A Timely Question

Is always facing you when you cease to have the correct time.

You can best answer the question by bringing your watch to us for repairs, or, better still, buying from us an elegant new watch.

It Happened in a Drug Store.

"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. R. Grandin, the popular druggist of Oatland, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's cough remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not consider it worth the money, to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend in need of a cough medicine, and advised her to buy a bottle of Chamberlain's cough remedy. I consider that a very good recommendation for the remedy." It is for sale by Howorth & Co.

Clash of Authority.

County Judge John H. Scott of Marion county has trouble. He has engaged two expert bookkeepers, G. P. Clark and G. W. Buchanan, to expert the books of the county officers, and now the officers refuse to have their books checked by outsiders—the two men are non-residents—and insist there is no need of going to the expense now, as the books will all have to be expeted on July 1 next, when the present officers retire.

The order for experting the books was made by the Judge outside a term of court, and is not of record, and this is another objection urged. The County Judge however expects to remedy that by calling a special term of the court and making the order regularly. The officers threaten to enjoin the Judge from experting the books at this time, as no necessity has been shown for the work. Interesting developments are looked for, and litigation may result from the judge's attempt to check the officers' books.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and I will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size, Ely Brothers, 56 Warren St., N. Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation. With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

SUICIDE OF ED SUTHERLAND.

A Former McMinnville Citizen Found Dead Near Scholl's Ferry.

E. F. Sutherland, who last year traded his residence here for a farm at Scholl's Ferry in Washington county, was found dead on Friday last near his home, by his stepson, William Fletcher. Ed had been working at blacksmithing in Portland, and had come home for a few days to rest, as he had been feeling ill. Friday morning his two sons went over to an adjoining farm for a load of potatoes. Ed remained at the house, but becoming restless, suggested to his wife that he would go out and hunt some Chinese pheasants, as there was nothing about the house that demanded his services. His wife said she would be glad to have some birds, and with this he left with the understanding that he would be back for dinner. Not returning at the appointed time, search was begun. He was found over a little hill from the house, by the side of a large cedar stump. His left hand was lying under him, and his right hand was lying above his head. The shotgun had two shells in it, one being discharged, and the trigger of the other barrel was cocked. The gun lay as if pushed from the front of the man. A stick of about the length required to reach the trigger was lying near. The shot evidently entered the mouth, tore away the lower teeth and tongue, and much of the lower right side of the face. Corner Via of Washington county held an inquest on Saturday morning, and the jury found that the deceased came to his death by a gunshot wound, with suicidal intent.

The news in McMinnville was not entirely surprising. Those who knew Ed most intimately, knew that he had a despondent nature, and as well that he often experienced spells of exuberance equally decided. He was last in this city early in October, and had come back for the purpose of again getting possession of his blacksmith shop, now leased to Mr. Boyd. He expressed himself as having made a bad change financially in removing to Washington county, and that McMinnville was good enough for him. He could not get immediate possession of the shop, but was promised it after the expiration of the lease. He had frequently been heard to say of late that he was "done for," in a financial way.

He leaves a wife, three daughters and three sons. The body was brought to this city Saturday evening, and on Sunday morning at 10 a. m., funeral services were held at the Christian church under auspices of Charity lodge A. O. U. W., and Diana lodge K. of P., the latter taking the service at the grave. Rev. A. L. Platt preached the funeral sermon. Burial was by the side of his father and daughter in Masonic cemetery, and was largely attended. Deceased was 41 years of age, and for several years had been an enthusiastic member of above lodges, and an earnest member and supporter of the Christian church of this city.

GLUTTONY

Is more common than we may think, if we define gluttony as eating beyond the body's need of sustenance and beyond the stomach's capacity for digestion and assimilation of food. That is a fair definition, and it fastens the name glutton on many a person who would resent the term as an insult. The fact of this gluttony is marked by its consequences. The overloaded stomach becomes diseased. The popular term for the condition is "weak" stomach. The "weak" stomach fails in furnishing adequate nutrition for the body, and soon the "weakness" spreads from the stomach to other organs.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect assimilation of food, by which alone the health and strength of the body is maintained.

"Your medicine helped me so much that I cannot praise it too highly," writes Mrs. C. L. Brooks, of Poland, Androscoggin Co., Me. "The first dose I took helped me. I cannot forget how I felt when I took it; I was suffering everything with indigestion, and my stomach was so bloated that it seemed as though it must burst. My husband said he was going for the doctor, but I said if he would get me a bottle of the 'Golden Medical Discovery' I would try that. I had not taken it long when I felt relieved, and have not had a touch of indigestion or stomach trouble since. I had been sick for four years, and less than four bottles cured me. Some people that knew me before I began to take the 'Golden Medical Discovery' tell me that they never saw such a change in anyone, and they also say they don't see how I can do such large washings as I do now, when I had not done a washing for so long."

Dr. Pierce's Pellets cure biliousness.

APPORTIONING STATE TAX.

Yamhill County's Share Under the New Law—The Percentage Plan.

