E. E. Martin, of Oregon City, has purchased the undertaking and furniture business of I. E. Fenton, and has moved his family here. Several weeks since J. W. Covert when at work on his farm, in stooping to lift a piece of wood or board, ran a thistle or briar into the right eyeball. He did not suffer a great deal at first from the slight wound. After doctoring it himself, he thought best to consult a physician regarding his eye. He went to Salem and had his eye examined by a physician of that city, who informed him that the sight was entirely destroyed, and he advised Mr. Covert to have the eyeball taken out, to prevent any bad effects which might result from the wound in the future. Mr. C. did not have the operation performed at the time. He afterwards went to Portland and consulted a physician there, who informed him that the sight was entirely destroyed, but that he did not think it necessary to remove the eyeball. He prescribed a remedy for healing the eye, which Mr. Covert finds of benefit.—Dayton Herald.

Union block is to revel in the luxury of a new cement walk her entire length. Active work to this end began Monday morning, with Elsie Wright at the head. We have often remarked the public spirit of Mr. Wright, and must again commend this stroke of enterprise. Cement walks are one of the best evidences of the dignity of a city.

A runaway occurred Tuesday evening which might have proved more serious. Geo. Martin and Miss Christa Seitters were out driving, and their horse became uncontrollable on Third street. Uncle Green L. Rowland of North Yamhill made one of his rare visits to the county seat last Saturday. During a call at this office he expressed a well-grounded conviction that at no distant day boats will be navigating the North Yamhill river far as Carlton during the high water season. The back water extends almost to Gaunt's bridge, and up as far as Carlton their exists no serious obstructions. The county seat may yet have to be guarded against Carlton.
E. Estes last week completed the work of erecting probably the longest suspension wire foot bridge in the world. It was placed across the Big Nestucca river at Foland's ford above Beaver, and is more particularly for the accommodation of school children. A single one foot wide plank lies upon the bottom of the bridge, which is thoroughly knit and bound together. A young swain of the neighborhood offered Mr. Estes \$100 to build the bridge so he could ride his horse across to see his best girl, but his proposition came too late to be incorporated in the plans.

Queen Grace Surprised.
Miss Grace Newell, queen of our late carnival, has begun a term of school in Dist. No. 6, and her attendants planned a surprise for her during her absence last week. On Saturday Misses Bergitta Nelson and Etta Redmond went to her home and asked her to meet with them at the home of Miss Alta Booth on that evening, as they had a little business to talk over. Upon the queen's arrival she found her gallant knights and honored maids awaiting her, and after spending several hours of playing games, which were prepared before their arrival, they listened to an eloquent little speech by Mr. Wisecarver, who then presented Queen Grace with a beautiful friendship bracelet, in behalf of her honored maids and knights. The present is a thing of beauty, and was a great surprise to the queen, who could hardly express her thanks at this unexpected pleasure. From the bracelet hang eight hearts, with the initials of her eight attendants, and on the lock which holds it together are engraved these words: "Queen Grace 1st, 1900."

Twenty-five cents a pound for butter fat in September at the Stayton creamery! Where is the farmer who would raise wheat when cream is quoted at that figure?
The Stayton Mail says that the creamery there paid all its patrons 25c a pound for butter fat received during September, and gave to each one every ounce of milk they brought in, sweet and clean, to be taken home for the pigs and calves. This is the highest notch reached since the plant began operation. It promised 17c the first month and paid one cent more than it agreed to. The price has been better each succeeding pay day. The patron of the Stayton creamery has much to encourage him. There should be more of them and without doubt there will be. Upon stock and dairying rests the future of the Willamette valley. Quit the wheat business and try it.
