The ancients believed that rheumatism was the work of a demon within a man. Any one who has had an attack of sciatic or inflammatory rheumatism will agree that the infliction is demoniac enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm would cast out demons, but it will cure rheumatism, and hundreds will bear testimony to the truth of this statement. One application relieves the pain, and this quick relief which it affords is alone worth its cost. For sale by S. Howorth & Co., druggists.

Chas. Grissen was in demand as a principal speaker at a number of beet-sugar meetings held in Marion county opposite Newberg last week. The object was to create enthusiasm in encouraging the establishment of the beet sugar factory at Newberg. The list of pledges for acreage of beets is said to be growing well up to the 3000 acre mark, and encouraging word is being received from Dr. Korn, the leading projector. It is figured that this factory would put a half-million dollars into circulation yearly among the farmers, which would be the equal of 32,000 acres of wheat at 50 cents a bushel, if beets yielded 15 tons per acre and sold at \$4 per ton, and this is not taking into consideration the increased value of the land or other crops that might be grown upon it, or the uses which might be made of the remaining pulp. The Southern Pacific railroad has made a freight rate on beets of 50 cents per ton within 25 miles of the factory, should it be built.

A most successful joint teachers' institute for Yamhill and Polk counties was held in Sheridan Friday and Saturday last. The meeting was addressed by Senator B. F. Mulkey, of Polk county, who delivered a most interesting lecture on the life and work of Alexander Hamilton. The following also delivered able and interesting addresses: Superintendent Littlefield, of Yamhill county; Superintendent Hart, of Polk county; Professors Krapps, of Sheridan; Snuffer, of Amity; Northrup, of McMinnville; and others. Excellent vocal music was furnished by a double quartet, consisting of Mesdames Emma Buster, Anna Bewley, Maud Scroggin and Laura Howe, and Messrs. J. W. Buster, J. R. Sanders, Jr., J. M. Chapman and Z. F. Sears. Miss Genia Davis acted as accompanist in a most efficient manner. Miss Amy Morris pleased the audience by three most excellent recitations. The success of these institutes is largely due to the unfiring energy of Supt. Littlefield, and teachers and leading school patrons are said to be almost a unit in favoring his re-election to the office for another term.

Tomorrow afternoon and evening Yamhill lodge D. of H. will serve ice cream and cake in the Adams building, and respectfully solicit your patronage. An art gallery will be operated in connection, in which, for a small fee, you can see works of art that will open your eyes with astonishment and wonder. We knew we were getting to the front alright lately, but we hadn't quite seen ourselves as others evidently have. A lady on the down train Monday morning disembarked at the station here with all her baggage and when informed by conductor Tommy that this was not her destination, incredulously asked "Isn't this Portland?" There will be more mistakes like that and room for them when we get that beet sugar factory. For some time Dr. H. J. Littenfeld has been wanting to take an extended vacation, and now the way has opened for one which will certainly "pay" him from all points of view. He has received the appointment of acting assistant surgeon on the U. S. revenue cutter Perry, which will probably start about June 1 on a six months cruise in the northern waters of the Behring Sea fisheries. In addition to the enjoyment of the trip and the recuperation which he will doubtless experience, a salary of one hundred and fifty dollars a month is an interesting item. Doc has been up in Seattle the past week, where the Perry is in harbor, moving his medicines, and making arrangements for the trip.—Newberg Graphic.
