THE BOERS WERE OUTWITTED

Roberts' Movement Takes Them by Surprise.

MADE NO DETERMINED STAND

Retreated Eastward, Being Followed by French's Cavalry-The Dutch Making for Bloemfontein.

London, March 10 .- The Boers appear to have made no stand whatever, except that while in retreat they twice repulsed General French's cavlary with rifle fire. As no report has been made of the capture of prisoners, the enemy probably got away with their entire force. General French is still following them and keeping between them and Bloemfontein.

The evacuation of the northern districts of Cape Colony is now nearly complete. The British are in possession of the rialroad crossings.

The military critics comment on the discouraging news from Mafeking. Colonel Baden-Powell seems to be in grave need of outside help. Otherwise he would not allow correspondents to send out information respecting the distress of the garrison.

A re-adjustment of some of the higher commands is taking place. General White is to go to Stormberg to take supreme command of General Gatacre's division and the Tenth division, now in process of formation, which will be under the immediate command of General Hunter, Sir George White's chiefof-staff.

The Daily News makes the following announcement:

"It was rumored in London yesterday-and we have no reason for believing the rumor to be correct-that unofficial overtures of peace on the conditions suggested were of such morrow. character as to preclude the possibility of leading to any result. Terms which might have been gladly accepted before the war, in order to avert it, are impossible after the war, with all the sacrifices it has entailed."

General Roberts' Report.

London, March 10 .- Following is the text of Lord Roberts' dispatch, rec ived by the war office today:

"Poplar Grove, March 10 .- Two origades of cavalry, with horse artillery and Kelly-Kenny's division, marched were taken by surprise yesterday. They moved off so hurriedly that they left cooked dinners behind them. We captured a Krupp gun and several tents | tempt was made to interfere. and wagons. The total casualties Labor troubles cummades streets this were: Killed, Lieutenants Keswick at Thirty-sixth and Wallace streets this William Schindler was shot and Frieslick; wounded, Lieutenants evening. William Schindler was shot Bailey, of the Twelfth Lancers, and and probably fatally wounded, and six Decrispigne, of the Second Life Guards, both severely, and Lieutenant Smith, o the Shropshires, who is believed to have been picked up by Boer ambu- intendent of the same company, were lance. Two men were killed, 46 wound- attacked by strikers. For some time

ed, and one man is missing. ing Burgersdorp today. Repairs to the shops, and have threatened to kill ment. Said he:

Sections of Gold Run Gulch in the railroads toward both Stormberg and them. Tonight some one threw a club "I believe the people are ready for a Klondike are yielding \$1,000 per linear ents now occupies Norval's Point, on the head. He accused Schindler, and could be given the power to make laws, twenties, for winch the owners asked the south bank of the Orange river. The bridge was blown up March 6, and the enemy is holding the north bank of around and Walsh, believing his life The municipal governments are all in return. Not being able to sell it, the the river, but not, it is believed, in any great strength."

Many Have Smallpox.

Jackson, Miss., March 10 .- An official report made to the Hinds county board of supervisors reveals an appalling state of affairs in the Jonesville neighborhood, in the southern part of the county. The community is literally honeycombed with smallpox of the most virulent form, and during the past six weeks nearly 100 deaths have occurred. On some days the death rate has been so large that it was impossible to secure coffins, and rude caskets were made from rails. Whole families were wiped out of existence and of several large families only one or two children are left.

Many of the patients who are now in a critical condition are without medical attention, and are dying at the rate of from three to five a day. The death rate exceeds 75 per ceent, and the entire lower portion of the county is demoralized. The board of supervisors will make an effort to check further

Anti-British Riot in Bordeaux.

Bordeaux, March 10 .- Late yesterday evening students and others issuing from a pro-Boer meeting marched to the British consulate, battered down the doors, shattered the windows with stones, and then proceeded to the consul's private residence, where they indulged in similar demonstrations. The police dispersed the mob and arrested several leaders. The prefect of the Gironde, the mayor of Bordeaux and the commissary of police called on the consul today and expressed regret at the occurrence.

Recruited to Full Strength. Ottawa, March 10.-Minister Borden received tonight from the war office a cable accepting 100 men to recruit the First Canadian contingent to its full strength. They will leave with the Strathcona Horse.

Eight-Club Circuit.

its franchise.

