See How Thin It Is?

The new model Watch Movement measures but little more in thickness than the length of the screw holding the plates. No more bulging pockets. No exposure to knocks. We carry them all grades. Cases to match, adding but little to their size, yet so constructed as to afford ample protection.

You will find our prices right. We will not be undersold. We get the credit for selling watches at reasonable prices because of superior facilities in buying. Most jewelers make their entire gain in selling. We make half our profits in buying, and take it off the selling end—your end.

Trust Our Soaps.
 It is difficult to judge the purity of toilet soaps, and too often an agreeable odor determines the choice. If all soaps were as innocent as their fragrance is pleasing, there would be more smooth skins and clear complexions and less roughness, pimples and blotches. We can make you safe in your soap buying. The toilet soaps we handle are those made by reputable firms. We have pure and safe soaps at whatever price you wish to pay. We have just received a supply of Palmer's famous glycerine soap. It is equal to Pears soap at one half the price.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's colic, cholera and diarrhoea remedy to the house, telling them I felt sure it would do good if used according to directions. In two days' time the child had completely recovered. The child is now vigorous and healthy. I have recommended this remedy frequently and have never known it to fail.—Mrs. Curtis Baker, Bookwalter, Ohio. Sold by Howorth & Co.
