Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists, price 75c. per bottle. SSS and OLD PEOPLE

Bad Circulation is the cause of most of the ills that come with old age. With advancing years there is a decline of strength and vigor—the machinery of the body moves with less speed and accuracy. Because of the weak and irregular action of the heart the blood moves more slowly, becomes impure and loses much of its life-sustaining properties, and muscles, tissues and nerves literally starve for lack of nourishment. A sluggish and polluted circulation is followed by a long train of bodily ailments. Cold feet, chilly sensations up and down the spine, poor appetite and digestion, soreness of the muscles, rheumatic pains, hard and fissured skin, face sores, chronic running ulcers on the lower limbs and other parts of the body—these and many other diseases peculiar to old people are due to a lack of healthy blood and imperfect circulation. Restoration to health must come through the building up and purification of the blood, thus adding strength and tone to the vital organs and quick, healthy action to the circulation.

S. S. S. being strictly a vegetable blood remedy and the best tonic, makes it the most valuable and efficacious of all medicine for old people. It is free from all mineral ingredients, and mild and pleasant in its action. It cures blood diseases of every character, even those inherited or contracted in early life. As the system gets under the influence of S. S. S. there is a marked improvement in the general health, and as richer and purer blood begins to circulate through the body the appetite improves, and there is a softness and elasticity about the skin that you have not noticed for years; sores begin to heal, pains in muscles and joints gradually cease, and you find that it is possible to be happy and healthy even in old age. Our medical department is in charge of physicians who make a study of blood and skin diseases. If you would like to have their opinion and advice in your case, write them all about it and you shall receive such information and advice as you want. This will cost you nothing. Others have found our medical department of great benefit to them—their cure being much more rapid as the result of some special directions received from our physicians.

Don't be your own doctor when you can get medical advice free. Book on Blood and Skin Diseases mailed to all who desire it. THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

A Fortune to Be Given Away.

A noted philanthropist has decided to give away his fortune to charities and no doubt much good will be accomplished. There is another agency that has also accomplished much good, namely, Hostetter's Stomach Bitters, the medicine with fifty years of cures back of it. It promotes appetite, insures digestion, cures dyspepsia, regulates the liver and keeps the bowels regular, also prevents belching, heartburn or flatulency. Don't fail to try it, but be sure and get the genuine.

BABIES TO CUT RENTS FOR CHICAGO TENANTS.

To Alma Grace Van Winkle, 20 months old, is due a Chicago real estate innovation—the removal of the objection to babies in rented houses, and the substitution of a premium for them. Her father, Charles F. Van Winkle, is the owner of a large tract of land in the southwestern part of the city. Up to the time of his marriage three years ago, Van Winkle had the same objection to babies that most unmarried men have. He liked them asleep. But after his marriage, and after the coming into

his house of the stork, Van Winkle was a changed man. Now his motto at home and in business is: "No family should be without one." He follows up this matter by announcing that whoever builds a house on land leased from him and thereafter becomes the proprietor of a baby shall receive a rent receipt free. Babies coming within fifteen months of the execution of the lease are worth five years' rent. After that they count for one year's rent. No family can score more than once, except in the case of twins, which count for five years.

Duck's Battle with a Hawk.

A green-winged teal is the heroine of Ernest Seton-Thompson's new story in the Ladies' Home Journal. After her brood was hatched she started to take them across a pond. "This was a mistake," Mr. Seton-Thompson writes. "For it exposed them to enemies. A great marsh hawk saw them, and he came swooping along sure of getting one in each claw. 'Run for the rushes!' called out the Mother Greenwing, and run they all did, pattering over the surface as fast as their tired little legs could go. 'Run! run!' cried the mother, but the hawk was close at hand now. In spite of all their running he would be on to them in another second. They were too young to dive; there seemed no escape when just as he pounced the bright little mother gave a great splash with all her strength, and using both feet and wings, dashed the water all over the hawk. He was astonished. He sprang back into the air to shake himself dry. The mother urged the little ones to 'Keep on!' and keep on they did. But down came the hawk again; again to be repelled with a shower of spray. Three times did he pounce, and three times did she drench him. Now all the downlings were safe in the friendly rushes, the angry hawk made a lunge at the mother, but she could dive, and, giving a good-by splash, she easily disappeared."

Consumption of Tea.

The British people consume nearly six pounds of tea per head of the population, or an increase of one pound per capita in sixteen years. There is no other country which in any way, approaches this. Holland is the only country in Europe where the consumption of tea exceeds one pound per head. In Russia and in the United States also, which are the other two large tea consumers, the consumption amounts to under one pound per head.

Ingenuous Bostonian.

"So you didn't string up the Boston mail robber after all?" interrogated the tourist. "We strung him up all right," responded Bowie Bill, "but he got the boys to arguing whether it was 'hung' or 'hanged,' an' when the smoke had cleared we found that he had slipped the rope and gone."—Philadelphia Record.

"You don't expect to be famous?" said the pugilist.

"I had entertained ambitions in that direction," said the young author.

"But you don't do anything but write."