New York, March 10 .- The National Baseball League for the season of 1900 will have an eight-club circuit. This announcement was made at the Fifth Avenue hotel at 11:30 o'clock tonight, when the league meeting adjourned. A verbal agreement was reached tonight, and tomorrow the agreement will be formally executed. The retiring clubs are Washington, Baltimore, Each club Louisville and Cleveland. will receive a money consideration for

SITUATION AY MAFEKING.

Terrible Plight of the Besieged, but No

Mafeking, Feb. 21.-What may be typhoid fever has broken out in the womens' laager, and dysentery, due to the absence of vegetables, is rife among the garrison. We are thrown upon our own resources. Such luxuries as we had are exhausted, or bave been commandeered for the hospitals, which are filled to overflowing. The children's graveyard, close to the women's laager, grows weekly as the young lives are cut short prematurely by shells and fever. We look with hope deferred for relief.

The cheerfulness which was characteristic of the early days of the siege has almost deserted us, the men preferring to remain at their posts, rather than move about and work up an appetite, which cannot be satisfied. The natives are in the worst plight. Those who are unable to obtain work are allowed a small handful of meat daily. Many, braving the danger, wander about the town with gaunt and hungry faces in search of work which entitles them to an extra ration of meat. If they find work they are generally too weak to

perform it: From their advance posts the Boers rake the streets and the market square. It is impossible to dodge their bullets. We have taken remarkable precaution, however, and the casualties, though heavy, are not what they might have been with less able men at the head of

affairs. Even the headquarters' mess fares scantily. Like saints under the altar, we cry, "How long, O Lord, how we cry, long?

Two hundred and ninety-two persons have been killed, wounded, or dead of disease. The garrison is so small that it would be criminal to make its weakness public, but there is never so much as a whisper or suggestion of the possibility of surrender, because we do not mean to get beaten, the two republics made informal and and we are cheerfully enduring the hardships of today rather than to make preceding day. Unfortunately, the a surrender in any degree possible to-

GUARDED BY POLICE.

Nonunion Workmen Employed on Chicago Buildings.

Chicago, March 10 .- Under police guard, over 300 nonanion workmen were today given work by contractors engaged in erecting various down-town 68 Chinamen and 40 Spaniards at the buildings. This was the first serious attempt on the part of the contractors to resume the work interrupted by the strike of the unions affiliated with the Building Trades Council. Nearly all coday 10 miles eastward. The Boers the unfinished buildings were heavily picketed by the unions, but beyond one or two attempts to persuade the nonunion men not to go to work, no at-

others were injured. Joseph Walsh, foreman for the Link Belt Machinery Company, and H. K. McLain, super-"Gatacre reports he intends occupy- McLain every night when they left the ippines a territorial form of govern-Leynsberg are being pushed. Clem- at Walsh, striking him in the back of certain kind of self-government. They foot of the claim. One claim in the Walsh and McLain, and four others who were with them. Although badly pounded up, they managed to hold until the arrival of the police. Walsh was placed under arrest.

Senate Takes It Up.

Washington, March 10.-Formal discussion of the Puerto Rican tariff and civil government bill began in the senate today, and continued uninterruptedly for 4 % hours. The principal speakers were Foraker, in charge of the measure, and Pettus, but at various times during the debate lively colloquies occurred, in which other senators were participants. After Mason had entered his motion to discharge the committee on foreign relations from further consideration of a resolution expressing sympathy for the Boers and it had gone over until tomorrow under the rules, Pettus delivered a carefully prepared speech in opposition to the pending bill. Foraker occupied the floor during the remainder of the session, speaking in defense of the bill.

Bad Fire in Philadelphia.

Philadelphia, March 9 .- Fire entailing an estimated loss of over \$700,000 occurred early today in the retail dry goods district. The conflagration originated in the engine room of Shoneman Brothers' dry goods and millinery store, at Eighth and Arch streets. The principal losers are: Shoneman Bros., dry goods store, four-story building, total loss, \$300,000; Marks Bros., dry goods store, a five-story building, completely gutted, estimated loss, \$300,-000; Myerhoff Bros., manufacturers of women's and children's clothing, and the Philadelphia Electric Equipment Company, estimated loss, \$200,000. Several smaller buildings adjoining were more or less seriously damaged.

Chicago Church Destroyed.

Chicago, March 10 .- The Second Presbyterian church, at Twentieth Deadwood fire department was called street and Michigan avenue, was destroyed by fire tonight. The building was the home of one of the most aristocratic congregations in the city. A reception was being given in the church parlors by the Young People's Christian Owing to the high wind blowing, the city council hesitates to accept it or Endeavor Society of the church, and the assemblage was in the midst of the nature of the buildings, the firemen observes that "it would have been festivities when the blaze was discovered in the organ on the main floor, flames in any other way.

