Tried for Assault.

Prof. L. R. Alderman, vice-principal of the city schools, was arrested last week on complaint of Wm. Arthur, charged with assaulting Orville Arthur, a pupil of his school. The incident occurred on Tuesday of last week. The case was tried in Justice Pugh's court on Saturday afternoon, in the court room. R. L. Conner and J. J. Spencer appeared for the state and O. H. Irvine and W. T. Vinton for the defense. Witnesses for the state were Orville Arthur, Arthur Crewse, Gussie Updegraff, Ethel Law, Letha Henry, John Maloney and W. C. Arthur. Those for the defense were L. R. Alderman, Alice Adams, Marie Irvine, Willie Stout, Ralph Martin, Julia Olds, Earl Wisecarver, Florence Sims and Viola Martin. Examination was on at the school, and the mental arithmetics had been collected and placed on the teacher's desk. But there were four books lacking, to which the teacher called attention. Orville promptly replied, "Here is my book, professor." The professor replied that he knew it was there, and had seen him use it in examination. The boy replied, "Do you mean to say that I cheated. If so, that's a lie." The professor walked back and proceeded to punish the pupil, and after difficulty succeeded in removing him from the seat, and after this was accomplished bumped his head upon the floor, causing some abrasions of the skin. The witnesses were substantially agreed in their testimony excepting the manner of the teacher's taking hold of the pupil, some claiming that he choked him, and others that he took hold of his coat collar. The jury was composed of E. L. Wing, J. B. Gardner, H. A. Palmer, M. B. Hendrick, J. W. Gault and Marion Rowland. They were in deliberation about an hour, when they brought in a verdict of "not guilty."

Indications of a Mild Winter.

The Reporter office has two convicting evidences of the balminess of the season. On Monday W. D. McDonald brought in a remarkable specimen for the time of year—a snowball in bloom surrounded by foliage of the beautiful red autumn tints. It had bloomed in his front yard. The same day Mrs. Elizabeth Wilcox of Lafayette brought a number of stems from the red raspberry containing fully ripened fruit. It has been predicted all along that signs pointed to a hard winter, but the theory is not borne out by the above facts.

Neither is the force of workmen at Jones' mill expecting a severe season. It is their intention to run the mill all winter, being enabled to have the logs by constructing an additional dam, and Mr. Jones states that all signs of severe weather presaged by mountain surroundings rather indicate an open winter.
