NEWS VERY UNSATISFACTORY

Li Hung Chang Will Not Leave Canton Until After the International Troops Have Defeated Prince Tuna's Forces.

London, July 16 .- The scanty cable dispatches received today add nothing the knowledge in London of the Chinese situation. It is stated positively from Canton that Li Hung Chang will remain there until the allied troops have defeated Prince Tuan's forces, and will then go north to lend his powerful aid in arranging terms of peace, co-operating with Prace Ching, Yung Lu and the other pro-foreign viceroys. For the present Li Hung Chang considers that he can best control and direct the vicerovs from Canton and also keep in check the turbulent province of Kwang Tung.

All the foreigners and missionaries have evacuated Wan Chau and have arrived at Ning Po. Large bodies of Boxers appeared at Wan Chau and threatened to exterminate the foreigners and Christians. They also distribnted banners, badges and inflammatory anti-foreign appeals.

The Tien Tsin correspondent of the Express, telegraphing under date of July 9, asserts that the Chinese are daily driving in the allies. They have mounted, says the correspondent, 12 fresh guns in advantageous positions, with which they are now keeping clear the streets of the foreign settlement, the incessant shooting rendering the veighborhood quite untenable.

The Daily Mail's St. Petersburg correspondent says that in the last six bours' battle outside of Tien Tsin, the Cossacks captured six Krupp guns and villed numbers of fleeing Boxers. The Chinese lost 3,000 killed, including Seneral Kek.

BOLD PLAN OF THE BOERS. Botha's Army Is Trying to Recapture Pretoria.

London, July 16 .- Lord Roberts' dispatch, reporting still another unfortunate occurrence, throws a serious light upon the state of affairs in South Africa. There has been some comment recently regarding the virtual phsence of progress by the immense ermy under command of Lcrl Roberts, but few, could have been found to believe that the scattered Boers were able to inflict such a defeat so near Pretoria.

Instead of the surrender of all of the remaining Boers being imminent, as recent telegrams had hinted, it seems they have been making a concerted attempt to surround or recapture Pretoria, with so much success that in the region which was supposed to be pacified, and in which no attack was expectd, they succeeded in inflicting a serious defeat, and capturing two guns and some 200 men. It is evident that General Botha has considerable force, seeing that he is able to press Lord around Pretoria, from the springs to the southeast of the city northward to Middelburg and Durdepoort and thence southward to Nitral's Nek and Krug-

Lord Roberts omits to give the name of the commander concerned, giving rise to the belief that worse remains to be told. Even if the mishap be not more grave than his information at present implies, it proves that the situation is still serious, and that there is no possibility of any troops being spared from South Africa for China, but on the contrary, it will still take a long time to clear the country of the Boers.

News has reached London that Lord Roberts has been suffering from a serious bowel complaint, and that Lady Roberts was hurriedly summoned to Bloom fontein

TAKEN FROM THE SAALE.

Sixty Bodies Recovered From the Ili-

New York, July 13 .- Twenty-four Allied Forces Are Becoming the burned steamship Saale today. bodies were recovered from the hold of which makes the total number of dead taken from this ship alone 60. Most of the bodies were so badly burned or mutilated that recognition was impossible, but several were identified by initials or names on articles taken from parts of their clothing that sometimes remained. Some of them appeared to be workmen from the ship. The pumps were worked in the Saale today, and by 2:30 this morning the vessel was floated. The ship was in nine or 10 feet of mud, and when she finally loosened herself from this body, she seemed to jump fully two feet out of the water. Four of the bodies brought up were those of women. It s thought that at least two of these were employed in the steward's department.

After the ninth body had been brought up, the men at work in the hold in search for bodies announced that they had counted 15 piled in a neap in the steward's room. The door o this room was found locked. The fire did not get near the unfortunate 15, and their lives might have been saved, but the breaking of the glass windows let the room fill with smoke and they were drowned like rats in a trap. These bodies were found in a better state of preservation than those previously found.

At 7 P. M. the men quit work because they could not see in the hold. There was then eight more bodies, according to reports, in the steward's room. How many more there were in the ship no one could tell. It was believed by the workmen that all had been found. All the faces of the dead were horribly distorted and swollen. The odor of the bodies pervaded the ship, and was detected on the Jersey shore when the wind shifted that way.

