FRIDAY, JUNE 8, 1900.

As if the silver cause was not losing ground fast enough, some thoughtless fellow has discovered gold in Kansas.

Admiral Dewey now says "he doesn't know what prompted him to aspire to the presidency." The country doesn't either.

Strange as the fact may seem, the Senators who make the most noise against the war in the Philippines are the ones who want to step over to South Africa and stop hostilities by American intervention.

When President McKinley said the other day that "Cuba will come to us by the laws of political and economic gravitation," he re-echoed what John Quincy Adams said on the same subject more than three-quarters of a century ago.

For the first time in the history of the national census there will be an enumeration this year of animals employed in cities and towns. Heretofore the live stock census has been confined exclusively to farm animals.

Hawaiian imports from the United States last February were \$1,467,953, an increase of \$450,000 over the corresponding month in 1899. From all other countries the imports amounted only to \$283,175, being \$50,000 less than in 1899.

The choice of Senator Wolcott, of Colorado, for temporary chairman of the republican national convention, which has virtually been decided upon, will please the party all over the country. The Colorado senator is able, public-spirited and popular.

The Indiana man who had his baby brought to the telephone so that he might hear it cry should be enshrined as a beautiful example to those men who are suspected of being willing to remain down town late at night to escape the vocal performances of their offspring.

The senate has passed the bill providing for the extradition of persons who have committed certain crimes in Cuba from the United States to the island. As it is amended, the bill provides that an alleged criminal shall be punished under the laws of Cuba as administered by the Cuban courts.

Canadian publishers are asking the Dominion to remit the duties so that cheap paper can go in from the United States. State publishers ask for free paper so that cheaper sheets may come in from Canada. The paper mill men claim that it is demand and scarcity of raw material that has stiffened the price instead of the tariff.

Senator Jones, chairman of the democratic national committee, offered an amendment to the Porto Rican tariff bill to return the duties on sugar imported from that island "to the persons from whom they were collected." The sugar trust had paid \$637,551 of these duties and if the amendment of the democratic senator had not been opposed by the republicans, then he would have caused the return of that sum to the trust!

South Dakota has just had a rousing republican state convention. That state went to the Bryanites in 1896, but it has been ashamed of its conduct ever since, and has come back to the republican party. Bryan's lead in South Dakota was 183. It is safe to predict that McKinley's margin in South Dakota in 1900 will be ten times as broad as Bryan's was four years ago. The republican prosperity is going to swing many of the erstwhile silver states into the republican column in 1900. Colorado may possibly go to Bryan this year by a small majority, but none of the other states in the mining region are likely to be carried by him except Nevada.—Globe-Democrat.

After an intermission of one short year the various pioneer associations of Oregon will hold their annual reunion at Portland next week. Men and women who endured hardships, who overcame all obstacles and built a state in the wilderness, will meet, shake hands and indulge in reminiscences of the olden times. Eyes dimmed with age will note vacancies in the ranks, made by the deaths of the year, after the roll has been called. The annual meeting of the pioneers is an occasion which enlists the sympathy and attention, and commands the respect of the younger generation, who honor the pioneers, and glory in their achievement in working out the great problem of statehood and civilization in the beautiful and inviting wilderness.

Tongue's plurality over Veatch in 1898 was 2,037. This year, so far as known, he has beaten Daly 2,917 votes, thus improving upon his vote two years ago by 910.

The cherished "Chicago platform," is rising up for adoption again this year. Altgeld favors it, and as a plea in its favor, says it is the "breath of Jefferson." Altgeld may firmly believe this. However, in all history there is nothing to show that Jefferson's breath was as bad as that.

It is a great comfort, when the mists have rolled away in splendor and the majorities stand cut in bold relief for yourself, or in favor of the other fellow, to be able to reflect that during the heat of the campaign not a word has been spoken by opposing candidates that would be recalled if such a thing were possible. In the campaign just closed, all of the county candidates, of whatever political faith, were gentleman, and they spared no pains in accusing each other of as much. When gentlemen oppose gentlemen, and voters choose, the game of chance has been fairly played.

