Miss Nellie Woodhead reached Chicago on the 31st, after a most delightful trip. She says the time was so brief that she scarcely realizes the great distance which separated her from her home while in Oregon. At Minneapolis and St. Paul a halt was made to take in the Minnesota state fair, just on the line dividing those famous cities.

Latest news from Europe indicate that Bismarck has "put his foot into it," and gets a set back by an alliance between Russia and France, in consequence of Austrian apathy. England snarls and growls, but will do nothing serious. She has no land forces, and no military system calculated to enable her to wage war on land with a military power like Russia.

Charity, full handed, is coming to the relief of the Charleston sufferers. The primal sin of selfishness shrinks before such appalling disaster, and for a brief space wholesale destitution makes room for the entrance of benevolence in the human heart. It is thought that the subscriptions will aggregate in solid cash one-half of the estimated loss to the people of the desolated city.

Subscribe for the Reporter, and pay for it when you subscribe, and we will pledge ourselves to give you more news, for less money, than any other paper in the Willamette valley. The Daily will help the weekly 100 per cent. See if it don't.

If this paper suits you for a bit a week we shall appreciate the favor of your subscription; we have no money to lose in the venture; if it pays its way another column will be added, and another; if not perhaps not. The quality is surely as fair as the rate.

One of the principal speculative outgrowths of the anti-Coolie congresses in Oregon was the steam laundry all white labor washee boom. Two or three young men went at it in Astoria, and after they had blowed in \$5,000; busted of course. Another institooshun of like import is just starting up in Portland, which compels the thought that the fools are not all dead.

After three years surveying, and running eleven through lines and over a thousand cross lines, the OPR selected its pass through the Cascades, and went to work; then Prof. W. S. Walker steps out with "another and a better pass;" near his rapche! 'Twas ever thus. We presume when our narrow guage goes a whooping down the Doherty to Astoria, somebody will come to the front with another and a better pass through the Coast range; but if he does he will not get a nickel for it.
