Beware of a Cough.

A cough is not a disease but a symptom. Consumption and bronchitis, which are the most dangerous and fatal diseases, have for their first indication a persistent cough, and if properly treated as soon as this cough appears are easily cured. Chamberlain's cough remedy has proven wonderfully successful, and gained its wide reputation and extensive sale by its success in curing the diseases which cause coughing. If it is not beneficial it will not cost you a cent. For sale by Howorth & Co.

A British Columbia dog jumped from a cliff 200 feet high to the aid of a drowning man, saved him and then died of injuries received in the terrible fall. It is to be hoped the rescued man was a little above the average or his neighbors may be hinting to him that they would rather have the dog.

Most alarming reports come from the growing wheat fields of Washington county, says the Hillsboro Independent. One careful observer finds that on the north plain three straws out of five are tenanted by the Hessian fly in the larva state. It is feared that there will be no wheat harvested in the districts effected.

District Attorney Chamberlain of Portland holds that a sheriff cannot collect expenses incurred in making arrests where no process was in his hands. For instance, should he see a murder committed and without having time to secure a warrant of arrest follow the murderer to New York and arrest him, the county would not pay one cent of the expenses incurred. A peculiar law.

Next time President McKinley and party should visit Oregon first, last and all the time to be assured of good health.

The state treasurer has remitted to the county clerk in full for two-thirds of the scalp bounty warrants issued under the new law. During March and April warrants were issued by the clerk in the sum of \$46, and the state reimburses the county \$30.66 of this sum. We are stuck for \$31,961.71 this year, for which we must thank a gay legislature which was too liberal in appropriating money raised by taxation. Of this sum \$4,770.11 is to pay for the state bounty on wild animals, sea lions, etc.

"It is with a good deal of pleasure and satisfaction that I recommend Chamberlain's colic, cholera and diarrhoea remedy," says Druggist A. W. Sawtelle, of Hartford, Conn. "A lady customer, seeing the remedy exposed for sale on my show case, said to me: 'I really believe that medicine saved my life the past summer while at the shore,' and she became so enthusiastic over its merits that I at once made up my mind to recommend it in the future. Recently a gentleman came into my store so overcome with colic pains that he sank at once to the floor. I gave him a dose of this remedy which helped him. I repeated the dose and in fifteen minutes he left my store smilingly informing me that he felt as well as ever." Sold by Howorth & Co.

The Tillamook and Nehalem region is going to be a great country in a short time. The Southern Pacific people are going to build a railroad in from Sheridan, the Northern Pacific is about to build one from Seapooose, and Portland influences are at work to have an independent line. All this will result in development of the lumber and coal interests of the Nehalem valleys and the oil fields of the Tillamook coast region, and will make that part of Oregon's coast line the richest and most industrious section of the Pacific country. Nature has placed its treasures there in rich abundance and the building of competing railroads into it will do the rest rapidly.

The usual summer force of forest rangers to protect the forest reserves of Oregon and Washington will be taken on the payroll about June 1st, as in seasons past, and will be retained through the dry summer months. The force this year will be about the same size as that which was employed last summer, and in making the appointments due preference will be given to those who were employed as rangers during past seasons, provided their service was satisfactory. There will be from forty-five to fifty rangers in both Oregon and Washington. Inasmuch as this force was competent to properly guard the forest against fires and depredations a year ago, there is now no apparent necessity for making any increase in numbers.

Truss

Satisfaction.

The important thing in buying a truss is that it shall fit. If it does not fit it is worse than none—it works harm. A low priced truss that suits the case is worth a dozen costly ones that do not. The truss bought of a dealer who knows how to fit you is a bargain, no matter what it costs.

We have a large line of trusses and we know how to fit them. Our skill in fitting costs you nothing extra. We have never heard of our prices being beaten.
