EVERYBODY COME!!!

SOME OF THE BOYS AT HOME.

As early as Wednesday afternoon McMinnville people began looking for the return of some of the soldier boys who left their homes fourteen months ago to do battle at their country's call. The advance guard arrived on the Wednesday evening train in the persons of Corporals J. J. Welch, and D. H. Mitchell, and Privates Dillard A. Elkins, J. N. Mitchell, Harry Stinson, Arthur C. Thurber, Albert L. Williams, C. M. Baker and Fred M. Garrison. The depot platform was crowded with friends who showered the boys with their greetings. Each boy is looking in fine condition, and evidently very glad to get home. Allie Williams has grown to mature manhood, and with his well-developed mustache, showed the greatest change. It seems but yesterday when he was a young boy about the streets of McMinnville. His mother embraced him and cried for joy. Arthur Thurber was evidently looking for those parents of his, and found them not, because he came before he was expected. He is looking fine. Corporal Welch looks just as he did when he left, and we noticed a number of young ladies from his part of the country greeting him warmly. Baker, Mitchell and Garrison shook so many hands that they have a better idea of what the president undergoes on a reception day. The other boys staid on the train and went on up the road, but they'll be back Saturday.

The regular college courses and the teachers' course in McMinnville college are accredited by the state board of education under the new law, and make the graduates from these courses eligible to the state diploma, good for five years in the common schools of Oregon. Send to the president for the new catalogue which tells all about it.

HOPEWELL.

Threshing is in full blast this week. Enoch Cooper arrived home from Alaska last Saturday, having been gone about 18 months. He is much improved in health, but does not speak very favorably of the Klondike. He says a man can make more money here. Welcome Turner's harness shop was broken into one night last week and about \$40 worth of leather stolen. Jessie and Beryl Christensen are visiting in Newberg this week. Dr. Bartell has rented Smith Stephens' house near Hopewell and will move his family there next month. Winnie Lynch of Lagrange is visiting his uncle, Isaac Lynch, at this place.

Probate Court.

Guardianship of John Anderson, insane. Second semi-annual account filed and approved. Guardian allowed \$30 for services and attorneys' fees. Estate of Vincent C. Pepp. Final account filed and Saturday, Sept. 9th, set to hear same. Estate of A. J. Nelson. Final account filed and Saturday, Sept. 9th, 1899, set to hear same. Estate of Jacob T. Williamson. Notice of the hearing of a motion to open up and reinstate the petition of Virginia Epy for reprobate of will set to be heard Sept. 5th, 1899, at 3 p. m. Estate of Cyrus Smith. Final account heard and approved and executrix discharged and ordered that all the personal property and real estate be turned over to Mrs. Elizabeth Smith according to the terms of the will. Estate of A. C. Davis. Final account filed and Tuesday, Sept. 5th, 1899, set to hear same. Estate of Jas. L. Steward. Final account approved and executrix to be discharged. Estate declared fully and finally settled. Estate of Wm. Hobson. Final account approved and executrix to be discharged upon the filing of vouchers for the distribution.

About Threshing Crews.

How many threshing crews has Yamhill county? This question came up before a local committee the other day, and the opinion seemed to be that there couldn't be as many as twenty in the whole county. There are people who can count a dozen within a radius of ten miles of McMinnville, and they firmly believe there are as many as thirty in the county. Elsie Wright says there are about 33. This is probably close to the exact number. It is dull in town at this season, but you should visit a threshing crew, and see where the activity has centered. Not the least important part of the busy scene is providing the meals for the crew. The operatives in a cook wagon begin work at three o'clock in the morning ordinarily, and serve breakfast at five, to from 25 to 30 hungry men. Then comes dinner exactly at twelve, or rather work stops at that hour and 15 minutes is taken for preparation for dinner. Half an hour is allowed for eating, and at 12:45 every man is supposed to have finished and be ready to bring his team to the machine, which starts exactly at one. The machine stops for the night at sundown, and when all are ready supper is served. It is often dark before the meal is concluded, and ten or eleven o'clock before the cooks are ready to bed, from which they must crawl again at three in the morning. A big machine rarely serves more than two meals at one sitting and many a meal is cooked with the wagon on the move. A man and a woman, or sometimes two women, run the wagon. The man gathers up the provisions, helps prepare them, keeps the fires going and does a thousand other things. The woman is chief cook and head waiter. Neither has a minute to spare from the time they arise in the morning till they go to bed at night. The wages of each run from one to two dollars per day. The story is told how a certain lady couldn't supply the cook-wagon man with the three gallons of milk that he required. She only had two gallons. "Well, give me that," he said, "and I'll fill it up with water." "No, that won't do; I've watered it already," she replied. An average crew uses 60 pounds of meat per day, a bushel of potatoes and about 30 loaves of bread.

YOUR FACE.

Shows the state of your feelings and the state of your health as well. Impure blood makes itself apparent in a pale and sallow complexion, pimples and skin eruptions. If you are feeling weak and worn out and do not have a healthy appearance you should try Acker's Blood Elixir. It cures all blood diseases where cheap Sarsaparillas and so called purifiers fail; knowing this we sell every bottle on a positive guarantee. For sale by Rogers Bros.

