Hon. S. B. Hinton of Hillsboro was in the city on Tuesday in the interest of County Treasurer Rhude, and, with Judge Magers, will represent Mr. Rhude in the case brought by the county against him on alleged official shortage. The case will be heard in the September term of circuit court.

Allie Arthur and Chas. Skinner unloaded their new Russell 16-horse power traction engine and separator last Friday under the supervision of Joe Brower. It's no small trick to unload one of these outfits from a flat car. These gentlemen doubtless have a machine that will do good work and plenty of it.

At their stock farm south of town Willard & Ehrman are feeding about one hundred head of hogs preparatory to manufacturing them into pork. They have also about thirty beef cattle at present, some of which they had to reach over into "prosperous Tillamook" for. The home market for livestock is good, and the supply appears to experience some difficulty in keeping pace with the demand.

Prince Todd of Tillamook met with an accident last Friday while riding an automobile on the bus line between Hoquiam and Aberdeen, Wash. The driver lost control of the machine and it ran off a plank road and fell a distance of six feet. Mr. Todd had both bones of his ankle broken, and three other passengers were injured. Prince is recovering in the hospital at Aberdeen. J. E. Todd, of this county, his cousin, went up to see him.

What might be considered a lucky accident happened to L. G. Sutor at Jones' mill last Saturday morning. Mr. Sutor is the engineer and had been polishing up the brasses and satisfying himself that boxings were all snug. Early Saturday morning the engine was running very slow, and Mr. Sutor thinking that the pin attaching the pitman to the cross head might be loose, reached over and around the pitman rod, and as the rod raised it locked his arm in what might be called a "dead mortal cinch." Fortunately the pinch came on the muscular part of the arm above the elbow, where the bone is small. Had it been on the elbow the bone would certainly have been crushed. Mr. Sutor says he always knew he was a fool, but didn't know he was so many different kinds. He remained in the mountains and applied cooling applications, and is getting along all right.

Hay baling, low prices, good work. J. A. DERBY & SON.

Bring your best butter and fresh eggs to Wallace & Walker and get their worth in cash or trade.

Mr. and Mrs. Wm. Scott and Mr. and Mrs. George Cable returned from Tillamook on Saturday. They had a very pleasant outing and caught lots of fish.

The special shoe sale of F. Dielschneider is continuing through August, and his customers are getting rare bargains. Are you getting the benefit of it?

Every purchase draws a prize in the quality of goods and the extremely low prices at the Racket store, and you do not help pay for some one else's prize or premium.

What most people want is something mild and gentle when in need of a physic. Chamberlain's stomach and liver tablets fill the bill to a dot. They are easy to take and pleasant in effect. For sale by Howorth & Co.

The Telegram says: "Rev. E. M. Bliss, of the Third Baptist church, of this city, will move his family to McMinnville for college privileges while retaining his pastorate in Portland."

F. J. Canfield, one of the advocates of clover and diversified agriculture, sold during the week forty head of fat swine to Willard & Ehrman, who will proceed at once to convert the herd into bacon.

Rev. T. L. Jones has been recalled to the pastorate of the Dayton church by the Methodist church by action of the fourth quarterly conference, subject to the annual conference. He is now on the Tillamook coast for a vacation.

George Jones, who was down from the mill on Tuesday, says there are more berries in the mountains than he ever saw before. They are ripening slowly, and to some extent are drying up. If about six hours of rain would come there would be a magnificent crop.

The Cumberland Presbyterians of this city have secured a new pastor in the person of Rev. A. W. Henderson of LaPlata, Mo. He is a young man, very popular and progressive, and is said to rank among the foremost clergy in this church. His acceptance of the call was received by telegram last week, and he is expected to be on the field by Sept. 1st. He will be accompanied by his parents, being himself unmarried.

County Supt. Littlefield returned home last Friday evening from Portland. He broke the record for patients operated upon for appendicitis in that city. The operation was performed on Wednesday, and nine days thereafter he left the hospital for his father's home. The seventh day he was up in a wheel chair. The ordinary period required for recovery is 14 or 15 days. Dr. Parker, who officiated, stated that Mr. Littlefield had a very narrow escape from peritonitis, as the vermiform appendix contained a spot thinner than the rubber of a toy balloon, which would have soon burst and the contents of the appendix emptied into the peritoneum, causing inflammation and pus. The professor is looking and feeling as well as ever. He was required to abstain from food for nearly six days.

