

# CONTAGIOUS BLOOD POISON

Contagious Blood Poison is the most degrading and destructive of all diseases, as it vitiates and corrupts the entire system. The first sore or ulcer is followed by little red pimples on the body, mouth and throat become sore, the glands enlarge and inflame, copper colored spots appear, and hair and eyebrows fall out. These are some of the milder symptoms; they increase in severity, finally attacking the vital organs; the body is tortured with rheumatic pains and covered with offensive eating sores.

It is a peculiar poison, and so highly contagious that an innocent person handling the same articles used by one infected with this loathsome disease, may be inoculated with the virus. It can be transmitted from parent to child, appearing as the same disease or in a modified form—like Eczema or Scrofula.

Many an old sore or stubborn skin trouble appearing in middle life, is due and traceable to blood poison contracted in early life. You may have taken potash and mercury faithfully for two or three years and thought you were cured, but you were not, for these poisonous minerals never cure this disease; they drive it from the outside, but it is doing its work on the inside, and will show up again sooner or later. You may not recognize it as the same old taint, but it is. S. S. S. has cured thousands of cases of Contagious Blood Poison, and it will cure you. It is the only purely vegetable blood purifier known, and the only antidote for this poison. S. S. S. cleanses the blood thoroughly of every particle of the poison—there is never any return of the disease.

Mrs. T. W. Lee, Montgomery, Ala., writes: "Several years ago I was inoculated with poison by a diseased nurse, who infected my baby, and for six long years I suffered untold misery. My body was covered with sores and ulcers. Several physicians treated me, but all to no purpose. The mercury and potash they gave me seemed to add fuel to the awful flame which was devouring me. Friends advised me to try S. S. S. I began taking it and improved from the start, and a complete and perfect cure was the result."

## CURE YOURSELF AT HOME.

Send for our Home Treatment book, which gives a history of the disease in all stages, and is the result of many years of close study of blood poison and actual experience in treating it. You can cure yourself perfectly and permanently at home, and your secret is your own. Should you need any information or medical advice at any time, write to our physicians. They have made a life study of blood diseases, and will give your letter prompt and careful attention. Consult them as often as you please; we make no charge whatever for this service. All correspondence is conducted in the strictest confidence.

**The Union Picnic.**

The union picnic of the two M. E. schools of McCabe and McMinnville, was held last Tuesday at the place known as "Jim Owens' Hill." This is an ideal picnic grounds and great credit is due to Mr. George Owens and the McCabe friends for the splendid preparations which had been made for the entertainment of the excursionists. At twelve o'clock an ample lunch was provided, to which all had contributed, and this was followed in the afternoon by the rendition of an excellent program, to which the members of the two schools contributed, and also Miss June Patty of Amity. At the conclusion of the program races and games were the order of the day. One of the most exciting events was the race between Miss Mable Neal and W. W. Wright; notwithstanding the desperate strain on the eyes due to the effort to follow the remarkable swift movements of the contestants it was evident that Miss Neal had won this first race. Other racers were Ray Maloney, who carried everything before him, Harold Owens, Lillie Nowak, Myrtle Owens, Harlow Mills, who was beaten by Miss May Reynolds, Emma Owens, and others. After the races various games were indulged in and then most of the excursionists climbed the hill, from which a magnificent view of the surrounding country was obtained. Then with the singing of "Blest be the Tie that Binds," a most successful outing was brought to a close, everybody declaring that they had enjoyed themselves thoroughly. Among the visitors were noted Mr. and Mrs. Andrews of Heppner, Mrs. Wright and the Misses Patty of Amity and several others. For transportation of the McMinnville school to the grounds its thanks are due to Messrs. Frank Stout, J. Brown and Mrs. Lydia Pearson.

**Notice to Horse Breeders.**

My stallion Van S. and Pollux, will make the season as follows: Amity, Mondays and Tuesdays; Sheridan, Wednesdays and Thursdays; McMinnville, Fridays and Saturdays, beginning April 2d, 15th J. W. HENRY.

**Summer Resorts.**

To the mountains our people in increasing numbers yearly look for those days of relaxation and recreation necessary to maintain the human machine in fair working condition. The languorous sloth of the seashore proves very seductive while it lasts, but many have decided that the annual outing should provide not only radical change of air and surroundings, but also such stimulation of flagging energies as will provide brawn and vigor for the return to labor. For this they urge the mountain climb and ramble, the balsam of the mountain pines, and the clear, unadulterated mountain air.

In this direction the Shasta Route now affords a wealth of attractions. The entire line of road from Ashland to Redding is studded with charming and accessible hotels and camps, where are cheer and comfort and healing at reasonable cost, and where you can hunt, fish, ride, loaf, or play with equal facility.

Or if you look for healing waters, none better can be found, hot or cold, than the springs of Ashland, Coe, Anderson, Bartlett, Byron and Paso Robles.

Before visiting Europe, the people of the north west should see the glories of Yosemite valley, and the wondrous groves of Mariposa and Calaveras; the Parisians are likely to make inquiries concerning these attractive resorts.

Send to Mr. C. H. Markham, general passenger agent, Portland, for new booklets on Castles, Shasta Springs, McCloud River, Yosemite, and excursion rates thereto.
