victim is firmly within the grasp of the monster before the true nature of the disease is known. In other cases the blood is quickly filled with this poisonous virus and the

swollen glands, nucus patches in the mouth, sores on scalp, ulcers on tongue, sore throat, eruptions on skin, copper colored splotches, and falling hair and eyebrows beave no room for doubt, as these are all unmistakable signs of Contagious Blood Poison. These poisonous minerals never yet made a complete and permanent cure of Contagious Blood Poison. They drive the disease back into the system, cover it up for a while, but it breaks out again in worse form. These powerful minerals produce mercurial rheumatism and the most offensive sores and ulcers, causing the joints to stiffen and finger nails to drop off. Mercury and potash make wrocks, not cures, and those who have been dosed with these drugs are never after free from aches and pain.

S. S. S. acts in an entirely different manner, being a purely vegetable remedy; it forces the poison out of the system, and instead of tearing down, builds up and invigorates the general health. S. S. S. is the only antidote for this specific virus, and therefore the only cure for Contagious Blood Poison. No matter in what stage or how hopeless the case may appear, even though pronounced incurable by the doctors, S. S. S. can be relied upon to make a rapid, permanent cure. S. S. S. is not a new, untried remedy; an experience of nearly fifty years has proven it a sure and unfailing cure for this disease. It is the only purely vegetable blood medicine known.

Mr. H. L. Myers, 100 Mulberry St., Newark, N. J., says: "I was afflicted with a terrible blood disease, which was in spots at first, but afterwards."

wr. H. L. Myers, 100 Mulberry St., Newark, N. J., says: "I was afflicted with a terrible blood disease, which was in spots at first, but afterwards spread all over my body. These soon broke out into sores, and it is easy to imagine the suffering I endured. Before I became convinced that the doctors could do me no good I had spent a hundred dollars, which was really thrown away. I then tried various patent medicines, but they did not reach the disease. When I had finished my first bottle of S. S. S. I was greatly improved, and was delighted with the result. The large, red splotches on my chest began to grow paler and smaller, and before long disappeared entirely. I regained my lost weight, became stronger, and my appetite improved. I was soon entirely well, and my skin as clear as a piece of glass."

Send for our Home Treatment Book, which contains valuable information about this disease, with complete directions for self treatment. Our medical department is in charge of physicians who have made a life-time study of blood diseases. Don't hesitate to write for any information or advice wanted. We make no charge what-ever for this. All correspondence is held in the most sacred confidence. THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

J. A. Imbrie, whose term as archer's has also just expired, was charged with \$136.30, and this amount has been paid. Of this amount Mr. Imbrie will get a rebate of \$7, being an excess payment. About \$60 of the charge against Imbrie was a payment of delinquent tax redemption. Ex. County Clerk R. B. Goodin, now of Salem, was charged with \$324.99 and, being convinced that this amount was correct, paid the same to the proper officer. The amounts paid by there officers aggregate over \$900, which more than reimburses the county for the money expended in having the books examined. The shortages among these men is attributed to the method of keeping the books and not to any desire to defraud. The books of the county have been examined a number of times before, covering this same period, and in each instance the experts reported the books were in excellent condition, and that all moneys had been accounted for. ### WEDDING GOODS. We wish to call special attention

to our fine line of paper and envelopes for wedding invitations and announcements. Invitations are not quite as much in evidence as they were a few years ago, though they are still all right. Announcements sent out immediately after the important event, are very generally used. Either is accepted as a token of friendship, and is treasured as a souvenir and keepsake in every household where healthy sentiment abounds. The sending should not be neglected. An announcement or invitation should be artistic both in form and execution. We have beautiful stationery, and have recently added a series of type by which the fine effects of lithography can be fairly imitated if not equaled.
