THE U.S. government is advertising for blacksmiths to go to the Philippines.

SENATOR MCBRIDE's bill to pension Indian War veterans of this coast has passed the senate, and now goes to the house.

In naming the new military post at Magnolia Bluff near Seattle Fort that hang around the base of Shasta, Lawton, in honor of the late Major-General Lawton, President McKinley gives worthy recognition to a good man.

THE Salem Capital Journal has published its first installment of what it calls the "black record exposure of the legislature" or "legislative round-up" from a populistic standpoint. They give Representa-tive Butt of this county a record of voting right on nine propositions and wrong on ten. Lamson scores 10 right and 10 wrong. These gentlemen can be thankful that they are not classed by this authority as wrong all the time.

IF Brownell, Gatch, Carter, Woodcock, Daly, Mulkey or any of the dozen aspirants for Mr. Tongue's place, was as capable as Mr. Tongue and had attained to the important committee position he occupies, how would he feel if a dozen aspirants of less calibre got after his place for no other reason than that he wanted it? This is the situation exactly. Every one of these men is coming out now in order to trim his sails for the next time. He has no serious hope of get ting the nomination. And suppose the first district should fail to nominate Mr. Tongue for reelection after he has been given distinguished recognition by his fellow congressmen. How much recognition do you suppose we would get in future? Oregon has far too long been considered the "wild and wooly" district beyond the boundaries of civilization. Shall we, now that we have a congressman capable of rubbing up against the best in the nation, and who is thoroughly alive to our needs, encourage this old idea that we amount to nothing? Mr. Tongue holds rank with congressmen of twelve to twenty-six years' experience, and we do well to recognize the fact.

An article from the pen of "X. Y. " appeared in the Telephone-Register last week intended as a political broadside against James McCain, charging him with desiring and aslican ty expenses. Whether the charges are true or false, it must be admitted that the writer marshals his statements in a pretty forceful manner. Of one thing we are certain regarding Mr. McCain's bossism: he has neither requested nor authorized this nor has he in the past assumed to tics, and cannot hope to have. Like many another man, he enjoys the science, and like every other Amerititled to a place in the councils of republican boss in Yamhill as anyone. munication of this kind.

San Francisco is a busy place, and the active manner and quick step of its denizens show how much like its astern rival, New York, it has become. The new business life so strongly growing in the east is beng felt here, and a number of promnent business men with whom 1 have conversed, speak enthusiastially of the trade outlook, and, naturally enough, they are all ardent advocates of expansion, and in favor of the Nicaragua canal. It is very hard to stand idly by and ee our dear ones suffer while awaiting the arrival of the doctor. An Albany (N. Y.) dairyman called at a drug store here for a doctor to come and see his child, then very sick with croup. Not finding the doctor in, he left word for him to come at once on his return. He also bought a bottle of Chamberlain's Cough Remedy, which he hoped would give some relief until the doctor should arrive. In a few hours he returned, saying the doctor need not come, as the child was much better. The druggist, Otto Scholz, says the family has since recommended Chamberlain's Cough Remedy to their neighbors and friends until he has a constant demand for it from that part of the country. which afflict women. "I wrote for advice February 4, 1596." writes Mrs. Lena Halstead, of Claremore. Cherokee Nat., Ind. Ty. "I was racking with pain from the back of my head down to my heels. Had hemorrhage for weeks at a time, and was unable to sit for ten minutes at a time. You answered my letter, advised me to use your valuable medicines, viz. Dr. Pierce's Favorite Prescription. 'Golden Medical Discovery,' and "Fleasant Pellets,' also gave advice about injec-tions, baths and diet. To my surprise, in four months from the time I began your treatment I was a well woman and have not had the back-sche since, and now I put in sixteen hours a day hard work."
