SURPASSED EXPECTATIONS.

The Carnival a Big Success, and the Earnest of Better Things to Come.

It is the universal opinion that Yamhill people never enjoyed an occasion of general coming together more than the two days' carnival just passed. Matters were in a terribly jumbled condition up to Thursday, when everybody seemed to be placed on his personal pride and set about to do his share to make the occasion pleasant. The parade was formed at 1 p. m., after the arrival of the steamer Bonita, having on board King Rex in the person of Hon. Wm. Galloway, who departed himself with becoming dignity. It followed the line of march outlined, lead by trade displays, and followed by school children, ladies on horseback, etc. The crowning of the queen occurred under the large pavilion, and was a graceful proceeding, for the most part. Queen Grace was beautiful, dignified and graceful in bearing, and no young lady could have done better. Dr. Lewis as chamberlain, Elder Lindsey as archbishop, and Mayor Maloney as chief functionary of the city, all performed their parts well, and the queen's attendants, Misses Bergitta Nelson, Alta Booth, Etta Redmond and Jessie Hayes, looked almost as beautiful as the queen herself. The path of the queen was strewn with flowers by Eden Briedwell, Essie and Bessie Baker, Esther Ferguson, Georgia Irvine, Esther Hamblin, Marie Henry and Blanche Wright, and Frank Hayes, Chas. Young, Ed Schenk and Ward Wisecarver were strong bodyguards. Some very good photos of the coronation were taken by Rev. R. W. King. The remaining part of the day was occupied in witnessing the trick bicyclist, Prof. Shaw, and the sensational trapeze performer, Prof. DeArmo. A well-attended ball, at which the queen was present, was given in the evening. The pavilion display of fruit and vegetables was very creditable, but could have been made much better with more time and attention. There were 94 varieties exhibited. Following is the list: Mrs. Jas. McCain—Beets. J. E. Noll—Apples and pears. A. V. R. Snyder—Pine cone and snake rock. D. Cain—Corn and peaches. W. T. Booth—Apples. S. A. Manning—Apples, corn and egg. C. R. Eberhard—Beet. S. Howarth—Collection of ores. Dr. Goucher—Ores. Green Horn Milling Co.—Ore. John Calhoun—Potatoes. T. A. Turner—Pears. O. Okerson—Apples. Star and Atlas Mills—Flour. R. W. Phillips—Apples and quinces. J. E. High—Clover and wheat. Wallace & Walker—Watermelons. Eli Branson—Pampas grass, gun and apples. Mrs. John Hopfield—Dahlias and general bouquet. Mrs. D. A. Wallace—Canned pears and fancy work. P. P. Wright—Assortment candies and confections. H. C. Burns—Hessian flies and army worms. Am Shadden—Sample of ore. Mrs. E. P. Wallace—Fancy work. Mrs. C. W. Talmage—House plants. Mrs. R. Nelson—House plants. J. W. Ayers—Flowers. W. E. Haight—White plume and rose ribbed celery. O. H. Adams—Siberian crabs. Jonathan Todd—Quinces. C. S. Hulin—Celery. R. M. Woolworth—Russet quinces. E. P. Wallace—Gravenstein apples. Jas. Reid—Apples, pears and quinces. S. H. Maris—General collection of vegetables, strawberries and ground cherries. W. H. Fletcher—Watermelons and Scotch kale. J. B. Fletcher—Beets, watermelons and mush melon. A. J. Hunsaker—3 squashes, 65, 61, 91 lbs. T. A. Turner—Squashes, 103 and 80 lbs. T. R. Willis—Wheat, corn and apples. J. R. Martin—Cucumbers. J. A. Peckham—Cucumbers. Calvin Long—Beets. Wash Laughlin—Almonds, turnips and Beets. Jacobson & Co.—Rugs. Phineas Small—Castor bean. John Hopfield—Mangel wurzels, carrots and turnips. Mrs. Jacob Wisecarver—House plants. J. J. Johnson—Bohemian ore. H. Z. Foster—Barbank potatoes. This feature of the carnival will be made much better on future occasions, because this was a stimulus to people, and served to show many wherein they might compete. The Bonita made an excursion to the locks Friday afternoon, and two on Sat-

urday, carrying nearly 200 passengers each trip.

