An archaeological exploration party headed by Prof. Brumback occurred last Saturday. W. K. Newell, of the state board of horticulture, is writing on the great need of more canning factories and fruit unions, and the room for expansion of the canning industry in the Willamette valley. He says truthfully that if the waste of fruit was taken care of, California and eastern jams and jellies would not be for sale in the Oregon market. It is believed that McMinnville is fast coming to the appreciation of this need. In fact, "there is a hen on," and we are only keeping quiet for the nonce for fear of scaring her off.

There is always a fellow after every place, and sometimes several of them. This is the case with the Sheridan post-office, soon to be vacated by Geo. W. Bibbe for the receivership of the Oregon City land office. Five candidates are named, viz: John W. Bones, ex-assessor, John M. Chapman, county coroner, John R. Sanders, Thos. Scroggins and Peter Bell. Mr. Sanders was in the county seat seeing the "influences" on Monday, Mr. Bones was a close second on Tuesday, and Mr. Chapman came down Wednesday. It promises to be a pretty fight. To the victors belong the spoils.

Mrs. F. C. Ferguson came up from Portland to report proceedings of the circuit court the first of the week, and incidentally to visit a number of friends. She tells how Frank C., her husband, came in for his turn at being held up in East Portland, that section which has become famed for the tough with the masked face and ready pistol. It happened last Saturday night. Frank was wending homeward, having spent his last dime for a little wad of beefsteak, comfortably reposing in his pocket. It took but a brief moment to inform the robber of the financial shortage, but this only enraged him, and he demanded Ferguson's watch and chain. After getting it, he demanded that Frank march and say nothing, and Frank marched.

The change is made primarily for the benefit of Mrs. Wood, who is in poor health. Mr. Wood will engage in the insurance business. He and his family are the kind of people we dislike to lose. Ed is a social, useful and capable man, and his wife is a lady held in high esteem. George Cramer visited in the city briefly this week. Since his last visit he has been at Ashland, Dunsuir and Hillsboro. While at the latter place he was called to the bedside of his mother at Monmouth, and death relieved her sufferings last Friday. George took temporary charge of the McCoy station on Wednesday. While a caller at this office he picked up a sample of the Yamhill Coal and Oil Co.'s rock, and remarked the striking resemblance to the material taken from the oil well now being sunk at Ashland. He pronounced the rock identical, and such as all the California oil experts declare is a sure forerunner of oil.

Tooth Sense.

Did you ever stop to think how much gold is hammered into the teeth? It is estimated that one million dollars would not cover the amount; it is also estimated that less than twenty per cent of the people have perfect teeth. Begin at once on the children's teeth, get a good tooth preparation and see that the children use it. Dentine removes the lactic acid, which is the direct cause of decayed teeth. It is fragrant, cooling and soothing to the mouth and gums. It is antiseptic and healing, deliciously flavored. 25 cents a bottle. ROGERS BROS.' PHARMACY, McMinnville, Or.
