FRIDAY, MAY 17, 1901.

Not many years ago it was claimed that the gold standard would make the United States the slave of England. The recent loans of American money to England are a striking refutation of that Populist notion.

The large number of rebel generals surrendering in the Philippines suggests that Aguinaldo's forces were over-officered. There appears to be more native generals in the Philippines than there are colonels in Kentucky.

A democratic paper says that McKinley's speeches are better than in the days when he talked on protection in congress. But McKinley's speeches as a congressman had the effect he desired. The success of the present tariff is a sufficient monument to the early addresses.

All announcements of recent federal appointments have wound up with these words: "On recommendation of Senator John H. Mitchell." Have Simon, Tongue and Moody been completely forgotten in the distribution of political pie?

Gov. Geer has fixed the place for the encampment of the fourth regiment at Eugene and for the first separate battalion at La Grande. These places were selected because of their central location. Eugene has two companies of the fourth, with three to the north and two to the south. La Grande has one company with a company on each side of it. It is probable that the encampment will be held on the McKenzie or Mohawk where there are more favorable and better facilities.

The Illinois association, opposed to the extension of suffrage to women, issued its semi-annual report. The report states that there is a growing conviction that the best work of women lies along the lines of moral influence and unselfish endeavor, and that if women would teach their children, "in a broad liberal way, the great principles of temperance and chastity, they would do more in a generation toward eradicating the evils of intemperance and impurity than they could do by a century of voting." Woman suffrage is characterized by a retrograde movement, tending to that "absolute individualism which characterizes only the lowest form of social life."

When President Harrison made a tour of the southern states on his way to the Pacific coast it was regarded as one of the most memorable incidents in the history of the executive office. It was the first time that the temper of most of the southern people toward the head of the reorganized union had been put to a test by the president in person since the close of the war. At every point where the presidential train stopped Harrison was greeted with enthusiasm. Hayes was the only president who had previously visited this coast, but he came and went by the northern routes and passed only through northern states. Now President McKinley is repeating Harrison's experience, but the ovation which he has received from the southern people has been marked by a much higher degree of enthusiasm than that which his predecessor met with. Everywhere in the southern states where the presidential party stopped the most fervent loyalty and respect were evinced toward the distinguished visitor. There is no section of the country that could have given him a more cordial greeting or a more hearty welcome than these communities have done. It is in itself an object lesson that every particle of sectionalism has been absorbed by the patriotism of the new south and the reconstructed union. This is a delightful prelude to the reception which awaits the chief executive when he enters this state where the most elaborate preparations of an equally loyal people have been made to greet and entertain him.

A Philadelphia judge is reported as having a most exalted idea of the importance of his court, for he fined a physician for contempt because, being a witness, he had kept the court waiting half an hour, while at the bedside of a patient so ill that he could not safely be left. Said the judge: "It is better that a patient should die than that the court should be treated with contempt."

The superior quickness of American workmen was strikingly illustrated not long ago, when a number of them were sent to Europe with a shipment of American locomotives. With previous consignments only a foreman and his assistant had been sent, and local labor was relied upon for all the work save superintendence; but the foreign workmen were so leisurely in their habits that it took them twice as long as the same force of Americans required for the task. Hence it was cheaper to send all the men necessary to set up the locomotives.

If Aguinaldo visits this country, as he probably will some time, there is danger of him being lionized. We are in favor of dealing mercifully and justly with this man, but let it not be forgotten that at the best he is a traitor and was the means of sending many a brave American boy to an untimely grave. Oregon sacrificed her quota of brave soldiers on the altar of liberty that the star of the Philippines should not sink to the level of an arrogant dictatorship by a rebel chieftain of Aguinaldo's caliber. Treat him fairly, continue to deal in justice as we have, but with Aguinaldo's name let it ever be associated that he was an enemy to our country and that he murdered and tortured our brave boys.—Independence Enterprise.

Ex-Senator Butler of North Carolina has abandoned populism and announced himself squarely as a supporter of the policies of the republican administration, including territorial expansion and protection. In so doing Butler is showing superior sense to the man whom he supported blindly through two presidential campaigns, and who is still kicking against everything conducive to the country's prosperity.

Speaking of the difference between the dairymen of Tillamook county and the wheat raisers of other portions of Oregon, the Headlight gives the odds to the dairymen, thus: "The dairymen get a pay day the first of every month while the wheat raiser get but one pay day in twelve months. Another thing where the Tillamook dairymen is seen to advantage, he receives about 25 cents per pound for his butter fat, while the wheat raiser has often to sell his crop for 40 cents a bushel. It is no wonder, then, that Tillamook is prosperous, with no chronic kickers and calamity howlers whittling wood on street corners."

