Dr. Lowe's White Pine Cough Syrup with Tar.

It cures promptly and thoroughly, because it cures in the right manner: Relieves irritation, heals inflamed surfaces, loosens the cough and soothes and strengthens while it cures. A splendid remedy for children because it is so good to cure and so good to take. Price 25 and 50c.

The vacancy in the Indian War Veteran committee caused by the resignation of Col. Summers, was filled by the appointment by Gov. Geer of L. S. Woods of Weston, Umatilla county.

THIS DESCRIBES IT.

If you're sore
To the core,
With aching bones,
And lumpy tones,
When you speak,
And you're weak
In the knees,
And you sneeze,
And often cough,
Your head near off,
And you note
That your throat
Feels quite raw,
And your jaw
Feels as if
You'd got a blif,
And dull pains
Vex your brains,
Then you've caught it,
You have got it—
It's the grip.

If you feel
The heat steal
O'er your frame
Like a flame,
Till you burn
And you yearn
For chunks of ice
At any price,
Then like a flash
The shivers dash
From head to feet.
A chill complete,
And you shake,
And you quake,
And there's desire
For a fire,
And something hot
Right on the spot.
To quickly drink,
And you think
Right there and then
You'll never be warm again,
Then you've caught it,
You have got it—
It's the grip.

It's in the air,
It's everywhere;
The microbe of the grip
Is on another trip,
And up and down,
Through all the town,
By night and day
It seeks its prey,
And it's the fact,
If you are sad,
Or even mad,
Or if you sneeze,
Or cough or wheeze,
Or feel too warm,
Or chill alarm,
To wear a look of grim dismay
And hoarsely say:
"I've caught it,
I've got it—
It's the grip!"

The Seventh Yamhill Boy.

Another Yamhill county boy has fallen in the Philippine service, to be added to the six who were previously numbered with the dead. Edwin Earle Hamilton, son of Mr. and Mrs. J. K. Hamilton of Amity, was killed in an engagement at Sebank, Leyte, on December 14th. He was 28 years old. He left his home in Amity in August, 1899, and in the following month enlisted in the 43d infantry. His last letters were written on December 6, from Tanna, Leyte, telling his mother they were to start on a march at 4:30, and for her not to expect to hear again for 20 or 30 days, but that, as his time of service was so nearly out, he would be home to spend the Fourth of July. On January 31 his mother, who had never missed a careful perusal of the Oregonian's columns for news of her son's regiment, was stricken with grief to read his name among the killed. The body will be brought home for interment at some future time.

Steps the Cough and Works Off the Cold.
Laxative Bro-mo-Quinine Tablets cure a cold in one day. No cure, no pay. Price 25 cents.

SALT LAKE CITY.

An Important Factor in Transcontinental Travel.

No one crossing the continent can afford to cut Salt Lake City from his route. The attractions of the place, including the Mormon Temple, Tabernacle and Church institutions, the Great Salt Lake—deader and denser than the Dead Sea in the Holy Land—the picturesque environment and the Warm Sulphur and Hot Springs, are greater to the square yard than any locality on the American continent.

The Rio Grande Western Railway, connecting on the east with the Denver & Rio Grande and Colorado Midland Railways and on the west with the Southern Pacific (Central Route) and Oregon Short Line, is the only transcontinental line passing directly through Salt Lake City. The route through Salt Lake City via the Rio Grande Western Railway is famous all the year round. On account of the equable climate of Utah and Colorado it is just as popular in winter as in summer. Send 2c to J. D. Mansfield, 253 Washington, Portland, or Geo. W. Heintz, General Passenger Agent, Salt Lake City, for a copy of "Salt Lake City—the City of the Saints."

The Most Feasible Route.

In talking of a railroad route from Portland to Tillamook the capitalists of Portland seem to overlook the cheapest and most feasible route, which is without doubt from Sheridan by way of Grand Ronde pass. It is the best route for two or three reasons. It would get the trade of the coast from a much larger territory—all the way from Nehalem to Dolph, tapping the fertile valleys of the Nehalem, Willam, Trask, Tillamook, the two Nestuccas and Three Rivers, and coming within easy reach of the Salmon river valley. This practically covers the whole of Tillamook county and half of Yamhill. It would mean the construction of only about 75 miles of road, over a route which is practically never blocked by snow. At the crossing of each of the aforementioned rivers would be established large saw mills, to which could be floated in the winter season an untold wealth of timber. The proximity to fishing industries would also be no small item in the commerce of this section, and everybody knows the dairy and agricultural products would be large. It is the route of all routes projected, requiring the least outlay and bringing the largest returns. Eight or ten years ago a preliminary survey of this line was made and was found to be very feasible. It is the only gateway of nature for a railroad into Tillamook county, and the time is coming when a railroad will occupy it.

His parents have the sympathy of the whole community.
