Evidence Is All In.

Rennes, Sept. 9 .- Today came the beginning of the end of the Dreyfus trial. With the speech of the government commissary, Major Carriere, the case entered upon the final stage of pleadings, and the verdict will be delivered Monday.

Colonel Jouanste this morning took the most important decision yet taken, and tock it entirely upon his own responsibility, although he is undoubtedly only the mouthpiece of the whole body of judges. His decision to exclude the testimony of Colonels Schwarzkoppen and Panizzardi was most significant, as it meant that the court had already reached a conclusion. and that the pleadings of counsel were merely a waste of time, and might be dispensed with if they were not a necessity.

The court has made up its mind, but which way? This is the view point and forms the sole topic of discussion. Both sides are equally confident that the court will decide in accordance with their views.

No Canal Report. Washington, Sept 8 .- Emory R. Johnson, a memebr of the Nicaragua canal commission, says that no formal report can be presented for at least year. This will mean no action by the next congress, which was evidently the intention of those who prevented any definite legislation at the last session. It is said that the administration is not concerning itself very much about the lapse of rights and concessions of the United States government, because congress has had opportunity to act and failed, and the responsibility, if there should be no further concession obtained, will not be upon the administration. Meanwhile, where favorable negotiations can be forwarded, our state department will give the canal favorable attention.

DREYFUS IS FOUND GUILTY

As he has already suffered five years' solitary imprisonment, which counts as double ordinary detention, be will be released at the end of a fortnight. In the meantinme, unless the president of the republic pardons him, Dreyfus will have to be degraded here again within eight days.

Though a majority of those in the courtroom this afternoon fully expected the verdict, they were completely stupefied when it was given, and the silence which prevailed in the room and the way men turned pale and caught their breath was more impressive than any other manifestation could

have been. Maitre Demange sank back in his chair and the tears trickled down his cheeks, and Maitre Labori turned white as a sheet, while all round the court men looked at each other in silence. The only sound to be heard was the rustling of paper from the reporters' bench, as each press representative

tried to be first to send the news. As the audience left the courtroom, fully 10 or 15 men were crying openly, and the majority of those present walked quietly down the street fot more than a block without speaking a word. It was like a funeral proces-

EXPRESS TRAIN ROBBED.

Safe Blown Open and Contents Taken-Men Escaped.

Cochise, Ariz., Sept. 12.-Express train No. 10, on the Southern Pacific, was robbed near here last night by four masked men, who blew the safe open and took everything in sight. The amount of their booty is said to be emall.

The train was stopped, the engine, mail and express cars were cut off from the rest of the train and run a mile farther up the road, where the bandits stopped to complete their work. The express messenger was forced to open his car and the robbers attacked the safe with dynamite. The strong box was soon blown open and the contents taken by the thieves, who hastily departed.

They were last seen going north on foot, and a posse started out on their trail. The dynamite used on the safe blew out the side of the express car and tore up the floor. There is no clue to the identity of the robbers.

The addition of these regiments to the army almost exhausts the quota of 35,000 volunteers allowed by congress. There will then be 25 regiments of 1,309 men each, which, with the Porto Rico naval battalion of 400 men, leaves a margin of only 1,875 in the authorized strength, or not quite enough for another regiment and a 27@31c.

FINANCIAL SKY IS CLEAR.

No Disquieting Change Affects General

R. G. Dun & Co.'s weekly review of trade says:

The sky is still cloudless and no disquieting change has come during the week. In spite of more warlike news about South Africa, the bank of England behaves as if the worst possible had been fully provided for, and this country has no reason to fear trouble from that source unless English markets have been so overloaded as to need help. The marketing of domestic products, both farm and manufactured, continues surprisingly large for the season. The new possessions, taken together, are returning in revenue already more than it costs to clean and govern them. The West and South still behave as if it would be impertinent for New York to offer money for crop moving, and are still bidding for commercial loans here. Failures are few and strikes scarce and readily settled, and the passage of September 4 without pressure means reasonable safety for months ahead.

After a sharp decline wheat has risen 14 cent this week, with Atlantic exports 2,900,966 bushels, flour included, against 2,325,100 bushels last year, and Pacific exports, 864,256 bushels, against 163, 192 bushels last year.

Corn has also taken a start upward, rising 34 of a cent with exports of 3,051,569 bushels, against 2,431,085 bushels last year.

The wool market is much less active than of late, with sales of only 9,265 .-200 pounds at the chief markets, mostly territory, and while prices are stiff, manufacturers are buying only for immediate needs.

Failures for the week have been 132 in the United States, against 164 last year, and 80 in Canada, against 16 last vear.
