What are Humors?

They are vitiated or morbid fluids coursing the veins and affecting the tissues. They are commonly due to defective digestion but are sometimes inherited.

How do they manifest themselves? In many forms of cutaneous eruption, salt rheum or eczema, pimples and boils, ...nd in weakness, languor, general debility. How are they expelled ? By

Hood's Sarsaparilla

which also builds up the system that has suffered from them. It is the best medicine for all humors.

CANDID MEN.

They Speak Their Minds in an Embarrassing Way Occasionally. "Men are dreadfully brusque some

times," sighed Relinda. "The other night my brother and I went to the house of a friend to a reception. It was a hot night and the house was crowded and there wasn't anything to do but to stand around and talk to the people one could reach, while the people one really wanted to talk with could only be seen at a distance and over a sea of intervening heads. In addition the cro quettes were cold and the ice cream warm, so when we finally got away both my brother and I said, "Thank heaven' quite reverently, and went to a hotel and had supper.

"The next day all of my friends whom I met asked 'Didn't you have a lovely time at the Blanks last night?' and I invariably replied 'Delightful. Then we went on our separate ways. When they asked my brother the same question he answered with a frankness that appalled and embarrassed me, 'No, I did not. I had the stupidest time of my life; and, say, they'd better get another chef the next time they entertain,

for the supper was awful.' "Here," said Belinda, "I trace a strong point of difference between men and women. The average girl has too much pride to let it be known that she has gone to an entertainment and has pretty guileless looking creature sit alone one night at a dance for nine straight dances, then I had compassion on her and sent my escort and a couple of other men to ask her for the remaining two-steps and waltzes. She danced four times in all, yet the next time she saw me she said she'd had a real delirious times at that ball, a delightful, the scene.

flerce time.' "Why, I know of one lord of creation who told some friends that his honeymoon had been very tiresome, and of

another who in bidding his host good-by after a yachting trip remarked that he had a pleasant time, all things considered, but that all water journeys were more or less of bores. Imagine a womand coffee, and be spry about it; my an doing anything so tactless. Why, if it had been a girl instead of a man in the latter case, though she had been seasick for the entire two weeks. Silicus-Woman is a riddle. She though the salt water and air had ruined her prettiest gowns, taken the curl out of her hair and the rose from her complexion, she would have staggered off the yacht declaring faintly that she'd had the time of her life, and that she'd like to go again to-morrow.

"It's too cute for anything. You know Harold will be 2 years old next month, and we are now taking him to church with us. His father always gives him a penny to put in the collection plate. Well, last Sunday the plate was being passed, and some one dropped a coin on the floor. It made quite a loud noise, and Harold turned to me and asked, in a voice loud enough to be heard all over the church: 'Mamma, whose penny are that?' Wasn't it the cutest thing? Of course he thought that nobody ever all his papa ever gives him." Then the proud young father blushed more deeply than ever .- Philadelphia Record.

ECZEMA, TETTER, PSORIASIS, SALT RHEUM, ACNE and a great m diseases of like character are classed as skin diseases, when they could just as properly be called blood diseases, for they undoubtedly originate in the blood, like Cancer, Catarrh, Scrofula, Rheumatism, Contagious Blood Poison, etc. : the only Cancer, Catarrh, Scrofula, Rheumatism, Contagious Blood Poison, etc.; the only real difference being in the intensity and nature of the poison. The more serious diseases, Cancer, Catarrh, etc., are caused by some specific poison or virus, which is either inherited or in other ways gets into the blood and attacks certain vital organs or appears in the form of terrible sores and ulcers, while the milder and less dangerous skin diseases are caused by blood humors or an over acid condition of that fluid. These acid poisons, as they ooze out through the pores of the skin, cause great irritation, with intense itching and burning. The eruption may be of a pustular kind, with excessive discharge of thick, gummy fluid, or the skin may be hot, dry and feverish, swollen and fasured. temporarily the itching and burning, but eventually the pores of the skin become so clogged up by this treatment that the poisonous matter thrown off by the blood cannot pass out of the system, and settles on the lungs, heart or some other vital organ and endangers life.

To purify and build up the polluted blood is the right treatment for skin diseases, and for this purpose no other medicine is so deservedly popular as S. S. It is a perfect antidote for all blood humors, and when taken into the circulation, gently but thoroughly eliminates all impurities and puts the blood in a healthy, normal state. The skin can't remain in an irritated, diseased condition when nourished with rich, new blood. S. S. S. is the only guaranteed purely vegetable remedy, and the safest and best skin beautifier. Many girls of education and refinement are turning to the profession of trained nurse as a means of live!ihood. It is a serious occupatiion and a responsible one, tor the word of an experienced nurse carries great weight in matters relating to her profession. It is this fact that prompted an interesting interview with Miss Kathryn Nash, of North and Plattsburg avenues, Burlington, Vt., published in the News of that

city. To a reporter she said . "I had been caring for a patient To a reporter she said : steadily for nine months without rest and was run down and tired. I had very little appetite and sometimes I would skip one or two meals gave more than a penny because that's and not feel it at all. While visiting in Boston an abcess formed back of my ear. I had no strength, and although I was always drowsy sleep did not seem to refresh me. After I came home I had seven abcesses on my back near the waist line and was unable to sit up much for three or four months. The doctors who treated me said I had blood-poisoning from which I would never recover.'

"That must have been very dis-

And yet because the wires have sagged and some of them have become loosened from the posts, the fence is nearly worthless. It is when the wires are loose and wabbly in a barbed wire fence that damage is done to stock.

Have you ever noticed a fence in that condition?

A few upright stays and some 'Anchor Clamps'' will repair an old barbed wire or smooth wire fence and make it as good as new. It makes the fence as rigid and firm as when

new-and will make it last for years. Now is the time to save money. Wire is high, excessively high, and an entirely new fence is an expensive affair-if you get the best. The best is one composed of all large and strong wires-which cost more at first but will last forever. You can get along without buying a new fence for awhile by repairing the old one. The "Anchor Clamp" is the only positive fence lock on the market. It prevents sagging; it prevents loose wires; The doctors who it can be used on any kind of wire; it is simple, can be applied by any one, and it is cheap.
