

A Plate of Soup.

To make my store a complete general merchandise store I have concluded to put in a line of crockery. Next week I will open up a full assortment of plates, cups and saucers, dishes, lamps, etc., etc. I am building some new fixtures this week in order to be able to display this line which will be sold at bed rock prices. In the meantime I am selling dry goods, etc., at very low prices. Opened up a lot of new goods this week, among which are some great bargains. A large line of manufacturer's samples of ladies', wholesale and men's hosiery will be sold at wholesale prices. Don't be alarmed about merchants selling at cost price, but do your trading where you get honest goods at honest prices. C. C. MURTON.

The assassination of President McKinley practically suspended for three weeks the election campaigns in the several states to vote for state officers. In some of the states the Buffalo tragedy changed the character of the campaign work, and in all it had the effect of diverting attention from merely local issues and concentrating it upon more important state or national issues. What effect the assassination is to have on the elections themselves is to be determined next Tuesday. Elections for governor and other state officers are to be held on that day in Iowa, Massachusetts, New Jersey, Ohio, and Virginia. Nebraska will elect a supreme judge and regents of the state university, Pennsylvania a state treasurer and judge of the supreme court, and Maryland members of the state legislature.

Barnum's Monkeys

"All well—all happy—lots of fun". That is the regular report from the monkey cage of Barnum's Circus ever since the keepers began dosing the monkeys with Scott's Emulsion. Consumption was carrying off two thirds of them every year and the circus had to buy new ones.

One day a keeper accidentally broke a bottle of Scott's Emulsion near the monkey cage and the monkeys eagerly lapped it up from the floor. This suggested the idea that it might do them good. Since then the monkeys have received regular doses and the keepers report very few deaths from consumption. Of course it's cheaper to buy Scott's Emulsion than new monkeys—and that suits the circus men.

Consumption in monkeys and in man is the same disease. If you have it or are threatened with it can you take the hint?

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle. Send for free sample. SCOTT & BOWNE, 409 Pearl St., New York. 50c and \$1. Will druggists.

The number in attendance at the Dayton public school is gradually increasing. We are informed by Prof. Hanville that the number of pupils now in attendance is 163. The Professor is much pleased with his school, and the way it is running.—Herald.

The ladies of the northern part of town have organized a "Self-Improvement society." They intend to meet once a week at the home of a member and read and discuss articles from periodicals, bring their needlework and have a social cup of tea. They met at Mrs. Judge Bird's last week and had a profitable as well as pleasant time.

A peculiar epidemic is prevalent, and seems to be a revised edition of the grippe. It is characterized by a severe pain in the center of the forehead, loss of appetite, with fever and flightiness. It attacks children particularly severe, and is likely to make big inroads on the excellence of the school reports for the current month.

Here is a warning to boys who go to school for the privilege of playing football: John Sigrist, center rush of the Ohio state university team, went to one of the Columbus hospitals with a broken neck. An X-ray showed the third cervical vertebrae was fractured. An operation will be performed, but there is little hope that it will avail. Sigrist's body is paralyzed from the shoulders down.

C. E. Harbaugh, the newspaper promoter, is still with us, endeavoring to interest capital in a newspaper enterprise at Everett. He tells us that he has a one-fifth interest in the Everett News, costing him \$2,500, and the local labor unions got together and raised a bonus of \$1,800 if he would establish a labor paper, and it is in the interest of this that he is here. He adds the information that he yet has some strings on the McMinnville News, and is anxious to get a settlement. He expects to leave today for Everett.

Mrs. William Galloway returned Monday from a 7-weeks' trip to the east. She visited Buffalo, New York, Vermont, Portage, Wis., Minneapolis, St. Paul, and attended the Women's Relief Corps national convention. She found the east cold and bleak and was glad to return. Her daughter Miss Zilpha Galloway, who accompanied her, is much improved in health and will visit relatives in Minneapolis for several weeks before returning.—Oregon City Enterprise.