There is a falling off in the value of assessable property in Yamhill county this year of \$38,472 as compared with the assessment of last year. It is noticeable, however, that there is a corresponding increase in the valuation of the taxable property of every other county in the state that has been equalized by the respective county boards, the increase in Multnomah county alone reaching the sum of \$15,924,277. This increase signifies one of two things. Either greater prosperity has overcome the balance of the state and overlooked this county, or else the new law in reference to the apportionment of the state tax has made it possible to confirm the suspicion that the majority of counties in the state have purposely been making a ridiculously low valuation in order to escape payment of their just share of the state tax burden. It looks as if this latter were true, since state taxes are not now levied as formerly. The new law passed by the last legislature provides for making the levy on an entirely different principle. It was formerly the custom to levy a percentage on the total taxable property of each county, but until 1905 the levy will be based on the average valuation of taxable property for the past five years. By this method for the current five years Yamhill's share of the state tax will be .0391 per cent of the money collected from the various counties for the maintenance of state institutions. Multnomah county will pay .3123 per cent; Marion, .0613 per cent; Linn, .0526 per cent, and Lane, .0462 per cent, and so on down the list. After 1905, each county's share will be figured on the average expenditures, roads and bridges excepted, during the current five years. That is, the expenditures of all the counties will be added together and each county's share will be the proportion that each bears to the whole. As this proportion is, so the state tax of each will be figured. It remains to be seen whether or not the new scheme will be popular.

Mrs. Nettie J. Ungerman. The Reporter takes pleasure in presenting the likeness of Mrs. Ungerman of this city, one of the most prominent

ladies of this community in official lodge circles. Every official trust held by her, and there have been several, has been carried with dignity and efficiency. Last week closed five years' service as Grand Mistress of Records and Correspondence for the Rathbone Sisters, and for the service she was granted the honors of Past Grand Chief. She declined further election. Mrs. Ungerman is a native Oregonian, and is officially identified with the Rebekahs and Native Daughters.

Card of Thanks.

We take this method of expressing our heartfelt thanks to the members of the A. O. U. W. and Knights of Pythias, and to all friends in general who showed their sympathy in our bereavement. And we would not forget those who contributed the floral offerings and furnished the music.

J. E. Brooks has sold about 100 acres of his farm adjoining this city to Milton A. Marshall and wife, late of Blackfoot, Idaho, who have taken possession. The price was about \$35 per acre, which is regarded as low. Mr. Brooks reserves his residence and about two acres of land.

Died—At Bellevue, early Friday morning, Oct. 18th, of fever, Ethel, the 13-year-old daughter of Mr. and Mrs. C. J. Payne. Her illness was of brief duration, and the parents have the sincere sympathy of friends in their loss. The funeral was conducted on Saturday at the home by Rev. A. L. Platt of the Christian church.

Mr. Peck, in charge of the party surveying a line for the Northern Pacific from Scappoose to Tillamook, has informed the Tillamook Herald that he will probably reach Tillamook October 20. The route is a rough one but a railroad can be constructed cheaply. The summit will be tunneled for a distance of 700 feet, and the crossing of the south fork of the Nehalem will be made at Vine Maple postoffice. The party is now just beyond Foley postoffice.

The Yamhill Coal and Oil Co. lack only a few hundred dollars now of having sufficient funds on hand from the sale of stock to warrant them in procuring the necessary machinery for drilling. The people are beginning to realize the end of the suspense and to see the goal of success, and are subscribing liberally for the stock, which cannot remain long at the low price of fifty cents a share. Within the next sixty days the company hopes to be able to have the drills pounding away towards the hidden wealth of the Chehalis hills.

Mrs. N. J. Ungerman, of McMinnville, visited with her daughter yesterday at the central station of the telephone exchange. Mrs. Ungerman has just completed a term of five years served as Grand M. of R. & C. Rathbone Sisters. Her efficient service and great popularity with her associates is emphasized when it is stated that the official term is but one year, and to serve five years means five consecutive elections. A sixth election was declined, as the lady felt that she has earned a rest.—Hillsboro Independent.

Operation for Appendicitis.

Jesse Hendershott, aged 25 years, a farmer of Stayton, and eldest son of Geo. W. Hendershott of the Commercial hotel of this city, was operated on for the removal of the vermiform appendix at the Salem hospital on Tuesday. The appendix had burst and scattered the contents, which condition always renders recovery somewhat doubtful. The young man's father received a telephone message of the condition of his son on Monday forenoon, and went over to Salem that day. He came home Tuesday and returned again today. The doctors give little encouragement, but equally bad cases have been brought to a successful termination.

GOPHER.

The farmers are all busily engaged in getting their grain in before the fall rains commence.

A. Flynn of Willamina came over Saturday and visited a few days with the family of J. Thompson.

I. Lambright was out from McMinnville Monday to view the progress of his farm since his removal to the city.

Mrs. M. Grimm has moved her household belongings to the house on the Shortridge farm, where she will live during the winter.

Jasper Agee and family left for their Salmon River ranch Saturday. They expect to return to Gopher in the spring.

Quite a number of cattle are changing hands. John Cronin and J. Thompson each sold a fine drove of cattle to Rd Rogers this week.

Fred Lebold brought his engine back to the saw mill Friday. Since harvest it has been undergoing repairs, but is now ready to be put in use again.

Fred Daniel left Monday to begin work near Bellevue. Until recently he has been at work in Portland.

Mr. Evans was home to visit over Sunday for the first time in about two months. He has been employed near Amity during this time.

St. James' Fair.

The big fair to be held in Campbell's hall Oct. 30th, 31st, Nov. 1st and 2d, by the ladies of the St. James' Catholic church is going to be a great success. There will be six splendid booths containing all kinds of good things to eat, to wear and to decorate with. The articles are said to be the finest and most costly of their kind ever offered before to the public at a fair. All the committees have been appointed and have nearly completed their preparations. The amusement committee has a decidedly rich and changing program for each evening and the best talent has been secured.
