

BLOOD POISON.

victim is firmly within the grasp of the monster before the true nature of the disease is known. In other cases the blood is quickly filled with this poisonous virus and the swollen glands, mucus patches in the mouth, sores on scalp, ulcers on tongue, sore

throat, eruptions on skin, copper colored splotches, and falling hair and eyebrows leave no room for doubt, as these are all unmistakable signs of Contagious Blood Poison.

Doctors still prescribe mercury and potash as the only cure for Blood Poison. These poisonous minerals never yet made a complete and permanent cure of Contagious Blood Poison. They drive the disease back into the system, cover it up for a while, but it breaks out again in worse form. These powerful minerals produce mercurial rheumatism and the most offensive sores and ulcers, causing the joints to stiffen and finger nails to drop off. **Mercury and potash make wrecks, not cures,** and those who have been dosed with these drugs are never after free from aches and pain.

S. S. acts in an entirely different manner, being a purely vegetable remedy; it forces the poison out of the system, and instead of tearing down, builds up and invigorates the general health. S. S. S. is the only antidote for this specific virus, and therefore the only cure for Contagious Blood Poison. No matter in what stage or how hopeless the case may appear, even though pronounced incurable by the doctors, S. S. S. can be relied upon to make a rapid, permanent cure. S. S. S. is not a new, untried remedy; an experience of nearly fifty years has proven it a sure and unfailing cure for this disease. It is the only purely vegetable blood medicine known.

Mr. H. L. Myers, 100 Mulberry St., Newark, N. J., says: "I was afflicted with a terrible blood disease, which was in spots at first, but afterwards apread all over my body. These soon broke out into sores, and it is easy to imagine the suffering I endured. Before I became convinced that the doctors could do me no good I had spent a hundred dollars, which was really thrown away. I then tried various patent medicines, but they did not reach the disease. When I had finished my first bottle of S. S. S. I was greatly improved, and was delighted with the result. The large, red splotches on my chest began to grow paler and smaller, and before long disappeared entirely. I regained my olds weight, became stronger, and my appetite improved. I was soon entirely well, and my skin as clear as a piece of glass."

Send for our Home Treatment Book, which contains valuable information about

this disease, with complete directions for self treatment. Our medical department is in charge of physicians who have made a life-time study of blood diseases. Don't hesitate to write for any information or advice wanted. We make no charge whatever for this. All correspondence is held in the most sacred confidence. THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.