Rev. M. R. Barnes, a minister in the Friends church, arrived here a few days ago from Sterling, Kansas, with his wife and seven children. They came overland with a mule team and were on the road ninety days. While out on the plains they found it cost as much to feed the team as it did to supply the family with eatables, as they had to pay three cents a pound for oats and \$25 per ton for straw. The mules stood the long trip well and the family is in good health. They are friends of E. H. Brunson, and they will probably locate either at Newberg or Salem. To give one something of an idea of one of Newberg's growing and enterprising industries, it is well worth while to visit A. C. Churchill's warehouse, where about twenty hands are busily engaged in packing in small, attractive packages for the Chicago market, processed Italian prunes. The work is machine-like in its organization, a package being handled by some fifteen persons, mostly ladies, before it is ready for shipment, about two hundred and fifty being put up in an hour. The package is a unique one, of Mr. Churchill's own invention after much hard thought and study, and its success on the market is indicated by the fact that it has practically driven out in one year California and other brands and bulk prunes from the Chicago trade where it is retailed in the Rothschilds, Siegel & Cooper and the Fair department stores. So far Mr. Churchill has introduced his brand in Chicago alone, but in another year intends to put it into New York and Boston. Besides bringing satisfactory financial returns to the promoter of the enterprise, the perfect state of the processed fruit, and the attractive manner in which it is put up is the best kind of an advertisement for Newberg.—Graphic.

What Portland Will Have to Compete With.

The Louisiana Purchase exposition will cost more money than any other similar fair ever given in the world. The Paris exposition cost \$10,000,000, the Pan-American at Buffalo \$9,000,000, and the World's Columbian at Chicago, according to the figures of its own officials, \$22,700,000. The Louisiana Purchase exposition will cost at least \$30,000,000, or almost as much as any two of the others. Already \$16,700,000 in cash has been raised. The amount of ground covered will be proportionately greater than that occupied by the buildings at Chicago. At the latter place they had 668 acres, while St. Louis has 1,200 already, and condemnation proceedings have been commenced to secure 200 more. When you remember that the Chicago fair surpassed anything of the kind ever held before or since, you can begin to form an adequate idea of what the St. Louis fair will be. It will be a revelation to the world. One of the attractions of the fair will be the Freide aerial globe. It will stand upon a pedestal which will be 1,200 feet wide at the base, and together they will be 750 feet high. On the first landing, 110 feet from the ground will be a coliseum, theatre and cafe. Two hundred feet from the ground will be another landing; 300 feet high another, both of which will contain various attractions, and 490 feet from the ground will be a palm garden. Sixteen elevators will carry passengers. The highest structure in St. Louis at present is the Union Trust building, 250 feet high.

The war department has at last decided to whom the credit of winning Chickamauga and Chattanooga was due. May we hope that in another thirty years the navy department will decide who won the battle of Santiago.

Forewarned, Forewarned. The liability to disease is greatly lessened when the blood is in good condition, and the circulation healthy and vigorous. For then all refuse matter is promptly carried out of the system; otherwise it would rapidly accumulate—fermentation would take place, the blood become polluted and the constitution so weakened that a simple malady might result seriously. A healthy, active circulation means good digestion and strong, healthy nerves. As a blood purifier and tonic S. S. S. has no equal. It is the safest and best remedy for old people and children because it contains no minerals, but is made exclusively of roots and herbs. No other remedy so thoroughly and effectually cleanses the blood of impurities. At the same time it builds up the weak and debilitated, and renovates the entire system. It cures permanently all manner of blood and skin troubles. Mr. E. E. Kelly, of Urbana, O., writes: "I had Eczema on my hands and face for five years. It would break out in little white pustules, crusts would form and drop off, leaving the skin red and inflamed. The doctors did me no good. I used all the most costly soaps and salves without benefit. S. S. S. cured me, and my skin is as clear and smooth as any one's."

Mrs. Henry Snegfried, of Cape May, N. J., says that twenty-one bottles of S. S. S. cured her of Cancer of the breast. Doctors and friends thought her case hopeless. Richard T. Gardner, Florence, S. C., suffered for years with Boils. Two bottles of S. S. S. put his blood in good condition and the boils disappeared. Send for our free book, and write our physicians about your case. Oregon is not the only state in which the people do foolish things. A curious case came up the other day before the court in Caroline county, Md., when an ancient resident was charged with the larceny of nine eggs. Extra jurors had to be summoned, and it cost the county \$250 to try the case. The accused was seventy-three years old. His counsel said he had known the defendant for forty years, and it was incredible that he would steal eggs. He argued that anyhow the state had not shown that the eggs were sound, and nine rotten eggs would have no value at all. The jury stayed out fifteen minutes and returned a verdict of not-guilty.
