

Blood Troubles: Cancer, Scrofula, Old Sores, Rheumatism, Contagious Blood Poison, Chronic Ulcers.

As the blood contains all the elements necessary to sustain life, it is important that it be kept free of all impurities, or it becomes a source of disease, poisoning instead of nourishing the body, and loss of health is sure to follow. Some poisons enter the blood from without, through the skin by absorption, or inoculation; others from within, as when waste products accumulate in the system and ferment, allowing disease germs to develop and be taken into the circulation. While all blood troubles have one common origin, each has some peculiarity to distinguish it from the other. Contagious Blood Poison, Scrofula, Cancer, Rheumatism, Eczema and other blood diseases can be distinguished by disease shows sooner or later on the outside and on the weakest part of the body, or in the system and ferment, allowing disease germs to develop and be taken into the circulation. Many mistake the sore or outward sign for the real disease, and attempt a cure by the use of salves, liniments and other external applications. Valuable time is lost and no permanent benefit derived from such treatment.

BLOOD TROUBLES REQUIRE BLOOD REMEDIES; the poison must be completely and permanently eradicated—the blood reinforced, purified and cleansed, or the disease goes deeper and saps the very life. Mercury, potash and arsenic, the treatment usually prescribed in this class of diseases, are violent poisons, even when taken in small doses—never cure, but do much harm by adding another poison to the already overburdened, diseased blood.

S. S. S., Nature's own remedy, made of roots and herbs, attacks the disease in the blood, and forces out all impurities, makes weak, thin blood rich, strong and healthy, and at the same time builds up the general health. S. S. S. is the only purely vegetable blood purifier known, and the only one that can reach deep-seated blood troubles. A record of 50 years of successful cures proves it to be a reliable, unfailing specific for all blood and skin troubles.

Free Medical Treatment.—Our Medical Department is in charge of skilled physicians, who have made blood and skin diseases a life study, so if you have Contagious Blood Poison, Cancer, Scrofula, Rheumatism, Eczema, an Old Sore or Ulcer, write them fully for advice about your case. All correspondence is conducted in strictest confidence. We make no charge for this service. Book on blood and skin diseases free.

It's Easy To Take

Thin, pale, anæmic girls need a fatty food to enrich their blood, give color to their cheeks and restore their health and strength. It is safe to say that they nearly all reject fat with their food.

It is exactly what they require; it not only gives them the important element (cod-liver oil) in a palatable and easily digested form, but also the hypophosphites which are so valuable in nervous disorders that usually accompany anæmia.

SCOTT'S EMULSION is a fatty food that is more easily digested than any other form of fat. A certain amount of flesh is necessary for health. You can get it in this way.

We have known persons to gain a pound a day while taking it.

SOUTHERN CALIFORNIA.

Notable among the pleasures afforded by the Shasta route is the winter trip to southern California and Arizona. Renewed acquaintance with this section will ever develop fresh points of interest and added sources of enjoyment, under its sunny skies, in the variety of its industries, in its prolific vegetation and among its numberless resorts of mountain, shore, valley and plain. The two daily Shasta trains from Portland to California have been recently equipped with the most approved pattern of standard and tourist sleeping cars, but the low rates of fare will still continue in effect. Illustrated guides to the winter resorts of California and Arizona may be had on application to C. H. MARKHAM, G. P. A., Portland, Oregon.

AMITY.

A large number of the friends of Mr. and Mrs. I. L. Martin gave them a surprise party last Thursday night. To say it was a pleasant affair would be very mild, for all present seemed doubly joyous, and all will long remember it as one of the most pleasant times of their lives. The occasion was the 10th anniversary of Mr. and Mrs. Martin's marriage.

The boys behaved very well Halloween night, and nothing in town was disturbed.

The endeavor business meeting and social at Roth's hall last Tuesday night, was another of those pleasant affairs given by that society.

Election passed off quietly, and the result is, some disappointed, the rest happy.

Rev. Douglas of Eugene, who is here carrying on revival meetings at the Baptist church, is a brother of the local preacher of that denomination. He is one of the most agreeable persons that the writer has ever met, and we think that much good will be done during the meetings.

The Christian church people dispensed with services Sunday night last, that all who wished might attend worship at the Baptist church.

Y., says: "Our little son, five years old, has always been subject to croup, and so had have the attacks been that we have feared many times that he would die. We have had the doctor and used many medicines, but Chamberlain's Cough Remedy is now our sole reliance. It seems to dissolve the tough mucus and by giving frequent doses when the croupy symptoms appear we have found that the dreaded croup is cured before it gets settled." There is no danger in giving this remedy, for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by Howorth & Co., druggists.

Next Sunday will be quarterly meeting day at the M. E. church. Preaching in the morning will be by the pastor, and in the evening Dr. Watters of Salem will be here and will preach, and at this time also the communion service will be held. On Monday the business meeting will be held at 8:30 in the morning.

Will Huston, son of Jos. Huston, is still very ill at his home in this city. Drs. Smith and Barber aided by Drs. Goucher and Michaux of McMinnville, will perform some surgical operation, which is the only possible chance of life. It is hoped by his many friends that this may prove successful.