For the second day all the attractions were held and enjoyed by nearly as many people as on the day previous. Hon. Binger Hermann gave an address in the morning, speaking with pride of the completion of the locks and what they meant to this county. He said that when there shall be found no market or insufficient or costly transportation to the market, for our surplus wheat, corn, and live stock, and for the multiplied products of the factory and the mine, we must expect hard times, stringency in the money centers, and prostration in all our industries. Should, however, the favorable conditions which at present bless our nation, continue, it is not too far prophetic to say that the activities of the 20th century will be concentrated on the Pacific. Indeed, such result has already been foreshadowed, not only by some of our eminent statesmen, but by observers of other lands.

Judge Galloway opened the speaking in the afternoon, and expressed his pride in the great work on the Yamhill. He paid a glowing tribute to Mr. Tongue for his share in the work, and for his loyalty to all state interests. His speech was a good one.

Hon. Thos. H. Tongue followed with a pleasing speech, bearing on the necessity for people to get away from their pessimism and to have faith in each other. To depend less on the east, and strive to build up industries at home that shall keep money and employment at home, where natural resources are so great. He rejoiced at the completion of the locks, and expressed his faith and hope in securing at no distant date the removal of the lockage charge at Oregon City by government ownership. He was roundly applauded.

A prize of \$5 was awarded to Walter Link for the best banner in the procession, a like amount to T. A. McCourt for the best decorated carriage, and a like sum to Miss Maude Hembree for the best appearing lady on horseback.

The west pavilion contained creditable exhibits by the McMinnville drain tile factory, in which Mr. Heath showed some very skillful work in clay; that of McMinnville college, consisting of electric generators, botanical and zoological specimens, largely the work of students; relics from Manila in charge of Capt. H. L. Heath, who never tired in his explicit and entertaining descriptions; cream separator demonstrators; the display by amateur photographers, and one of job printing by the Telephone-Register. The prizes for best photography were awarded as follows: First prize, first class, Prof. Brumback; second, Louis Nelson. First prize, second class, Dr. D. G. Clark; second, Rev. G. W. Fender. The first prizes were lamps, the second, albums. John Redmond and Geo. Owens exhibited some fine sheep.

Zamlock's booth was the greatest fun making institution, and the "red bat" was becoming famous up and down the valley.

Belgian hares were displayed by Carl Fuchs and Chas. Nelson, but Dick Phillips had the biggest one. It is understood that the committee is \$50 ahead on the carnival, besides having the pavilion for permanent property.

As far as anyone is concerned, no one would know that a great national presidential campaign was in progress. This is as it should be. People generally know their own minds, and political agitators do more harm than good.

Two new gasoline lamps have been placed in position for bettering the lighting of the town. This will make Amity a well lighted town, and the citizens ought to be congratulated upon having a council that looks so well to their interests.

"For three days and nights I suffered agony untold from an attack of cholera morbus brought on by eating cucumbers," says M. E. Lowther, clerk of the district court, Centerville, Iowa. "I thought I should surely die, and tried a dozen different medicines, but all to no purpose. I sent for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and three doses relieved me entirely." This remedy is for sale by Howarth & Co., druggists.

Consumption

is, by no means, the dreadful disease it is thought to be—in the beginning.

It can always be stopped—in the beginning. The trouble is; you don't know you've got it; you don't believe it; you won't believe it—till you are forced to. Then it is dangerous.

Don't be afraid; but attend to it quick—you can do it yourself and at home.

Take Scott's Emulsion of Cod Liver Oil, and live carefully every way.

This is sound doctrine, whatever you may think or be told; and, if heeded, will save life.

If you have not tried it, send for free sample, its agreeable taste will surprise you.
