

Loss of Appetite

Is Loss of Vitality, Vigor, Tone.

That stands to reason. It is common in the Spring, when the blood, which needs cleansing, fails to give the organs the stimulus necessary for the proper performance of their functions.

Hood's Sarsaparilla

cleanses the blood, restores appetite, gives vitality, vigor, tone—this is one of the reasons why it's called the Greatest Spring Medicine.

Take it.

"I have taken Hood's Sarsaparilla and it has created a good appetite and cleansed my blood." ADOLPH RHODE, Plattsmouth, Neb.

"My little brother had no appetite. He has taken Hood's Sarsaparilla and now gets hungry like any other boy." MAUD KILGORE, Alden, Kan.

Hood's Sarsaparilla promises to cure and keeps the promise.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

An Old Friend

the front, and is now known in every city, town and hamlet in the country. Its staunchest friends are those who have known it longest and have witnessed its wonderful curative powers in their own families or among their friends and acquaintances. Grateful patients in all parts of the country tell of their restoration to health and happiness, and the testimony of these is the highest evidence of the medicine's worth. S. S. S. is more popular today than ever in its history—no other remedy stands so high, has ever given such perfect satisfaction or is so reliable in the cure of Cancer, Rheumatism, Catarrh, Contagious Blood Poison, Scrofula, Eczema, Psoriasis, Salt Rheum, Acne, or any disease that originates in the blood. Being strictly a vegetable preparation, you will find it agrees with you much better than a drug store concoction or any of the widely advertised potash and mercury remedies, which affect the bones, muscles and stomach, causing Rheumatism or Dyspepsia. If you have never tried S. S. S., you will be surprised at the immediate good effects, the appetite increases; you grow stronger, and gradually but surely it drives out the poisons and restores the blood to a healthy condition. If there is a sore or ulcer on the body, it begins to heal around the edges, the discharge finally ceases and the place gets well; muscular and bone pains vanish, and the skin is relieved of all itching, irritating eruptions. Nervous, run down and anemic people will find S. S. S. just the medicine they need, for blood poverty and ill nourished nerves are responsible for their condition. For old people and children S. S. S. has no equal; being free from all minerals, it does not nauseate or have any injurious effect whatever, and keeps the blood in good condition, thus fortifying against disease. Experience teaches what is good and what is not good; this applies particularly to medicine, and S. S. S., a remedy that has retained the confidence of the people for nearly 50 years, must have merit—it cures, is the secret of its success. When you call for S. S. S., don't be persuaded to accept something else—there is no substitute for S. S. S. It is the only guaranteed purely vegetable blood purifier, and the safest and best for all blood and skin troubles. Do not let them force an inferior mineral remedy on you because there is a larger profit in it. If you have any blood or skin disease, don't hesitate to write us about it; our physicians will carefully consider your case and advise you without charge. Book on Blood and Skin Diseases free.

MODERNIZING LONDON.

American Railway King Reorganizing Its Transit System.

It remained for an American, Charles T. Yerkes, to undertake the reorganization of the transit system of London. The railway king, who achieved fame and fortune here, is now engaged in overhauling the London service and when his work is done the great metropolis will be in line with progressive American cities.

Writing of Mr. Yerkes, Black and White says: "Mr. Yerkes is a splendid example of what can be accomplished with the keen progressive spirit which permeates America. But Mr. Yerkes has not the romance of having emerged from the dregs of poverty. He first opened his eyes to this busy world in the city of Philadelphia, whether his ancestors of Quaker faith had accom-

panied William Penn. His father was a bank president of that city, and well-to-do; but the son was early taught the Quaker principles of judicious economy and advantageous buying and selling, and he remains faithful to them to the present day. In 1861 Mr. Yerkes bought his first street railway stock in Philadelphia, at the rate of less than a pound a share. Little was it surmised that a future tramcar king laid his corner-stone on that day. Mr. Yerkes had found his Pegasus, and the effect of his intellect and foresight was immediately felt, for before long the stock was worth full £20 per share. His successive good fortune was phenomenal, though not so phenomenal as to be without interruption. Nothing, however, could daunt his clear-minded determination, and when the serious crisis came he surmounted it with comparative ease, and marched ahead more rapidly than ever. In 1881 he decided to look into the far West. He had accidentally heard of a great boom which was expected to sweep over North Dakota. His tramcar dreams were waiting to be realized at the proper moment, and, laying his plans aside, he journeyed to North Dakota at once, where he invested heavily and made a fortune. Then he returned to Chicago.

In Chicago Mr. Yerkes and his friends purchased the North Chicago City Railway property and changed the system from horse power to electricity, at the same time extending the lines. The West Chicago Railway was treated similarly and Mr. Yerkes afterward disposed of his stock at a handsome profit.

Save Life at Sea.

Capt. Bolt, a master mariner of Newcastle, England, has invented a new form of deckhouse, or life-saving cabin, which, in case of sudden foundering from collisions or wreckage, will, with the turn of a wheel, float off the doom-

ed vessel in its entirety and ride the water like any other ship.

In the cabin are berths and seats and storage places, where water and provisions are always kept. The only thing that remains to be done when the ship strikes a rock is to collect all the passengers and crew within the deckhouse.

Renting of State Robes.

Every rohemaker in London always keeps some of the most expensive robes of state—those of a registrar, for instance—ready, and lends them out when officials have to use them at any great ceremony. Many a peer, when his portrait is to be added to the family picture gallery, has obtained the crimson and ermine from his tailor for a small consideration.

New York-Philadelphia Trolley Line.

Plans are about completed to close up the gaps between New York and Philadelphia and complete a trolley line between the two big cities. ALUM IN FOOD.

How Can the Danger Be Avoided?

The reported cases of poisoning from the use of alum baking powder have awakened the public to the serious danger which menaces the health of the people of the country in the numerous alum powders which are urged upon consumers.

Generally, alum powders may be known from the price at which they are sold, or from the fact that they are accompanied by a gift, or are disposed of under some scheme. The alum powder costs but a few cents per pound to make, and is often sold at 20 or 25 cents a pound; and sometimes as low as 10 cents.

It is impossible to name all the alum powders in the market, but any baking powder sold at a low price, or advertised as costing much less than the well known, high class powders, or accompanied by a present, or disposed of under any scheme, is of this class, detrimental to health and to be avoided.

These facts should incline consumers to turn a deaf ear to all importunities to buy the inferior powders. The wise housekeeper will decline in all cases to take them.
