

# CONTAGIOUS BLOOD POISON

Mrs. T. W. Lee, Montgomery, Ala., writes: "Several years ago I was inoculated with poison by a diseased nurse, who infected my baby, and for six long years I suffered untold misery. My body was covered with sores and ulcers. Several physicians treated me, but all to no purpose. The mercury and potash they gave me seemed to add fuel to the awful flame which was devouring me. Friends advised me to try S. S. S. I began taking it and improved from the start, and a complete and perfect cure was the result."

Contagious Blood Poison is the most degrading and destructive of all diseases, as it vitiates and corrupts the entire system. The first sore or ulcer is followed by little red pimples on the body, mouth and throat become sore, the glands enlarge and inflame, copper colored spots appear, and hair and eyebrows fall out. These are some of the milder symptoms; they increase in severity, finally attacking the vital organs; the body is tortured with rheumatic pains and covered with offensive eating sores.

## CURE YOURSELF AT HOME.

Send for our Home Treatment book, which gives a history of the disease in all stages, and is the result of many years of close study of blood poison and actual experience in treating it. You can cure yourself perfectly and permanently at home, and your secret is your own. Should you need any information or medical advice at any time, write to our physicians. They have made a life study of blood diseases, and will give your letter prompt and careful attention. Consult them as often as you please; we make no charge whatever for this service. All correspondence is conducted in the strictest confidence.

Deputy Sheriff Hagerty says that last Saturday was the banner day for the payment of taxes. Over \$2,000 was received for that day. Judging from the present manner of paying up, he believes the amount delinquent will not exceed that which has been usual in past years.

When you cannot sleep for coughing, it is hardly necessary that any one should tell you that you need a few doses of Chamberlain's Cough Remedy to allay the irritation of the throat, and make sleep possible. It is good. Try it. For sale by Howorth & Co., druggists.

Earl Wright, Hugh Maloney and Will McClintock are off on an extended deer hunt up Smith river, south of Drain, Oregon. This is said to be "darkest Oregon," but a prime place for a good hunt. Earl has a habit of going up there every year, and always has a good time, and finds plenty of game.

Mr. Max Berg, of Warren, Columbia county, tells the St. Helens Mist about the profits of dairy business. His herd consists of but 12 cows, but that number earns him \$50 per month throughout the year. This sum is Mr. Berg's profit. Each cow returns a profit of \$3 per month over and above the cost of maintenance. The skimmed milk from the 12 cows produces \$5 worth of pork each month, besides 12 veals each year at \$5 each. Mr. Berg figures that the butter the family uses is worth \$4 per month, hence this herd earns him at least \$50 per month.

Carl Grissen will start next Tuesday on his long trip to Stuttgart, Germany, to pursue the study of the violin. He made his final public appearance in this city for the present last Sunday evening, when he gave the Baptist audience "Spring's Awakening," by Emanuel Bach, being nicely accompanied by Miss Rose Trumbull of the college faculty. We may confidently expect good reports from Carl, as he is thoroughly wedded to his chosen art, has good temperament, and can practice eight hours a day without tiring. Here's hoping for the most eminent success.

Some enterprising editor has prepared the following market report for his locality and it seems to be a good index to the situation generally: "Young men, unsteady; girls, lively, in demand; coffee considerably mixed; fresh fish, active and slippery; wheat, a grain better than barley; eggs, quiet but will probably open in a few days; whiskey, steadily going down; onions, strong and rising; breadstuffs, heavy; boots and shoes, those on the market 'soled' and steadily going up and down; hats and caps, not so high as last fall, except foolscap, which is stationary; tobacco, very slow, has a downward tendency; money, close, but not close enough to get hold of; feathers, light and going up; iron, very firm; butter, growing stronger; opium, a drug on the market; advice, good but no demand."

Mrs. Ed Wood of upper Willamina has moved to McMinnville. Mr. Wood and the oldest son remain on the ranch. The yield of the one-hundred acre prune orchard of DeHaven & Fanning was 3500 bushels. For this they got \$17.50 a ton, which amounts to \$1837.50. Good for the first crop. The prize for the best decorated horse and rider at McMinnville carnival was won by Miss Maude Heimbree. It was justly awarded for decorations, but when the best riders came in Sheridan had five representatives that should have been noticed. We are going to have a riding contest here and invite the McMinnville ladies up. We will have ditches, ropes and rings to jump, bronchos to ride and all kinds of trick performances. In this line Sheridan girls can't be beat. We consider this achievement more worthy of award than beautiful decorations.—Sheridan Sun.

F. H. Buchanan opened up the West Chehalis school again Monday morning and began the second year of his administration in that district. Although the suit pending in the land office at Oregon City, between Jim Everest and Mrs. Sadie Heacock for the possession of a ranch out in Tillamook county, has not yet been decided, the former left here Saturday to take possession of the contended piece of property for the present at least, fearing that if he waited much longer the roads would be such that he could not get out there this winter. Dolph is the name of his postoffice.