LAFAYETTE.

Rev. C. C. Poling has moved to Dallas with his family. Peace go with him.
Prof. Kantner moved back to Salem, to his father's home, on Wednesday.
Mrs. C. Shaw and son have returned to Mills City.
Mrs. G. W. Perkins is improved a little in health.
The election passed off quietly. About twenty voters were not present. Too busy; could not lose the time.
Equal suffrage was snowed under—too bad.
Grain is of a good color. The bright warm sun is helpful to it.
The roads are splendid.
To work on the locks.
Town is quiet.
Plenty of cheese—it is good.

AMITY.

A very successful term of school has just been closed in Dist. No. 33, taught by Miss Ella Thomas. A picnic on the beautiful Watt hill was the source of much enjoyment to the youthful idea on the closing day. Miss Thomas is spoken of as one of the most successful teachers in the county.
Election and politics are now a thing of the past, so far as the June election is concerned, but the misery will commence again after the national conventions.
The A. O. U. W. picnic for Yamhill county will be held at Amity, June 16th.
Citizens of Amity raised money at the affair called a picnic here Tuesday of last week, and paid the license for Mr. Midaugh to run his merry-go-round, and all who wished could ride free any time during the day.
Decoration day was observed here by many people, who had either friends or relatives buried in the cemetery.
Children's day exercises at the Christian church last Sunday evening were largely attended, and the little folks carried out one of the most interesting programs ever given here. Children's day will be observed by the children of the Methodist church Sunday next. All are welcome.
Many people from here went on the excursion to Salem last Sunday.
Election day passed off very quietly. The saloon was closed, and the man with an appetite looked weary and sad.
Ira Martin has purchased seven Belgian hares, built a house for them, and will proceed to get rich off the proceeds.
Elder Cane is holding a revival meeting at Salt creek, and reports several conversions.
Strawberries and cherries are now on the market. Prices are good and growers pleased.

THE MODERN CONSTRUCTOR
The man tangled in the tape from the ticker is the type of the average business man. His business cares wrap him about like the coils of a constrictor and slowly crush out his life. The common sign of the business man's slavery is "weak stomach," the natural consequence of the rapid eating, the indigestible pastry, the coffee and pie or doughnuts, with which many a man stuffs his stomach under the name of "quick lunch." The quickest way back to a strong stomach and sound health is to use Dr. Pierce's Golden Medical Discovery until perfectly cured. It goes to the root of disease. It removes the cause of ill-health. It makes more blood and better blood, and this blood nourishes every organ in the body to the highest point of vigorous health.
"During the summer and fall of 1896," writes Chas. H. Sergeant, Esq. of Plain City, Madison Co., Ohio: "I became all run down; nerves were out of order. I wrote to Dr. Pierce for advice. He said I had general debility, and advised Doctor Pierce's Golden Medical Discovery, and thanks to you for your advice, I used six bottles, and since I stopped taking it about one year ago, I have not taken any medicine of any kind, and have been able to work every day. My appetite is good; I can eat three square meals a day, and I do not feel that miserable burning in the stomach after eating. My blood and nerves are in good shape, and I am in good running order."
Dr. Pierce's Pellets cure biliousness.

Par Value of this stock is from \$1.00 to \$10.00 per Share.

Business men endorse the plan as do sensible, prudent people everywhere.

Why buy the stock of an oil company having limited resources when you can in one company invest in the entire oil field of California? Why do it?

The California Consolidated Petroleum Company has men behind it of capital and high reputation. There are few people on the Pacific Coast who do not know some of the directors at least by reputation. Their names are not only a guarantee of the honest handling of the money but of the success of the company.

This company is not a trust. It is not connected directly or indirectly with the Standard Oil Company, all rumors to the contrary notwithstanding.

The stock of this company can be bought for a short time at fifty cents per share, which is one-half of the par value. This offer will positively be withdrawn and stock advanced to \$1.00 per share as soon as the block of Treasury Stock offered for sale has been sold.
