McMinnville, Or. - Sept. 15, 1886

CORRESPONDENCE.

LAFAYETTE.

A lawn party was held Tuesday evening at the Court house park. Refreshments were served to all who wished. The proceeds are to be used for repairing the parsonage.

Mrs. M. F. Cooke started on an eastern trip the first of the week. Her sister, Mrs. C. A. Coburn of Portland, accompanies her. They will visit relatives in Illinois, and will be absent six or seven weeks. They anticipate great pleasure in visiting the home of their childhood and early girlhood. The best wishes of hosts of friends attend them.

Prof. Carl Young is moving into town preparatory to beginning his duties as principal of the school. The school house and grounds have undergone a thorough repairing and cleaning the last few weeks. The new window shades add greatly to the appearance of the building. Miss Maggie Boone, teacher elect of the primary department, arrived from the east about ten days since. SELINA.

BELLEVUE.

Frank Wright has lost a valuable horse.

Milt Davis has moved to the Sawyer farm.

Dudley Sailing, living east of Ballston, is not expected to live.

Filmore Delashmutt has moved to Walling's farm, near Amity.

Wilbur Cook and Dusky Wilson and family have gone to the coast.

Andrew Sawyer has moved to McMinnville to send his children to school.

John Townsend's grain on his farm in Gopher valley averaged 35 bushels per acre.

Our jovial Tom Cone is going to California. I wish him good luck wherever he may cast his lot.

Once more our neglected Mason Father Houck has just returned from the sea side; he stopped in Dallas over night. He says some son of a gun got away with part of his fish; what's a fish story; I know who he gave it to. I've lived there.

The people in Cookville have become so pious it will take two churches to hold them. The Methodists are building a church within a stones throw of the Baptists. All we lack now of having a young town in Cookville is a barber and a peddler.

school district has commenced school. Miss Clara Skinner is teacher. Miss Skinner is a good teacher and all the pupils should attend. If the directors can't disagree to agree, they had better play poker with the funds and the winner donate it to some orphan asylum. SPOOPENDYKE.

POOLING WHEAT.

At a meeting of the Pomona Grange held at Sheridan, Ogn., Sept. 11th, 1886, among others the following proceedings were had, viz. that the executive committee of each subordinate grange in Yamhill county, be requested to ascertain the amount of wheat can be produced in a single lot for sale in their respective districts and report to the county purchasing agent (Bro. Joseph Watt) with orders to canvass the market and sell as per ordered, and the secretary be requested to notify the committees of the various granges of the passage of this order: That said agent be requested to visit or correspond with the various rail road and warehouse men along the lines of transportation in the direction of Portland and Yaquina bay, and urge the immediate erection of elevators sufficient for the trade on those lines. That granges of other counties be requested to co-operate with us in the enterprise. That a copy of these resolutions be furnished the Reporter, Farmer, Dairyman, Grange Advocate and Disseminator for publication.

Attest: T. E. FRISTOE, Sec.

G. SPRINGER, Master.

Ben Perley Poore, speaking of Mr. Mitchell in the National Republican says: "He is one of the most painstaking and laborious workers in committee, besides being an able debater. These qualities, more than all other, shape and control legislation. As a lawyer none rank higher in legal ability, and the best evidence of this is the great trusts that have been placed in his keeping by the most prominent and wealthy corporations in the land. Although as a lawyer in the practice of his profession, his legal services were sought by powerful corporations,

his record as senator shows him to be a firm friend and able advocate of the rights of the people."

When war breaks in the old world look out for great naval engagements off the coast of the Pacific northwest. Russia will send her fleet here to wipe Victoria from the face of the earth, and our grain fleet will need extra insurance. The best point from which to take observations will be cape Hancock. Front seats reserved for ladies. How about a little protection for our own coast Mr. Secretary Whitney.

First National Bank.