Demand for Normal Graduates.
The state normal school at Mouthout reports that the demand for its graduates during the past year has been much beyond the supply. Graduation from the school practically assures a place worth from \$40 to \$75 per month. The students take the state examinations during the regular course, and are easily able to pass on all subjects required for state papers before graduation. The school has a well equipped training department consisting of a nine-grade town school and of a typical country school.

Notice to the Public.
I have engaged J. A. Frisbie as local manager of my lumber yard located at the old foundry site, McMinnville. He will be pleased to figure with you on all house bills or smaller orders.

President McKinley is not coming to Oregon. Mrs. McKinley's health is critical, and the president and party will not resume their journey to the Northwest and leave her in California. The fact that Oregon will not be honored by a visit from this distinguished personage is to be deplored, but our disappointment will be veiled by a prayer for the restoration to health of the estimable lady who has overtaxed her strength in order to appear gracious to the interested crowds of spectators who have met the party at every stopping place on their journey. "Played Out"

Is one of the curious expressions used for worked out. Many a woman drops into a chair, in utter weariness "all played out," and wonders why she feels so weak. She has not yet realized that the general health is so intimately related to the local health of the womanly organism, that weakness must follow womanly diseases.

Restoration of the general health invariably follows the use of Dr. Pierce's Favorite Prescription. It regulates the periods, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It tranquilizes the nerves, encourages the appetite and induces refreshing sleep.

There is no substitute for "Favorite Prescription," for there is nothing "just as good" for womanly ills.

I wish to advise the suffering women of this great land, of the good I have received from Dr. Pierce's Favorite Prescription and "Golden Medical Discovery," writes Mrs. Mary Shappell of Columbus Grove, Putnam Co., Ohio. "For four years I had been a sufferer from female troubles, and at times was unable to do even the housework for three in the family. I had such pains that I suffered almost death dozens of times, but after taking five bottles of your medicines I can truthfully say that my health was greatly improved. I have a good appetite and am gaining in flesh right along. This spring is the first time in five years that I have done my house cleaning all by myself and without the least fatigue whatever. I hope all suffering women may find relief as I have done."

My gain in weight has been just ten pounds, and I am still gaining." Dr. Pierce's Common Sense Medical Adviser, 1008 large pages, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only, or for cloth-bound book, send 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

GOPHER.

Our valley is at its best now. The grass and grain are growing splendidly, and all bids fair for an excellent harvest this season.

Several of our citizens have taken their cattle to the mountains. They believe in saving their pastures, also the grass on the roads.

Miss Gardner, of the Beaver Dam school, intends to close her school with a picnic at the Gopher grove. Her school closes in June.

Misses Frankie and Jessie Taylor, who have been in McMinnville for some time, came home last week, preparatory to leaving for Eastern Oregon with their parents.

Frank Fletch passed through the valley with a bunch of mutton sheep. While here he increased his band by purchasing about sixty-five mutton lambs of E. H. Taylor.

Divine Services.

On Sunday next, May 19th, high mass and sermon will be at 8 o'clock a. m. at St. James church, McMinnville; at St. Patrick's church at 11 a. m. The usual afternoon services will be held at McMinnville at 4 o'clock. The subject of Father Hickey's afternoon lecture will be the world-renowned Lupercalian games of old Rome, the revelries of the proud Romans and the origin and significance of our May festivities. This is an exceedingly interesting theme and must be largely attended. There is no admission charge to any of these Sunday afternoon lectures, which are said to be religious, classical and instructive.

ASCENSION DAY.

Services will be marked by rosary, benediction and sermon, at 7:30 o'clock. Father Hickey is a most earnest and courteous clergyman, who deserves the warmest support of all good christians.

Scrofula

THE OFFSPRING OF HEREDITARY BLOOD TAIN.

Scrofula is but a modified form of Blood Poison and Consumption. The parent who is tainted by either will see in the child the same disease manifesting itself in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores and abscesses and of tentacles white swelling—sure signs of Scrofula. There may be no external signs for a long time, for the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system.

J. M. Seals, 115 Public Square, Nashville, Tenn., says: "Ten years ago my daughter fell and cut her forehead. From this wound the glands on the side of her face became swollen and burst. Some of the best doctors here and elsewhere attended her without any benefit. We decided to try S. S. S. and a few bottles cured her entirely."

S. S. S. makes new and pure blood to nourish and strengthen the body, and is a positive and safe cure for Scrofula.

It overcomes all forms of blood poison, whether inherited or acquired, and no remedy so thoroughly and effectively cleanses the blood. If you have any blood trouble, or your child has inherited some blood taint, take S. S. S. and get the blood in good condition and prevent the disease doing further damage.

Send for our free book and write our physicians about your case. We make no charge whatever for medical advice. THE SWIFT SPECIFIC CO., ATLANTA, GA.