INSURGENTS DRIVEN BACK

Town of Aparri Assaulted by Filipinos.

Rebels in the Southern Peninsula Scat-

Manila, March 12.-Cenerals Young and Hood are asking for reinforcements. and a battalion of the Forty-eighth has been sent to Aparri. Other troops will follow.

The rebels recently persistently attacked Aparri for several hours, but were finally driven away. Details of the affair are lacking.

The rebels are holding reunions in the proivnce of North Ilocos and the red Katapunan cross, symbolic of resistence, is again appearing among the natives.

It is believed that the insurgent generals. Tinto and Florhes, have been driven by Young into Hood's territory. The fact that Young is unable, owing to lack of troops, to maintain garrisons in all the towns occupied has had a bad effect on the natives.

General Bates has returned here after leaving garrisons in the provinces of North and South Camarines. The expedition lost seven men killed and 10 wounded. On entering New Caceres, province of South Camarines, General Bates learned that 2,000 insurgents had departed the same day. The Americans immediately sent out three pursuing columns, encountering the enemy in three small engagements and killing a total of 40 men.

The Spanish prisoners report that the enemy was divided into small bands in the mountains, under the leadership of General Legaspi. The town of Iriga bas been burned by the enemy. Both provinces were thoroughly sconted.

The inhabitants of the district of Labmanan, including Abella, the provincial governor and other officials, are returning to their homes. Abella has issued a proclamation calling upon the natives to submit to the Americans.

The liberated priests from New Caceres report that the insurgents killed town of Calabanga.

It is estimated that there are 100, 000 bales of hemp in the Camarines

Twelve hundred well armed insurgents, formerly of Cavite proivnce, with a Chinese colonel in command, surround the towns of Albay and Legaspi. They have effected three night attacks and continually harass the Forty-seventh regiment, which has lost eight men killed and 20 wounded in defending these towns.

CONTROL OF PHILIPPINES.

General Wheeler Suggests a Territorial Government.

San Francisco, March 12.-General the strikers have followed Walsh and Joseph Wheeler favors giving the Phil-

when the latter denied it a fight fol- under such a sytem of government as \$600,000 some time ago, but did not lowed. A crowd of strikers gathered has been adopted for our territories. sell, is yielding an exceptionally fine was in danger, shot Schindler in the the hands of the natives, and they get owners set to work with seven mer breast. A general fight followed the along without trouble or friction. shooting of Schindler, and strikers to Under a territorial form, the islands the number of 40 made an attack upon could be best controlled."

He reviews his impressions of trade possibilities in the Orient as follows: "England, Russia, Germany and their own, and beat off their assailants France have braved war and pestilence

in efforts to secure a share of the wealth which will come to them by commercial relations with these people. The treaty of peace cast upon us the responsibility of sovereignty over from 9,000,000 to 11,000,000 people, together with the islands which they inhabit, containing an area three times that of our great and prosperous Empire

state.

"Very naturally, there may be honest differences of opinion as to whether everything has been conducted during the two years in accordance with the highest wisdom and best possible judgment, but there should be no question among the American people as to the duty and wisdom of now uniting in a determined effort to take the situation as it stands, and so conduct the affairs of our country as to add the most to its glory, honor, welfare and prosperity. It is a friendly struggle for commercial supremacy in which our rival nations are using their best efforts, and I say, let us, in a friendly but determined spirit, use our best efforts also,"

Chicago, March 12 .- Efforts of contractors today to place nonunion men at work on buildings in various parts of the city, work on which has been interrupted by the strike, resulted in several encounters between union and nonunion men. At the new Ogdensburg dock. Ohio and Kingsbury streets, the contractors succeeded in getting eight men through the picket lines of the union workmen and put them to work. A few bricks were thrown, but no one was hurt, and the police quickly suppressed the disorder. Big Fire at Lead.

Lead, S. D., March 10 .- Fire this morning destroyed 40 buildings. dynamite in order to stop its spread, returns to the state university.

MINES AND MINING.

