Mr. W. O. Miner, deputy postmaster

man, and will doubtless get the appoint-
ment.

The total number of scalps paid for by

The Telegram's vacation contest closed
August 1st. The four most popular
young ladies are in the order following:
Miss Nellie Willmette, Miss Marie Kro-
der, Miss Ada Gordon and Miss Clara
Blanchart. In addition to having their
transportation, hotel bills and incidental
expenses paid for two weeks at the sea-
side by the evening Telegram, the first
two of these lucky prize winners will re-

spectively.

Rev. W. H. Latourette, of Oakland,
Calif., elected financial and general agent
of McMinnville college at the late annual
meeting of the board, was in the city over
Sunday last. He is a gentleman finely
qualified in every way for the work he is
to undertake for the college. He will
take the field at once in the interest of
new students for the coming year and
funds for endowment. His coming means
much for the college's future interests.

The active and liberal interest in the
development of the agricultural, dairying
and other interests of the Willamette val-
ley which is shown by C. H. Markham,
general freight and passenger agent of
the Southern Pacific Company, distinctly
points out that official as one who ex-
pects rich returns to follow from the
prosperity of his patrons rather than
from their adversity. Mr. Markham's
latest generous offer is to carry all exhib-
its to and from the state fair free of
charge.

A meeting of the committee appointed
to canvass for patronage for a creamery,
in the event that one should be started at
Whiteson, was held at that place last
Saturday. The result of the canvass
showed conclusively to the minds of the
committee that a sum total of 400 cows
could be secured to furnish the milk.
The extremely busy season prevented
many farmers from considering the sub-
ject as they otherwise would, but almost
every man interviewed was willing to do
something. One man would put in 20
cows, and another thought he might
keep 40. The showing was sufficiently
good that no capitalist who desires a good
creamery location should have any fear
of the outcome by locating at Whiteson.
It is believed that if a start for a cream-
ery were really made there, the idea
would take like wildfire, and that the
farmers would vie with each other as to
who could do the most to advance its in-
terest as well as their own. Another
meeting of the residents of the vicinity is
to be called late in September, when peo-
ple get in from their vacations and crops
are gathered, and a better attendance
and interest is expected at that time. A
proposition from some creamery man
would be gladly entertained at that meet-
ing. What the people would like to con-
sider is a definite proposition.

The American Baptist Education So-
ciety, of New York, recently amended
its contract with McMinnville college so
that the college is required to raise but
\$10,000 instead of \$20,000 in order to se-
cure \$5,000 from the society. This makes
it certain that the required \$10,000 will
be secured before the end of the present
year.

Miss Nettie Kingery has returned her
contract to the school board without
signature, having secured what she re-
gards as a better position in an outlying
Portland school. Miss Kingery did fine
work as teacher here, and could have
had the position another year at the
same wages. Many of her primary pu-
pils will miss her genial presence and
kind and patient bearing. The grade
has been assigned to Miss Eva Hembree
of this city, who is a teacher of experi-
ence.
