England's Action on the Nicaragua Canal Project.

ALMOST EQUAL TO A FLAT REFUSAL

A Counter Proposal, Likely to Cause Extended Negotiations, Will Soon Be Presented Through Lord Pauncefote.

London, Feb. 11.-It has been learned that a reply will shortly be sent to the United States Nicaragua canal project. It will not comply with the senate's demands, neither will it be in the nature of a flat refusal, though for purposes of immediate construction it will be tantamount to such a refusal. It will consist mainly in a counter proposal or proposals. likely to necessitate extended negotiations. The nature of the proposal is not yet ascertainable. Lord Pauncefote will likely be the medium through which the answer will be sent and by whom the subsequent negotiations will be conducted. In British official opinion, it is likely that several months will elapse before the matter reaches a conclusion, by which time the Hay-Pauncefote treaty will have elapsed. on the basis of the senate's amendments. The British counter proposals are now formulating, and it is hoped an entirely new agreement, satisfactory to both countries, will eventually be reached.

Commented on in Washington.

Washington, Feb. 11 .- So far as can be ascertained, the admlinistration has not had any intimation of the counter proposals the London dispatch says will be made in the matter of the Nicaragua canal project. There is a feeling of regret that the British government has felt constrained to adopt such a course, as the hope was entertained that the amendments to the Hay-Pauncefote treaty might have been accepted in the spirit in which they were made.

Senator Morgan when informed tonight of the new stand taken by Great about two blocks, and then loaded it Britain, said he believed that if Great Britain has decided to take the action stated, it would create resentment in the senate and among the people and distrust of the moves of that government.