Rich Claims in the Klondike Country-

Aestheticism in Mining Camps. Some one said that man first works for bread, then for butter on his bread, and will exhaust himself to get sugar on the butter. There is a great deal of truth in the remark; at least as far as miners are concerned. They want the TROOPS NEEDED IN THE NORTH | best when they have the price. They are not so exacting so far as flowers and perfumes go. They are not aesthic in their tastes and inclinations, but tered Into Small Bands-Massacre they want good clothing, good board, at Calabanga-40 Spaniards Killed. good magazines and books and good comfortable homes or lodgings. They can rough it when necessary, take their bacon and beans as their every day diet, sleep where night overtakes them and never whimper, growl or grumble at their fare. They are miners and take life as they find it, not as they would wish it to be. course, they enjoy their bread, but will take butter on it if they can get it, and will have the sugar if it doesn't cost too much.

But a miner's life, and his custom and habits do not lead him in the direction of aestheticism. He is a gentleman, but not a dude. He may be a little rough in his ways and blunt ir his language, at times, well-meaning and kind-hearted and disposed to do the right thing under all circumstances. He may appear stern and un-yielding, but it should be borne in mind that the miner is forced to meet and overcome stern and apparently unyielding conditions in his daily avocations. These conditions often find expression in his demeanor.

Not Good for Poor Men. Fred Smedeman, an old time Seattle man, who has spent the past 18 months in Atlin, B. C., and one of the pioneers who blazed the trail into that section, returned to Seattle a couple of days ago, en route to St. Paul. Mr. Smede man will return to Seattle in a few weeks and go from here to the new gold fields in the Cape Nome district ir April. In Atlin he has several mining properties, but speaks in very conservative terms of the district. He says:

"It is not a 'poor man's camp' ir any sense of the word, but will take money to develop the country. Money will be made, generally speaking, only by large concerns who have secured and are securing strings of claims to be worked on a large scale with hydraulic plants."

Rich Mines in Southern Oregon.

The Kubli Bros., of Jacksonville Or., who own the Golden Standard mine, situated on Gall's creek, near Gold Hill, have arranged to start work on their property the present week with a force of 12 men. For the present they will use the old and thrifty two-stamp mill, which has reduced so much rich ore for them in the past but they have decided to replace it, and have secured a 10-stamp mill, with 500-pound stamps, which they will change to 800-pound stamps, and have in running order in the near future. Extensive development work has also been planned, and when it shall be carried out this mine is expected to enter the list of large producers in Southern Oregon.

Rich Klondike Claims.

and without thawers have shown ut \$75,000 and not over 100 feet of the 500-foot claim has been touched. A section of 45 feet of the claim yielded \$7,000, \$1,000 and over per lineal foot, and the owners claim that they will receive more than \$300,000 from the ground included in the claim area.

Rains Benefit Mines.

The late heavy rains and the freshet following them in some of the sections of Southern Oregon and Northern California, especially along the Klamath river, have cleared away large bodies of tailings and rock piles and other debris that have accumulated in the past few months. This has been most beneficial to the miners along the whole length of the river. The mines along the Klamath river which have produced big in the past are receiving special attention now.

Rich Strike in Josephine County.

L. Brownin, who at one time owned the Greenback mine, in Josephine county, has struck a very rich ledge near Leland, for which he has been made a very large offer, but declines to dispose of the property. The rock is rich in gold, and the farther he goes into the earth the richer the ledge which is two feet wide.

A good preparation for the toilet is made by grating two teaspoonsful of white Castile soap, three or four of orris root, powdered, and a handful of oatmeal. Let all soak together in a cupful of warm water for a couple o hours; then add a few teaspoonsful o this preparation to the water in which you bathe. It is cheap, and good for the skin.

Silver spoons and forks may be kept bright when used daily by soaking them in strong borax water for a few hours. The water should be at a boiling heat when the silver is put in it.

A beautiful natural park has been The offered San Antonio, Texas. One condition attached is that "no beer or inon for assistance, and responded. In toxicating liquor of any kind shall be addition to the combined fire depart- sold, given away or drank on or upon ments, it was found necessary to blow any part of said premises." If this up buildings in the path of the fire with condition is violated, then the property scarcity of water and the inflammable these conditions, and the Liquor Dealer were unable to do anything to stay the more in keeping with propriety to have given it to the W. C. T. U."

FARMING FOR ALASKA

Grains, Flax, Clover and Vegetables Thrive Surprisingly-Also Goats, Sheep and Cattle.