A few weeks ago when Mrs. Disney sold out her hotel business to Mrs. Frank Hanson, a misunderstanding arose as to the amount of property covered in the purchase. Mrs. Disney took away with her some things in the way of dishes, table linen, etc., which Mrs. Hanson claimed were included in the trade, and being unable to come to an understanding, the latter finally had Mrs. Disney arrested on a charge of larceny. A preliminary examination was held in Justice Wright's court, Thursday morning, at which deputy prosecuting attorney R. L. Conner of McMinnville, appeared for the prosecution and Clarence Butt for the defendant. After an adjournment at noon, the case is still being tried as we go to press.—Newberg Graphic.

The trial resulted in the acquittal of the defendant.

## In Jail For Larceny.

William Hendren, a young man about 25 years old, was arrested at The Dalles last Sunday on a warrant from this county charging him with larceny. On Oct. 1st he was in the employ of E. L. Wing, liveryman, of this city. During the evening of that day he was bumming about town until a late hour with a farmer named Wilson of Sherwood. When Wilson suggested that he must hunt himself a room for the night, Hendren invited him to share his room in the Miller residence on B street. The offer was accepted, and Hendren volunteered the statement that he would probably get up earliest in the morning, but that Wilson might sleep as long as he wished. This is how events terminated in the morning, with the addition that Wilson found his pockets short about \$12. The Portland police were placed on track of the criminal, and overhauled him at The Dalles, where he was arrested by night-watchman Like. Sheriff Sitton went to that city on Saturday and secured his prisoner, who now awaits in jail a hearing before Judge Boise's court next week.

## The Same Here.

The Corvallis Times man, in his clear-cut way, compares the present campaign with that of four years ago. He says: "So far, for instance, but two spellbinders have harangued Corvallisites. In the former campaign by this time at least a dozen had from their various standpoints, told the people how to save the country. We have not now, as we had then, the man who argued the thing on the street all day, then went home and argued with his wife till she slipped off to bed in self defense, when he turned his arguments on a big portrait of his wife's father, in front of which he was found at midnight lying on the floor in a fit of exhaustion, but occasionally gasping feebly 'Rah for Kinley.'"

"However, that many feel a lively interest in the outcome is undoubted. There are men on whom partisanship has a hold that only the casket and its wreaths of flowers will unloose. There are others who have figured it out with mathematical precision that their own individual interests are locked up in the policies represented by their candidate, and with these there is an abiding, but apparently a quiet interest, in the result."

"On the whole, the present campaign, that within four weeks of election is far less violent than was the other when the end was months away, is far preferable from every point of view."

We trust that Brother Irvine, who is a Bryantist, will be just as well pleased with the result of the quiet campaign, which means McKinley's election, sure.

## College Notes.

From the October Review.

All sections of the state are represented in McMinnville college this year.

Mr. Fred Boardman, brother of our president, left McMinnville for Boston Sept. 21, where he will avail himself of first-class facilities in the training of his voice.

Mr. L. W. Sawtelle, '98, left for the east early in September, where he will pursue his studies, presumably at Harvard University. He has been for two years principal of the Middle Oregon Academy.

Frank C. Stanard, who is to occupy the basement rooms in the main building, operate the dining hall, and be janitor for the institution, arrived from eastern Oregon on October 1st. His family will follow him at an early day. In addition to his work for the college Mr. Stanard will also become a student in the college.

Mr. A. L. Black, '01, spent the summer vacation in Portland as supply pastor for the Calvary Baptist church. His temporary service in this capacity so endeared him to that people that the church has recently given him a call to become its pastor. This is certainly a very flattering compliment. Mr. Black accepts the call, but will continue his studies in the college until he finishes his course.

## It Happened in a Drug Store.

"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. R. Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it worth the money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend in need of a cough medicine and advised her to buy a bottle of Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy." It is for sale by Howorth & Co., druggists.

**The Bishop is Right.**  
In the Central New York Methodist Episcopal Conference, the committee on temperance presented a report which condemned the army canteen, and urged enforcement of prohibitory measures. Bishop McCabe said that it is not always policy to denounce those high in authority.  
"I believe," he said, "that the president wants to do what is right. He is one of the best, one of the purest and one of the bravest men I ever knew."  
The bishop's remarks provoked great applause, but some of the members took exception. The bishop replied that he was a man before he was a bishop, and will cease to be a bishop before he will cease to be a man. In a political campaign, he said, the president of the United States ought not to be abused.

## "They All Look Alike To Me."

To be sure. You are not a watchmaker. How should you know the difference? That is just why you should buy that watch of a substantial, located, home jeweler—a place where you know of whom you are buying, and the assurance of a business reputation, and guarantee that goes with every sale. Here you take no risk. It isn't like sending off for a watch—we couldn't afford to misrepresent the quality, as our best advertising develops in the watches we have sold from year to year. It is our ideas of store-keeping to make people satisfied; they come again and send others. We think it pays.  
As to prices, it stands to reason that the jewelers of the smaller towns like ourselves, can undersell the city jewelers who are laboring under enormous rentals and varied expenses of city merchandising.
