MARRIED FIFTY YEARS.

A Case Where Love's Ties Have Not Been Broken, But Have Strengthened With the Advancing Years.

The assertion that "marriage is a failure" would find no acceptance in the minds of Mr. and Mrs. Lorenzo Root, or their many friends. The beauty and success of the relation in their case has been such all the way up to the 50th milestone, that about sixty of their friends were led to celebrate the event last Saturday, at their home in this city. The friends gathered during the afternoon and evening, and an excellent supper was provided by the visiting ladies. It was the pleasure of the following persons to be present:

Rev. Joseph Hoberg and wife, John Kingery, Mrs. J. E. Noll, Mr. and Mrs. Cullison, Mrs. Lucy Cowls, J. H. Nelson and wife, F. E. Rogers and wife, M. U. Gortner and wife, Miss Josie Gortner, J. O. Rogers and wife, Franklin Stout and wife, F. S. Harding and wife, S. F. Harding and wife, C. F. Mills and wife, Harlow Mills, Mrs. Elizabeth Mills, Mrs. J. S. Hibbs, Mrs. E. C. Dallas, Mrs. Andrew Martin, W. A. Benedict, Mrs. Haney, Miss DuBois, C. F. Talmage and wife, Mrs. Flesher, Mrs. Kegg, Mrs. Robinson, Miss Lizzie Handley, Mel Lynch and wife, Mrs. W. W. Wright, Mrs. Neal, son and daughter, Rev. H. T. Atkinson, H. A. Palmer, wife and mother, Mrs. F. J. Martin, Mrs. E. A. Cook.

A large silver fruit dish and a gold-lined berry spoon were the handsome gifts bestowed by the guests. These were presented by Rev. H. T. Atkinson, the Methodist pastor, whose choice expression of sentiment on the occasion is the voicing of the heart's desire of the many persons who hold Mr. and Mrs. Root in high esteem. Addressing them he said:

I have been asked to say a few words to you in the name of the friends who have gathered here upon this extremely interesting occasion. The fact that so very few have journeyed over the highway of life as long as you have done, makes it but natural that great interest should attach to this highly important event in your lives. I feel that my friends, and yours, have placed upon me an extremely weighty responsibility in asking me to make the presentation speech in connection with this beautiful fruit dish and spoon, which comes from them as a very slight mark in lieu of their respect and affection for you. That you are together now on this fiftieth anniversary of your wedding day is evidence that you have been faithful to each other; for many years you have been faithful to your God and to your church, and today it is our united wish that you may yet live to see many more years on earth before the sun of your life shall finally set to rise in the kingdom that has no end. Take these gifts, then, and may you continue to live until continued years shall have worn them out, and when that time comes may we also be living to replace them with fresh ones.

Both recipients responded briefly, but were so impressed with the kindly demonstration, that emotion expressed more than words. The engraving upon the dish was from the poetical pen of Mrs. H. Mills, and is as follows:

How swift dear friends the time has fled,
Just fifty years since you were wed;
And friends have come with gifts and cheer
Because your golden wedding's here.

The Reporter takes pleasure in presenting the accompanying creditable portraits of these worthy people. Lorenzo Root was born in Trumbull county, Ohio, October 19th, 1825. In 1837 he went to Iowa with his parents, and in the following year they changed their residence to Hancock county, Ills. Two years later they moved to Whiteside county of that state. Martha Vedder Root was born in Jefferson county, New York, November 15th, 1829, and removed to Illinois in 1849. She was married to Lorenzo Root March 3d, 1850, and together they came to Oregon with an ox team two years later. They settled at Astoria, and remained there six years before casting their lot in the favored West Chehalis valley. Here they tended their flocks and plowed the stubborn glebe until 1879, when they moved to McMinnville, the immediate jewel of the universe. They have been members of the Methodist church for over 50 years, and have probably fed more preachers at their house, Methodist and otherwise, than any other of the many households whose latch-string is out to the men of God. They are worthy of the attention now shown them.

NEWBERG.

The Epworth league convention was a success in every way. Near ninety delegates were in town. The sessions were largely attended and were very beneficial to all. Several excellent singers from Salem gave us a treat in song. On Sunday Presiding Elder Watters preached the sermon in the M. E. church, and visiting ministers occupied the pulpits of Friends and Baptist churches.

The farmers in this community are awakening to the fact that there is money in clover. They have been a long time in coming to this conclusion, but since they have they are going into it in earnest. Clover is perhaps the greatest renewer of worn out land there is, and in a few years, we make the prediction, the large yields of wheat and other grains will amply repay them for their trouble and expense.

We have saved many doctor bills since we began using Chamberlain's Cough Remedy in our home. We keep a bottle open all the time and whenever any of my family or myself begin to catch cold we begin to use the rough remedy, and as a result we never have to send away for a doctor and incur a large doctor bill, for Chamberlain's Cough Remedy never fails to cure. It is certainly a medicine of great merit and worth.—D. S. Meakle, general merchant and farmer, Mattie, Bedford county, Pennsylvania. For sale by Howorth & Co., druggists.

Mr. Grissen then took the opportunity to make some remarks on the school book question, urging people to use their best efforts toward securing an honest school book commission a year hence, and stated that one of the outrages on school patrons was the immense profit of the school book monopolies, a case in point being Peterman's civil government, on which a profit of \$12,000 was made in Oregon by its adoption in the sixth and seventh grades. He also spoke for the introduction of industrial instruction in the schools, after the plan now generally in vogue in European countries, that pupils might be taught to use their hands as well as brains. He argued that this would teach the child that he was born for some useful purpose, and would prevent much of the vice developed among boys through the habit of loafing. To this end he made a motion that a committee of three be appointed to investigate the subject and develop plans. The chair appointed for this purpose Messrs. Grissen, Hunsaker and Eckman, and Mrs. Jacob Wortman and Mrs. J. W. Gault.

On motion the meeting then adjourned.
