter from one Alphonsus Bouchet, a New York iron and steel merchant, in which he says: "I regret that you are at the other end of this continent, as I would be glad to hire you by the day, for a year at \$20 an hour." We ought to have a few men like you in this section of the country. We certainly need them. With best wishes for your future welfare, I am yours truly." Leeper's first response was a proposition from a sporting man in Portland to become his "manager."

The Eugene city council has passed an ordinance prohibiting the wearing of hats and bonnets at all licensed shows and entertainments. The responsibility for the enforcement of the ordinance is placed upon the manager of the theater or place of amusement, and in event of his failure to carry out his part he is subject to a fine of from \$5 to \$15. Any person refusing to remove the hat or bonnet when requested to do so will be guilty of a misdemeanor, and upon conviction shall be fined not less than a dollar nor more than five dollars, and to pay the costs and disbursements. In case of failure to pay the fine, such person shall be confined in the city jail one day for each \$2 of the fine.

That 100-lb sack of beet sugar sent by the city of Lagrande to the G. A. R. encampment arrived about the time the old veterans had all reached their homes. It was placed on exhibition at Wallace & Walker's, and is said to be the first Oregon-made sugar ever brought to town. It is a nice article, and standing alone, would require an expert to distinguish it from the refined cane sugar. When samples of each are placed together it is not so hard to tell the difference. The beet sugar is a little coarser, and the crystals glisten more like isinglass. There is a notion among the women that fruit canned with beet sugar will not keep as well as when canned with the other kind. Members of the post here differ as to what disposition to make of the gift, some wanting to make a taffy pull, while others believe it should be distributed among the brethren to advertise the product. Lagrande probably doesn't care, as it won for them the next meeting of the veterans.

The A. O. U. W. remember, will have a grand picnic in Alderman's grove near Dayton, July 14th. The grove affords fine shade for horses, and there is but little dust, making it a pleasant place for a picnic, and being near to town makes it very convenient for those who attend.

A fairly large tarantula is feeding on a banana in a fruit jar at Triplett & Hendershott's stand. He is supposed to have come to McMinnville by the banana route. While the tarantula is not desirable as a bedfellow, as Mark Twain has conclusively proved, it is not near so poisonous as many suppose. The authorities say its sting is about equal to that of a wasp, and there is a popular belief that music will cure it.
