ONLY FOUR BIDDERS.

Contracts Will Go to Newport News, Bath Works and Neafie & Levy.

Washington, Feb. 4.—Bids for the construction of three protected cruisers were opened at the navy department today.

The attendance of bidders was neither as large nor as representative as in the case of the last opening. It is doubtful if the Cramps or the Union Iron Works have been unrepresented before in any bidding since the birth of the "new navy." One of the Moran Bros., of Seattle, was the solitary representative of the Pacific coast interests, but did not bid. There were only four bids in all.

The first bid opened was that of the Newport News Shipbuilding Company. They offered to build a 5,700 ton cruiser with a speed of 22 knots in 36 months for \$2,741,000. The Bath Iron Works offered to build a cruiser of the same proportions for \$2,750,000. The William K. Trig Company, of Richmond, offered to build one cruiser for \$2,780,200, being the limit of cost fixed by congress, or two cruisers for \$5,480,000. The last bid was the lowest, and was submitted by the Neafie & Levy Shipbuilding Company, of Philadelphia. It offered to build a cruiser on the department's plan in 36 months for \$2,740,000.

These cruisers are designed to be the most formidable vessels in the world of their class. They will resemble closely the type of second-class armored cruisers and might be easily mistaken for such. The act of congress authorizing this class of cruisers states that the vessels should carry "the most powerful ordnance for vessels of their type, and have the highest speed compatible with good cruising qualities and great radius of action." Admiral Hichborn, chief constructor of the navy, who has been foremost in the preparation of plans for the building of the "new navy," says that in an engagement the new cruisers would be able to cope with and prove more than a match for some of the armored cruisers of foreign navies.

The new vessels are to be named the St. Louis, the Milwaukee and the Charleston, the last to continue the name of the ship wrecked November 2, 1899, in the Philippines.

THE NEW YORK FIRE.

Caused by an Explosion of Chemicals in the Wicks Factory.

New York, Feb. 4.—The extent of the destruction wrought by the conflagration which destroyed nearly a whole block of buildings at Thirty-first street and First avenue last night could be better appreciated this morning. The huge factory of the William Wicks Company was almost level with the ground. Contractor Joseph Cody, of the building department, with a force of 100 men, had labored at the ruins all night pulling down dangerous sections of the walls.

Other property destroyed was the six-story building, numbers 404, 406 and 408 East Thirty-second street; the five-story tenement at 546 and 548 First avenue; the five-story tenement at 462 East Thirty-first street; Jackson's iron foundry and a two-story brick building on Thirty-first street, occupied by the Swift Dressed Beef Company. About 70 families were rendered homeless by the burning of the tenements.

Fire Chief Croker said today he believed the fire was caused by an explosion of chemicals in the Wicks factory. He was informed that a watchman had gone into the vault in the cellar with a light and that the vault contained the explosives. The chief added that he did not know what had become of the watchman or who he is. He said the explosion that started the conflagration might have been caused by illuminating gas getting into the cellar from the gas main, but he did not think this was the case.

Policemen Thomas J. Fitzpatrick and John B. McMullin, who were on duty at the fire, are reported missing today.

BATTLE IN ABYSSINIA.

It is Supposed the Chiefs Rebelled During the Absence of Menelik.

Paris, Feb. 4.—A dispatch to the Francis from Cairo says news has been received there from Abyssinia of a great battle in which 7,000 were killed. It is supposed the chiefs rebelled during the absence of King Menelik, who has gone to the Egyptian frontier in connection with the delimitation of the Egypto-Abyssinia frontier.

London, Feb. 4.—A dispatch to the Exchange Telegraph Company from Cairo says severe fighting is reported in Abyssinia. The casualties are said to number 7,000.

The foreign office officials know nothing of any difficulty in King Menelik's territory, but it is not unlikely they think that certain malcontent chiefs may have taken advantage of King Menelik's absence from the capital to foment an insurrection.

Public discussion of the provincial government bill has been completed. The bill will be passed Wednesday, and soon afterward the commissioners will begin their tour of organizing provincial governments in those provinces of Southern Luzon which General MacArthur and the commissioners consider sufficiently pacified. Commissioners Wright and Ide, who are drafting criminal and civil codes, may remain in Manila temporarily, to complete their work by February 23, when the commissioners and practically all the employes will leave for the southern islands, where they will examine the conditions and continue the organization of governments in provinces which are found to be prepared for self-government. The commissioners expect to spend four weeks on their southern tour.

Fewer than 400 persons attended the meeting called by Senor Buencamino at the Rial theater, in the Tondo ward of Manila, to inaugurate the evangelical movement. Considerable interest was manifested in the proceedings, and there was some expressions of approval of the addresses. No attempt, however, was made to commit the meeting to Protestantism, that aspect of the case being left for subsequent action at his discretion by Rev. James B. Rogers, a missionary of the Presbyterian board, who was present. Senor Buencamino explained the religious efforts as wholly outside the Federal party, which had been organized solely to promote political police.

MONEY FOR THE ARMY.

Appropriation Bill Carries One Hundred and Eighteen Million.

Washington, Feb. 6.—The army appropriation bill, making provision for the army, under the reorganization recently enacted as completed by the house committee on military affairs and reported by Chairman Hull. It carries approximately \$118,000,000, as against estimates of about \$130,000,000 made by war department officials. The total of army appropriations, general and deficiency, for last year aggregated \$118,000,000. Chairman Hull says the present bill will be ample, and will not entail a deficiency measure later. The contingency appropriation of \$1,000,000 to "meet emergencies constantly arising," was stricken out by the committee. The main items as allowed are: Pay of officers, \$5,000,000; pay of enlisted men, \$14,000,000; pay of retired officers, \$1,500,000; nurse corps, \$130,000. The total for subsistence approximates \$13,000,000, of which amount \$12,000,000 is for regular rations and \$600,000 for sick and convalescent rations.

The aggregate for the quartermaster's department is the largest in the bill, reaching \$57,150,000. The chief items are: Quartermaster's supplies, \$9,000,000; incidental supplies, \$2,400,000; horses for cavalry and artillery, \$750,000; barracks and quarters, \$3,000,000; transportation of army and supplies, \$34,000,000; clothing, etc., \$8,000,000.
