4 Headache Facts.

First—Headache is an almost universal ailment; 86 per cent have it, at least occasionally.

Second—Headache could always be relieved by means of strong opiates, but dragging a pain is not curing it.

Third—It is now possible to cure a headache quicker than any opiate will relieve it, and to cure harmlessly by removing the cause.

Fourth—R. B. Headache Capsules are a perfect remedy. They can't harm. They relieve the severest headaches in from 10 to 30 minutes. Price 25 cents.

T. D. Henderson says he is highly pleased with their way of doing business. He has been furnishing milk the past few days. He showed us a sight draft of \$10.50, the net cash price for 891 pounds of milk at 23 cents per pound for the butter fat. He says when he can sell milk for over a cent a pound at his own door it beats 50-cent wheat.

The football game between McMinnville and Newberg last Saturday on the grounds of the latter team was a lively tussle, resulting in a score of 45 to 0 for McMinnville, and one fine young man's shoulder dislocated twice. Smith was handicapped by going into the game with a broken collar bone. McMinnville made six touch downs in 30 minutes, netting 34 points, and made 11 points in the first half. Pilkington was the bright particular star and shook off the little Newberg fellows much as a big St. Bernard dog would dispose of a dozen little terriers. We have two-thirds of a column write-up of this game contributed, but it has to be a very dull week when we can devote more space to a football game than is here given. The score and the broken limbs is about all we regard as news.

The Dairy vs. Hops.

Carmichael & Co. of Salem bought 139,600 bales of hops in Hillsboro last week. At the price, 11c, \$15,000 came into the county. The Independent makes the following comparison in the premises: "The sale is large but compared with the dairy interests it is small. Statistics of six creameries in almost the same territory covered by the hop fields above named, were compiled recently for the year 1900. The footing was \$50,000. The hop money comes in a lump sum, while the other is distributed over a period of twelve months. It takes twelve months, though, to grow, pick and market a crop of hops. Oregon will yet realize the truths stated by "Minnesota" Smith. Dairying is the coming business for this valley."

Yamhill Locks Repaired.

The repairs and extensions of the slopes and dam at the locks in Yamhill river, in charge of Captain Langfitt, of the United States engineers, has been completed. Assistant Engineer David B. Ogden, who has been superintending the work, has returned to the city and says that the works are now in such condition as to make practically impossible a recurrence of such damage as was caused by the flood of last winter. About 50,000 square feet of surface of the slopes on the sides of the locks have been paved and ripped with rock, and the dam has been extended 25 feet into the east bank. The wing wall at the head of the lock has been extended about 25 feet into the west bank, and the banks above the ripping have been resloped at a lesser angle and seeded to grass. It is thought that with these improvements the works will be able to successfully resist future floods in the raging Yamhill.—Oregonian.

COLUMBUS SCHOOL NOTES.

A very cordial invitation is extended to all. Mr. and Mrs. Hoberg each have classes in the Sunday school, and few are more interested in their classes than they. Rev. Hoberg's "boys" have been heard of in the Oregon conference more than once. It was he who built the first M. E. church in McMinnville. A cordial invitation is extended to all.

CHICAGO STORE

The fair held at Campbell's hall last week by the ladies of the Catholic church was quite a success financially, and was a very enjoyable occasion socially.

It is expected that the drilling machinery for the Yamhill Coal and Oil Co. may be ready to start early next month. The amount of their capital stock and the number of acres under control insures hundreds of dollars for every one invested when success is assured. A dead man cannot see this, but others should. Oil stock of companies located in Texas, California and other sections has made fortunes for its holders; it was purchased as an investment or speculation. No appeal has been made to those people on grounds of public enterprise; a chance of making money has been offered and accepted. Dollars are the attraction, and these same companies have one twentieth the amount of holdings and from ten to twenty times the amount of capital stock as compared to the Yamhill Coal and Oil Co., whose stock is now selling at 50 cents a share, with a certainty of a raise in price soon.