One of the important reports which this week, prices of many staples are has just been submitted to congress by firmer and higher, and generally there the secretary of agriculture and ordered is a better tone than noted for some to be printed deals with the agricul- weeks. Easily holding first rank in tural investigations in Alaska. It is the matter of speculative activity, cot-important because it brings out some ton early in the week touched the highfacts in regard to the agricultural capa- est level, not only for the present seabilities of our vast Northern territory, son, but for at least six years past. which will astonish those who have re- Wool is rather weaker, following the might contain or for the fur and fish it can manufacturers. These investigations, as far as they

capabilities which, when developed, advanced this week to the level touched may sustain a large population and some time ago. make it a prosperous state. And why | Boot and shoe manufacturers are not? The little country of Finland, actively employed, and leather is firm, which lies between Sweden and Russia but hides are weaker or lower at most in the same latitude and is less than markets. one-fourth the size of Alaska, has a Building materials are firm, except population of 2,500,000 and exports at cities where labor troubles are apboth grain and livestock, as well as prehended. vast quantities of dairy products. The author of the report, Professor C. C. irregular, owing partly to the com-Georgeson, who has charge of the investigations, brought to Washington 11 building hands, building material varieties of spring wheat, a dozen varieties each of barley and oates, and also rye, buckwheat and flax, all of numbers of men throughout the which had matured at the experiment country. stations at Sitka and Kenai, in the Kenai pepinsula. The report states that red clover lived through the winter at Sitka, made a luxuriant growth and matured seed, and that vetches and other forage plants did equally as well. All of the common hardy vegetables were grown to perfection, some cauliflower at Kenar measuring 14 inches across the head. A statement by the superintendent

of the Alaska Commercial Company in regard to his company's experience with livestock at Kadiak is of more than passing interest, because it reveals possibilities in the stock industry which are bound to be of much importance in the future development of the country. The company has for many years kept cattle, sheep and Angora goats on some of the small islands near the town of Kadiak. On one of these islands it was not found necessary to feed or shelter the cattle at all, winter or summer. Year in and year out they lived in the open and were maintained solely by the native grasses, which are abundant in all of Southwestern Alaska. The herd increased yearly about 75 per cent of the breeding cows. A flock of Angora goats increased 60 per cent annually and gave very good results in mohair. A flock of sheep has been kept for the past 16 years on pasture, the year around. The increase was something over 60 per cent, and the clip averaged about five pounds of wool per head yearly. There seems to be no doubt that animal husbandry can be successfully prosecuted in different parts of Alaska.

Land for agricultural experiment stations has been reserved at three places in the coast region; namely, at Sitka, Kadiak and Cook Inlet, and development work was begun the past season at Sitka and Kenai. A headquarters Sections of Gold Run Gulch in the building was erected and partially comoffices, laboratory, library and quarters for the person in charge. Most of the scientific work will be done at Sitka.

The stations are equipped with work oxen and all the tools necessary for pioneer farming. The report enumerates also the lines of experimentation which are of chief interest to that country. They include those which relate to the improvement of the soil, the selection and improvement of small grains, experiments with vegetables, the introduction of fruits and experiments relating to the various branches of livestock industry.

Northwest Notes.

An opera house to cost \$12,500 and to have a seating capacity of 1,000, is to be erected at Albany, Or., this year.

Mrs. Jane Kees, who died near Lebanon, Or., left an estate valued at about \$120,000, mostly in money. She left no children, and the money goes to her brothers and sisters.

The hoisting engine at the government works at Bandon, Or., was crushed to smithereens. A big blast was set off, and a rock weighing 25 tons fell on the engine, fairly pulverizing it.

Fairhaven, Wash., claims to have not only the largest salmon cannery in the world, but also the largest shingle mill, and the daily capacity of the latter is now being increased from 500,-000 to 700,000.

A. C. Pettys, ex county assessor of Morrow county, Or., who has a fine farm and orchard three miles east of Ione, is of the opinion that the late frost injured the peach crop. His trees were nearly in bloom when the frost came. He also states that the codlin moth was doing a great deal of injury to his orchard.

Pendleton, Or., will have a Chinese voter at the June election by the name of Eng Chung, who was born in San Francisco. He is well educated and reads and writes the English language as well as the average American, and to hear him talk without seeing him it would be impossible to say that he was not an American.

A 16-year old boy has been arrested in Spokane charged with bicycle stealing. He confessed that he had stolen tine of the ten wheels reported stolen

The average wages paid in the lumber and shingle mills of Washington is thout \$2.78 per day. The lowest wages paid is for firemen, who receive \$1.75 per day. The highest are re-eived by head sawyer and bookreepers, their compersation being \$4 BRADSTREET'S REPORT.
