THE THRTY-FIFTH REGIMENT Hong Kong Authorities Say Transport

Will Embark at Portland Direct for Manila.

ROOT OVERRULES JHAFTER

He Flads That There Are No Obstacles in the Way of Troopships Coming Up the Columbia River.

Washington, Sept. 16 .- Secretary Root emphatically overruled General Shafter today, in determining that the Thirty-fifth should embark for Manila at Portland, unless there was unsurmountable obstacles. These he could not find in the reports from Shafter and the quartermasters.

The pleas about length of time and impossibility of sending ships were considered by the secretary as inadequate. Two transport ships can be sent up the Columbia, and he saw no reason why they should not sail from Portland direct for Manila. As the ships could not return to the United States in time to carry other troops to Manila, the delay, even if it was all the opposition claimed, was unimportant, in the opinion of the secretary.

The transports will be fitted out at San Francisco with everything except what the regiment carries. When the troops come to Portland, they will be allowed to parade in the city before they embark. This will be determined by the commanding officer.

The secretary felt that all Portland and Oregon had done for the country. entitled them to favorable considera. tion of the request for the embarkation of troops at the Oregon metropolis.

Representative Tongue has telegraphed Secretary Root saying the Oregon, chartered by the government, could be used for the transportation of troops. The department says the Oregon has not been chartered.

McGraw and Parry tried to get Seattle made a port of embarkation for troops, but were told at the war department that a few more animals badly damaged. might be shipped from the Sound, but no more troops.

The authorities have been discussing the matter all day, and it is very probable that 450 of the soldiers on board will be detained when she is finally permitted to sail for San Francisco. Several of the discharged soldiers on

board the Tartar filed the complaints as to her unsanitary condition, which started the proceedings to detain the vessel.

## CYCLONE IN BERMUDA.

Great Storm Damaged Much Property in the Island.

New York, Sept. 15 .- A dispatch from Bermuda says: A cyclone swept over the island last night. The weather looked threatening early Tuesday morning, with a falling barometer. The storm began with heavy rain, after which there was a slight hull for a few hours, with the wind south-southeast, and the barometer steadily falling. The wind suddenly backed to east, blowing with cyclonic gusts. From 8 p. m. to midnight it blew with hurricane force, and was at its worst from 1 a. m. to 1:45 this morning. when, after a lull, the wind changed to the southwest and the principal damage was done, houses being blown down and others unroofed. Giant cedars were uprooted, ornamental and fruit trees were destroyed, and wharves were washed into the sea.

So far, no lives are reported as lost, but both ends of the island have yet to be heard from. The causeway was

EXAMINATION PROVES THEORY

**Opens Up Great Possibilities in Alaska** Mining-Survivors of the Deadly Edmonton Trail Return to Civilization.

Seattle, Sept. 18 .- J. F. Wardner, he well-known mining man, who has just returned from Cape Nome, advances the novel theory that the gold deposits extend miles out to sea. In support of the theory, he says that two miners placed a caisson 120 feet from low tide. The dirt which was taken out ran 15 to 50 cents per shovelful. Similar experiments were tried at a further distance from tide mark, with better results.

Deadly Edmonton Trail.

Wrangel, Alaska, Sept. 13, via Seatie, Sept. 18 .- The Stickeen river steamer Strathcona arrived today with 67 survivors of the Edmonton trail. The majority of them are without means. They will be shipped to Puget sound at the expense of the United States government. About 50 of them will go to Seattle tomorrow on the steamer Al-Ki. Many are suffering from the effects of scurvy. Their stories of hardship and suffering endured in their 18 months on the trail are in a similar strain to those which have preceded them. No new fatalities are reported. It is thought that at least 75 prospectors are still on the trail. They will have to come down the Stickeen in small boats, as the low stage of water will prevent the Strathcona from making another trip this year. On her last trip she was hung up on a sand bar five days, 80 miles above Wrangel.
