

Yamhill County Reporter.

SUPPLEMENT.--July 12, 1901.

Pratt, of the Forest Grove Times, reads his people a good lecture in his paper on the importance of conducting a picnic in a business way. From all the reports from the late soldiers' reunion at that place, there was considerable mismanagement and confusion.

We are sorry to hear that thousands of small army worms have again made their appearance in the clover fields and they are beginning to be seen in gardens. Still opinion is divided, some continuing to think that they will not be as ravenous as they were last year, while others think they will paralyze the clover crop.—Tillamook Headlight.

Our cheese factory is doing a thriving business. They receive about 1800 pounds of milk daily, and today they ship 40 boxes or about 2400 pounds of cheese. We are glad to see the farmers taking such an active interest in the cheese factory. This is only one of the many industries that Sheridan should have. A. H. Thomas met with quite a severe accident Thursday. While riding from the park to town on a bicycle, he went to turn out of the road to let a lady on horseback pass, when the handlebar slipped throwing him under the horse's feet, receiving a bruise on the head and a mashed finger. Mr. Thomas came out lucky that the injuries were not more severe than they are.—Sheridan Sun.

COUNTY COMMISSIONERS.

JULY TERM.

The \$250 damages assessed by viewers of road petitioned for by H. E. Follette, C. Baker et al, reported paid by petitioners, road was ordered established and opened. Costs amounting to \$114 were remitted.

Ordered by the court that parties redeeming any property which has been bought by the county at delinquent tax sale, and by reason of which the county has title because of the time for redemption having expired, and which is placed on the list furnished the sheriff for sale on the 8th of July, may redeem same by paying the amount of the tax and costs, without the payment of the penalties fixed by the late law, of 20 per cent for first year and 10 per cent each additional year.

Ordered that a county bridge with 60 foot span be built across the Willamina at East creek junction in road district No 30, and Commissioner Branson is appointed to make all necessary arrangements and superintend construction of same.

Ordered that county clerk issue a warrant authorizing the sheriff to sell all lands that the county has acquired by reason of delinquent tax sale, the time of redemption having expired.

Tax sale certificates on 48 acres in the Jesse Parrish d l c declared void because same was a double assessment and tax was paid by H. M. Williams. Also certificate of sale on 5a in sec 20 2-3, tax

having been paid by Mrs. S. A. Mackie. Privilege granted to A. P. Oliver and others to build and maintain a telephone line on public highways out of Newberg extending to Springbrook and West Chehalem, if not interfering with travel or improvement of the roads.

Court adjourned till Saturday, July 13th at 10 a. m.