Up to tonight 159 bodies of victims had been recovered and eight more known to be on the Saale had been located, but not taken out. This makes 167 bodies recovered from the ships, river and bay. One other was found off Rockaway, making the total thus Chihuahua with the crew of the freight

THE NINTH HAS LANDED.

American Soldiers Are on Chinese Soll-Remey At the Seat of War.

Washington, July 13 .- The following cablegram has been received at the navy department from Admiral Remey: 'Che Foo, July 12 .- Secretary of the Navy-Arrived yesterday, two battalions Ninth infantry and one battalion marines. Colonel Meade landed today, to proceed to Tien Tsin. Allied forces in Tien Tsin engaged in maintaining their defenses. Order Solace here to take sick and wounded to Yokohama hospital. Oregon proceeds soon to dock at Kure, towed by chartered

Admiral Remey is in command over the head of Admiral Kempff, whom he ranks. It is believed that his cablegram this morning relating to the landing of the Nninth infantry has lost a date line, for it is not doubted that the otherwise all would probably have suctroops were landed at Taku instead of cumbed. Lady Hodgson pluckily he Foo, as his message reads.

Admiral Kempff has scored another credit through the formal statement by the Chinese government that the bombardment of the forts at Taku, which was done over his protest and without his participation, precipitated the crisis at Pekin.

Quartermaster-general Ludington has been making inquiry as to the character of the weather to be expected in that portion of China where hostilities are in progress, with a view to ascertaining the needs of the soldiers in the matter of clothing. Reports show that the climate in the fall and winter is even more rigid than that of Northern New York and New England. Consequently, the allowance of winter clothing already ordered has been doubled, and the Meade and the Sumner will now take out 6,000 winter outfits.

Bandits Attack Mexican Train.

Mexico City, Mexico, July 14 .- A daring train robbery took place Tuesday night near Chihuahua, on the Mexican Central. After the train sidetracked to let a passenger train pass it it was found that the spikes on the siding had been pulled out. The train was derailed and the train crew attacked by a dozen bandits. Many shots were fired. Meanwhile the pas senger train arrived and the crew, taking in the situation, pulled back to train. With a force of police and rur ales the passenger train returned to the scene of the hold-up. The robbers had broken into several freight cars and carried away booty. The police and soldiers started in pursuit, and one robber was captured with some booty. Thus far this is the first train hold-up on record in Mexico.

VANCOUVER IRON PROPERTY.

Pennsylvania Men Said to Be Buying for Development.

Seattle, July 16 .- The Post-Intellicoast, and have secured sites for new be taken from Barclay sound, and elsewhere in the island, down to Port Angeles for working. It is known that the McKeesport iron men have secured options on three properties in the Barclay sound country, namely the Anderson Company, another owned by Wilson, Braden, Irving and others, and a third the property of Thompson, Braden, Logan and Kains. An option has been secured on these claims until the end of the year, and before the beginning of next month between 400 and 500 men will be taken up to Barclay sound to exploit its mineral wealth.

If development proves that these properties are at all equal their promise, it will mean much for Vancouver island and for Victoria. The properties in question run about 72 per cent in pig iron, a very high per centage, and one which envoked enthusiastic expressions from the visiting magnates. From these the raw material for the

Port Angeles foundries will be drawn. The Galena, one of the premising claims on the Gordon river, passed recently under bond to a number of Eastern capitalists. THE MIDSUMMER TRADE.

Improvement of Tone, Rather Thes of

Bradstreet's says: While trade is beginnings of improvement in demands are apparantly becoming visible. The improvement is still one of tone, rather than of demand, but with a yield of 540,000,000 bushels of wheat, a next to record breaking yield of corn, and a very large proportion of oats, the Western crop situation contains many encouraging features. The Southern cotton crop has undoubtedly suffered, and conditions are unprecedentedly low for this season of the year, but the acreage planted was a large one, and prices are so much higher that a satisfactory financial return is confidently looked for.

The effort of the big iron and steel concerns to control prices, if really made, has proven abortive, and another wholesale slashing of quotations is to be reported this week.

The industrial situation is rather better as a result of agreements upon wages by a number of iron and steel manufacturing concerns and their employes. Lower prices for lumber are appar-
