ELSEWHERE IN OREGON.

The Turner postoffice was robbed of \$900 last Monday at noon. No clew.

Ashland is to have a sanatorium open the year round. Here is an enterprise that ought to pay with little outlay of money.

The Clackamas county circuit court docket this week has 59 divorce cases. A large number are from Multnomah county.

Hillsboro will hold a county street fair and festival on May 18th. The early date constitutes it somewhat of an innovation.

The late legislative session cost \$22,000 for the hire of 133 clerks for 40 days. O' greed, what extravagance is perpetrated in thy name!

Anton Pfanner, who four years ago fell at Forest Grove for \$40,000 and mysteriously disappeared, has been recognized by an acquaintance in Switzerland.

The indictment against Hertzka, the Christian science healer charged with practicing medicine without a license in Clackamas county, was dismissed on motion of the prosecuting attorney.

Baker City high school held an oratorical contest for a gold medal, which was won by Miss Belle Kellogg. Her subject was "The Pantry." Not the "portable pantry" or its agents, but concerning the art of cooking. This subject may sound commonplace to a good many, but if more young ladies would write on practical questions both they and the world would be made better.

The Tillamook Paraffine Oil Company is a new incorporation. It will explore for oil and minerals, operate pipe lines, and railroad and telegraph lines, boats and barges throughout the state, and do a general development business. Portland is the headquarters, and the capital stock of \$1,000,000 is divided into shares valued at \$1 each. P. W. Francis, J. A. Taylor and E. S. McCoy are the incorporators.

Eastern Multnomah county is all agog over some high-grade long-distance shooting by Mr. Davis, who works on the Menzies farm, near Troutdale. Davis caught a female coyote attacking a band of Mr. Menzies' sheep and put a rifle shot through the "critter" at a distance of 1200 feet. He pumped lead until his magazine gave out, firing eight shots in all, every one of which hit the mark.

The oil excitement is on at Roseburg, and a new company known as the Umpqua Valley Oil Company is now ready for business. The company has bonded some 12,000 acres of land which is distributed all over Douglas county. On almost every acre it is said there are indications of oil. In many places the oil oozes from the earth in considerable quantities, and would pass for a fair quality of lubricating oil just as it is. On one piece of the land bonded was an old mining claim in which the oil was present in such quantities as to interfere with the working of the property. These are but a few instances of the indications of an abundant supply of oil of first quality. A systematic and thorough search for coal will not be neglected while boring for oil.

The bonding of land for oil prospecting in Polk county is made on a contract providing that the one-tenth part of all the petroleum obtained is to be set apart in the pipe lines running said petroleum to credit and benefit of party of the first part. The said party of the first part is to fully use and enjoy said premises for the purpose of tillage, except such part as shall be necessary for said mining purposes and a right of way over and across said premises to the place or places of mining or operating. The said party of the second part further to have the privilege of using sufficient gas or oil and water from the premises herein leased to run the necessary engines, the right to remove any machinery, fixtures and buildings placed on said premises by said party of the second part or those acting under him, or them, and is not to put down any well for oil on the lands hereby leased within ten rods of the buildings now on said premises without the consent of the party of the first part. It is agreed that if gas is found in paying quantities the consideration in full to the party of the first part for gas shall be a stipulated money consideration.

The old proverb that "Merit never goes unrewarded," was fully exemplified in the school meeting last evening, when a subscription of forty dollars was raised by the patrons of the Carlton school for the purpose of securing Miss Smith to complete the spring term of school. Miss Ida has been teaching in Carlton for the past three years, during which time we do not recall a single complaint of her work. The people can consider themselves fortunate inasmuch as the school continues with Miss Smith in charge.

Planning a Rhododendron Excursion.

The beautiful weather we are now having is productive of spring fever, and our people, watching the swelling buds, many of which have burst into blossoms and leaves, are asking when the most beautiful of Oregon's wild flowers, the rhododendron, will bloom again. To get this information we were obliged to call at the Corvallis & Eastern railroad office. Rhododendrons attain perfection at Newport and Nye Creek between the 10th and 20th of May, depending on the weather. Usually the C. & E. runs a Sunday excursion which inaugurates the seaside season at the coast. Mr. Stone, manager of the C. & E., informs us that one-day excursions to the bay will be generally discontinued this year, but that on Saturday, May 11th, or a week later, May 18th, owing to the advancement of the flowers, the company will make a low rate, good for Saturday, Sunday and Monday. This will give passengers all of Sunday on the beach or gathering all they can carry of Nature's most beautiful flowers, which nowhere flourish as at Yaquina bay.

The blood is constantly being purified by the lungs, liver and kidneys. Keep these organs in a healthy condition, and the bowels regular, and you will have no need of a blood purifier.
