DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitu-tional remedies. Deafness is caused by an in-famed condition of the mucous lining of the Eustachian Tube. When this tube gets in-famed you have a rumbling sound or imper-fect hearing, and when it is entirely closed deafness is the result, and unless the inflamma-tion can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface. Not a Congenial Pursuit. "And will you devote your son to art? "No. He has too good an appetite." -Cleveland Plain Dealer

I heard an auctioneer crying out, "Going for fifty cents!" I struck straight for his voice, and as I entered the room, he caught my eye and nodded his head.

I returned the compliment. At that moment he cried out: "Sold and gone!" To my surprise. I found that by nodding my hear I had bought a woman's head-dress for fifty cents. I paid the money and left the prize on the counter. I skipped out and walked slowly down the street, muttering to myself, "Sold and gone!" and I have not nodded my head at a man since I made that bargain.

Being a single man, I felt a little blue over that purchase, so I pushed on through the rain up the avenue, and soon met a bootblack who offered me a shine for ten cents. I poked my foot out to him. He pulled his artist-brush, looked at me and said:

"Boss, you looks like one o' dem Congressmen. Chuck down de cash befo' I spit on your boots; we don't trust dem M. C. fellers."

I paid him the dime, and he blacked one boot, and then asked if I wanted the other polished, saying that his price was ten cents a foot.

By this time I began to get mad, and I turned from Sambo, and walked rapidly on with one boot black and the other brindle. My brindle foot at last attracted so much attention that I stepped the other into the mud to make a match.
