Christian Experience. Christian experience cannot be ordered as one orders goods from a store, or writes a check on a bank. It comes as a fruit. When we obey we know; when we believe and follow the Lord Jesus He gives the grace. It may be very quiet, but in reality, and with great comfort.—United Presbyterian.

A SIGNIFICANT LETTER. New York City, Feb. 15, 1900. My Dear Carlton:—I know it will please you to learn that my homeward journey from San Francisco was more than pleasant. One striking feature that added very much to my comfort was the dining car service on the Rio Grande Western and the Denver & Rio Grande. This is the finest service of this description I have ever seen anywhere, either in this country or abroad; the food and cooking was all that could be desired, and at very moderate prices. If you happen to know the Rio Grande Western people, I wish you would say to them that it will afford me the greatest pleasure at all times to bear testimony anywhere to the above facts.

Very truly yours, (Signed) J. ADDISON BAKER, 2nd. [Salt Lake Tribune.]

The Rio Grande Western Railway now operates through Pullman sleeping cars between San Francisco and Chicago, without change. The route via Salt Lake City is unequalled in attractiveness and wealth of novel interest. Three through trains daily. Write for information, rates, etc., to J. D. Mansfield, General Agent, 253 Washington street, Portland, Ore., or Geo. W. Heintz, General Passenger agent, Salt Lake City.

A BRILLIANT JURIST. Passed Away in the Death of Ex-Minister Phelps. The recent death in New Haven, Conn., of Hon. Edward J. Phelps, ex-ambassador to the Court of St. James, has removed from the nation's public activities a brilliant jurist, an able orator, a keen politician and a gifted writer.

Mr. Phelps was a native of Vermont, where he was born, in 1822, at Middlebury. He was a graduate of Middlebury College and for a time practiced law in his native town, subsequently removing to Burlington. Under President Fillmore he was second controller of the Treasury. In 1870 he was a delegate to the Vermont Constitutional Convention. In 1880 he was the unsuccessful candidate of the Democracy for Governor of Vermont, and the same year he was president of the American Bar Association. In 1881 he became professor of law in Yale University. From 1885 to 1889 he was minister to Great Britain, and in 1890 was the candidate of the Democrats of Vermont for a seat in the United States Senate—an ambition he failed to realize.

He was one of the Bering Sea Arbitration Commission, which settled the points at issue between the United States and Great Britain, thus removing a source of much friction between the two countries.

Prof. Phelps gained some distinction as a poet. His lectures on medical jurisprudence and other subjects were well received, and his articles on "The Constitution of the United States" were masterly productions. The Professor had a keen Yankee wit and was always in demand as a brilliant after-dinner speaker.

Use of Weather Forecasts. The weather forecasts are of value in a great many ways not thought of by most people. For example, they are most useful in the business of carrying fresh meats by rail, the temperature of the cars being regulated in accordance with the predictions. The same method is employed in carrying fruit, and, in case of a freeze advertised in advance, car loads of such perishable merchandise are apt to be detained in a southern latitude, even after they have started, rather than forward them northward under unfavorable conditions. Even the heating of large office buildings is managed nowadays with reference to the weather bureau's forecast. Fuel companies and ice companies find it to their latest to watch the predictions carefully, and growers of cranberries solicit and receive special warnings of cold waves.

Some very funny cranks write to the weather bureau from time to time. On one occasion Chief Moore received a letter from a rich but very ignorant old woman who had a notion that he could make it rain or not as he desired. She wanted to give a lawn party on a certain date, and wrote to ask if the weather could not be clear on that afternoon, so that her guests would enjoy themselves. To make her communication more impressive, she inclosed a list of the names of several prominent people whom she intended to invite.

"I entered into the humor of the thing," says Prof. Moore, "and sent her an answer to the effect that the afternoon she designated had already been bespoken by a poor washerwoman who wanted to obtain some rainwater with which to wash clothes, and that on this account I could not possibly make it clear on that date."

Snake Bite in India. Fully twenty thousand of the population of India are annually killed by snake bites. The most deadly of all Indian reptiles appears to be the cobra di capello, which is greatly dreaded by the bare-legged Hindoos. With a view to reducing the mortality, the government tried the effect of offering a reward for snakes' heads; but, instead of diminishing the number of these reptiles, it only increased it, as it was discovered that the natives were breeding the snakes in order to secure the reward.

School for Scandal Closed. Springfield, Mo., women have organized a "don't speak evil" society, each member signing this agreement: "I do hereby solemnly pledge my word to speak no evil of any woman, whether such report be true or not. Any violation of this pledge, however, does not release me from its subsequent obligations, which are to continue for all time to come." This is interpreted to mean: "If at first you don't succeed, try, try again."