George Kauffman and Fred Bangasser have just returned from the Badger mine in the Blue mountains—the mine in which Drs. Cook & Cable are the vested proprietors. They bring a very flattering report. They have revealed a 27-foot ledge 1500 feet long, and have just had an assay of \$1,203.16 to the ton. This is over one-half the product per ton of the famous Comstock lode of Nevada in its palmiest days. We congratulate Drs. Cook & Cable on the very favorable outlook they have for becoming millionaires. Their mine is but 1 1/4 miles from the famous Lucky Boy mine. Frank Sharkey, G. A. Dyson and N. B. Standish, three of the owners of the Lucky Boy, came down from the mines recently bringing with them the result of the cleanup of a 36-days' run of their 15-stamp quartz mill in the shape of three magnificent gold bricks, weighing a few ounces over 62 pounds and valued at more than \$13,500, says the Eugene Guard. This is the largest cleanup ever made since the mill has been in operation. New and McE bridges are constantly being made in the Lucky Boy and it is coming to be one of the richest and best known mines on the coast. At present the ledge is 40 feet wide and has been traced so far 4500 feet, showing the same width all the way.

Miss Allie Link went to Newport yesterday.

For feed, hay, flour and berries, J. A. DERBY & SON.

Highest prices paid for chickens, butter and eggs at the Grange store.

Mr. and Mrs. M. B. Hendrick leave today for Everett, Wash., on a visit.

Harvesting and threshing crews can find all supplies for the cook wagon at Kegg's.

J. A. Mills and family of Independence came down yesterday to visit with his brother C. F.

Christenson & Houck received their first grain on Wednesday from Knight Olds and John McCullough.

Mr. and Mrs. J. M. Fink and son Laurie will leave for the Tillamook coast today, to remain several weeks.

C. C. Wilcox, 24, of Klickitat county, Wash., and Miss Elva Gaunt, 26, of this city, were licensed to wed on August 7th.

Lost—Black serge cape on road between Meadow lake and Carlton. If finder will return to Mrs. J. A. Cunningham at Carlton the trouble will be rewarded. 332

C. F. Daniels sells feed for the cow, feed for the chickens, and a full line of general produce to supply the household. Remember the place—the D. street produce market.

The large team of Mr. A. Sheldon of Amity ran away one day this week with his binder, and tore down 80 rods of rail fence. The binder was brought to town and repaired at the small cost of \$6. But the fence—that's the worst part of it.

J. H. Derby of Lafayette informs us that about 20 teams are at work hauling rock for rip-rapping the banks at the dam and locks. Tuesday was the most trying day of the week on the horses, of the three hot days we had.

Complaint is made that the steamers of the O. R. & N. Co., themselves too large to enter the Yamhill river over the bar, are so manipulated as to fill with gravel the channel which the captain of the Bonita is endeavoring to keep open.

Frajney & Keating expect to complete the 4,000 feet of new sewer for McMinnville today. City Surveyor Maloney had general supervision of the work. Taking into consideration the good reputation of the contractors and the fidelity of the city's representative, a good piece of work must inevitably be the result.

Married, at high noon Thursday, Aug. 5th, at the home of the bride's parents Mr. and Mrs. D. B. Gaunt, Mr. Clair Wilcox of Goldendale, Wash., and Miss Elva Gaunt, Rev. H. L. Boardman officiating. The bride and groom departed on the afternoon train for their future home at Goldendale.

John Keating, one of the contractors, and Pat Toway, foreman of sewer construction, have had experiences during the weeks spent in "old Yamhill" sufficient to prevent them from forgetting their visit to the country. The pleasant events have been marred somewhat by those bordering upon the tragic, the most formidable of which occurred last Sunday while the boys were investigating the swimming qualities of the limpid waters down on the classic Yamhill. Mr. Toway plunged boldly in, but the surprise at not touching bottom made him quickly disappear after one swift cry for help. Mr. Keating went to his relief, but he, too, signaled for help and sank beneath the wave. The river is narrow, and the rescuers say that the two drowning men were crawling along the bottom headed for shore when restored to the companionship of their anxious friends.

CROP NOTES.

Threshing in Active Operation. Some Yields.

John Pennington began his thresher on Tuesday at his home place, and he threshed only enough to get his machine warmed up for business, estimates the yield at 20 bushels of wheat per acre. He then went to Knight Olds' place, where the wheat was 25 and the winter oats 30 bushels. Mr. Olds says these figures are fully up to his expectations.

Elsia Wright began Wednesday at the old fair grounds, threshing small tracts of wheat and barley for C. A. Wallace and John McCullough.

The wheat went 28 bushels and the barley 32. Wright's new separator is doing good work, and moved right off from the start. There are 17 men in his crew, and every man seems well fitted for his place. Their second job was at the farm of J. R. Derby, where they threshed 1 200 bushels of wheat that afternoon.

More Than Mixing.

Prescription compounding is more than weighing, measuring and mixing. Sometimes it isn't, but it ought always to be. To rightly and safely fill prescriptions requires a knowledge of drugs, their properties and chemical affinities. A prescription specifies the drugs and quantities only; the druggist must know in what order and manner the ingredients must be combined. Ignorance or error can easily impair the compound. We know prescription work thoroughly and our drugs are of standard potency. You can safely entrust your prescriptions with us. 20 YEARS EXPERIENCE.