Good Pianos.

When it comes to buying a piano, an article that is to occupy the most prominent position in your household, perhaps for a lifetime, we argue that you take no chances whatever in buying from an old established firm that has made a name and record that can be acquired only by a test of many years. If you buy either a Fischer, Ludwig, Knabe, Hardman or Harrington there is one sure thing, you are getting a good piano. Either of the above names on the front board of your piano signifies that you have not only bought a good high-grade piano, but that you have also bought it from Portland's leading music store, THE WILEY B. ALLEN CO., The Oldest, The Largest, 209-211 First St., Portland, Oregon.

THANK YOU ALL.

I desire by this method to express my sincere gratitude for the many acts of kindness shown by the people of McMinnville on the occasion of the late sickness, death and burial of my uncle, Jonathan Farrow. I would also state that the drug business of S. Howorth & Co. will be conducted as before, and I will fully appreciate in the future as in the past, the liberal patronage of a generous public. Very Truly, S. Howorth.

A Mother Tells How She Saved Her Little Daughter's Life.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of, but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended, and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent remedy it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering. Yours Truly, Mrs. Geo. F. Burdick, Liberty, R. I. For sale by Howorth & Co.

THE NEW YEAR AT McMINNVILLE COLLEGE.

The Editor: May I be permitted to speak, through your columns, to the people of McMinnville and the college's contiguous field, concerning the work of the year soon to open?

The college will open its doors for work Wednesday, Sept. 13th. Many letters from prospective students from abroad have been received, and some families are planning to move to McMinnville for the purpose of taking advantage of the educational privileges offered here. The prospect is good for a large attendance the coming year.

The financial interests of the college are to receive special attention during the coming year. The college needs a large amount of money for the payment of debts and the making of improvements. It must see a large sum of money raised if it is to keep pace with educational advancement among other institutions of the northwest. Appreciating this need the college board, at its recent meeting, passed a resolution asking me to devote my time for the year to come to the securing of a large amount of money for the college. I have decided to undertake this work, believing it to be for the college's best interests, and essential to its advancement, permanency and best success. I shall appeal to McMinnville to do liberally for the new fund to be raised, and shall then visit the college's entire field, prosecuting the work with vigor until the money needed is secured. The securing of the contemplated fund will make it possible for the college to do a more efficient work than at present, and will be a very decided advance step in the making of McMinnville college such a school as the city may be justly proud of. In this effort I shall need the cordial support and backing of the good people of McMinnville from first to last. I believe I am assured of this before the undertaking is begun.

The taking up of this work by me makes a vacancy in the teaching force for the coming year. This vacancy was filled at a recent meeting of the executive board by the election to a professorship in the college of Mr. R. E. Storey. Mr. Storey is an alumnus of the college in the class of '95, and has since spent three years at Brown university, Providence, R. I., taking his degree of bachelor of arts from that institution in June last. Mr. Storey has had large and very successful experience in teaching, and his election to a professorship in his alma mater gives universal satisfaction to the friends of the college.

I desire to call special attention to the advantages offered in music at the college during the coming year. Mrs. Annie Evenden is too well known to the people of McMinnville to need any word of commendation from me. Her reputation as a musician is more than local, is, indeed, state-wide, and the college is assured of work of the highest order in its conservatory of music.

Two members of the faculty, Miss Isabel Grover and Mr. Charles W. Converse, are spending the summer in special studies, the former in San Francisco and the latter in the University of Chicago. They will return to their work in the fall with new zest and enhanced efficiency. This it will appear that the work of the college in the coming year is to be of a high order of excellence in all departments.

The new catalogue of the college will be sent on application to any who may desire to know more in detail concerning the college, with a view to entering. H. L. BOARDMAN, President.

Binger Hermann at Home.

Hon. Binger Hermann, commissioner of the United States general land office, is at home. He expects to spend 30 days in Oregon during which period he will inspect the various United States land offices and incidentally visit his daughter at Roseburg and a son in the mercantile business on Coos bay, besides shaking hands with old friends.

That Mr. Hermann's position is a very important one is evidenced by the fact of his having over 500 clerks employed in his department in Washington. To him are appealed all manner of important cases arising in the 129 local land offices scattered throughout the states and territories, and many of these cases involve large interests.

The recent land scrip case at Chicago involved \$50,000,000 worth of property; his decision was affirmed by the department of the interior without delay. This particular case involved the title to certain lands along the lake front, which had formed gradually by the sediment the lake, after the city had been built. The area in contention included parks, boulevards and business edifices, and holders of land scrip attempted to locate these lands, on the ground that the tracts had never been duly entered by the occupants, who had built and improved them as they formed. The commissioner decided in favor of the original settlers.

Mr. Hermann is especially pleased with the government management of the forest reserves, and says the present system of patrol on the part of forest rangers has paid for itself in the saving of valuable timber from destruction by fire. Last year 1300 conflagrations were extinguished in these woods, and the patrol of the entire area only cost one quarter of 1 cent per acre, while the saving of valuable timber can hardly be estimated. —Albany Herald.

John Kingery is assisting at the St. Charles store this week.