Origin of Hurrab. W. J. Spratley thinks there can be no doubt that the Egyptian soldiers in ancient times went into the battle to the inspiring cheer of the "Hoo Ra! Hoo Ra! Hoo Ra!" And if the average questioning man asks why, he replies with this: "Because Hoo Ra (in the tongue of the Thotmes and the Ramesses) means 'the King! the King! the King!'"

Living Day by Day. Day by day man has his blessings from God. Day by day man has his work to do for God. God gives today no strength for tomorrow's needs. Why should man worry today over tomorrow's duties, or dangers, or lack? Sufficient unto the day is the evil thereof—and the good.—S. S. Times.

Entirely Out of Place. Prisoner—Yes, your honor, I admit I chased her around the house with a pistol. Judge—Well, I give you three months in the workhouse and \$100 fine for trying to introduce Kentucky politics into Indiana domestic life.—Indianapolis Journal.

More Convincing Than Science. Amid all possible scientific hair splitting concerning the food properties of alcohol and the effect of alcoholic drinks upon the human constitution, a few facts of common record are most convincing. For example, of the indoor patients of the hospitals of Paris, 46 per cent are habitual drunkards.

Reading the Word. If I desired to put myself in the most likely place for the Lord to meet with me, I should prefer the house of prayer, for it is in preaching that the Word is most blessed; but still I think I should equally desire the reading of the Scriptures for I might pause over every verse, and say: "Such a verse was blessed to so many souls; then, why not to me? I am at least in the pool of Bethesda; I am walking amongst its porches, and who can tell but that the angel will stir the pool of the Word, whilst I lie helplessly by the side of it, waiting for the blessing?"—Spurgeon.

The Ideal Man. There is much rivalry between the various colleges as to which will produce the ideal man. By this they mean a vigorous, honest, intellectual man, who will make the world better for having lived. Health will demand first consideration, for upon that depends brain and achievement. The Parson Who Milked His Cow. A country pastor, who was very bright and original in his remarks, attracted the notice of a wealthy lady who was spending the summer in the vicinity. One evening she called at the parsonage just as the old minister, clad in overalls, was coming in from the stable, with a brimming pail of milk.

"Why, Mr. Smith!" exclaimed the lady, "do you milk a cow?" "Certainly, madam" was the reply. "What would you have me milk,"—Judge.

WHAT ALABASTINE IS. Alabastine is the original and only durable wall coating on the market. It is entirely different from all kalsomine preparations. Alabastine is made ready for use in white or fourteen beautiful tints by the addition of cold water. It is put up in dry powdered form, in packages, properly labeled, with full directions on every package. It takes the place of sealing kalsomine, wall paper and paint for walls. Alabastine can be used on plaster, brick, wood or canvas, and a child can brush it on.

WHAT "KALSOMINES" ARE. Kalsomines are cheap and temporary preparations, manufactured from whitening, chalks, clays, etc. They are stuck on the walls with decaying animal glue. Alabastine is not a kalsomine. It is a rock-base cement, which sets, and it hardens with age. It can be re-coated and re-decorated without having to wash and scrape off its old coat. Alabastine is utilized to a great extent in hospitals, as it prevents the accumulation of dirt and the congregating of disease germs, being disinfectant in its nature.

CHURCHES AND SCHOOLHOUSES. The interior walls of churches, schoolhouses and all public halls should never be coated with anything but the durable and pure Alabastine. So evident has this fact become, that hundreds of tons are used annually for this work. The genuine Alabastine does not rub or scale off. It is clearly during the long period of its usefulness. Every owner of a building should use it. Ask your paint dealer or druggist for card of tints, and write for free copy of our interesting booklet to Alabastine Co., Grand Rapids, Mich.

REJECT THE "JUST AS GOOD." The dealer who tells you that he can sell you the "same thing" as Alabastine or "something just as good," either is not posted or is trying to deceive you. In offering something he has bought cheap and is trying to sell on Alabastine's demand, he may not realize the danger to himself as well as to you. Beware of all new substitutes. Dealers risk a suit for damages by selling and consumers by using an infringement. Alabastine Co. own the right to make and to sell wall coatings adapted to mix with cold water.

St. Jacobs Oil. The Warning of Ease. Nature is vocal with warnings. Pain is a warning of one kind, and ease is a warning of another kind. When work that is worth doing becomes very easy to us, we may generally conclude that we are not doing it as good as we might. Higher excellence is impossible when we are satisfied to do a thing easily. Only in the challenge of the difficult lies the possibility of progress. Herein we must turn and become as little children if we would enter the kingdom of Heaven. They enjoy the difficult.—S. S. Times.
