We very much dislike to spoil a good item, but that statement that \$7,500 had been subscribed to purchase the fair grounds and leave us \$2,500 working capital, is the product of some fertile and imaginative brain other than this office possesses. It did not start here.

"What the farmers want," is the title of an article in a leading New York paper, and it is made to embrace everything from a steam pump in the kitchen to an elevated railroad in the back yard. This is perhaps an eastern demand. What Pacific coast farmers want is \$1 a bushel for wheat and sixty cents for oats. Give these and they will wait for pumps and railroads.

At the convention of bee-keepers in this city there was not a large attendance. There is not the attention given to this rural industry that should be. The session yesterday afternoon was pleasant and not altogether without profit. The new officers are C. E. Hoskins, president, Newberg; D. Kauffman, vice president, Needy; Mrs. M. C. S. Young, secretary, McMinnville; S. F. Harding, treasurer.

Portland Telegram: About dusk last evening a well-known young man about town was waking down First street when he encountered a Yamhill county couple meandering in the opposite direction. The woman had evidently never carried a parasol before and she gracefully stuck one of the wholebone or steel prongs into the loop of the young man's eye glasses, pulling them from his nose and dropping them to the sidewalk.

Just as the young man was in the act of picking them up, the woman's escort's No. 20 foot stepped upon the glasses, almost smashing them to atoms. "By gosh, et's too bad!" ejaculated the yahoo, and pushed on with his girl looking for a place where ice cream could be had for 5 cents a plate. The sufferer felt much consoled by the Yamhiller's expression of sympathy.

If this paper suits you for a bit a week we shall appreciate the favor of your subscription; we have no money to lose in the venture; if it pays its way another column will be added, and another; if not perhaps not. The quality is surely as fair as the rate.

The news that a levitating clerk has been sentenced at Hamilton, Ontario, for bringing stolen money into Canada, seems to rob that country of its attractions for fugacious financiers. If this sort of thing is kept up there will be no refuge for the defaulting gentry short of the north Pole.

Jamaica was almost wholly destroyed by a hurricane August 16th. In Kingston the sea rose to an unusual height about the Victoria market, the spray dashing over Rodney's statue. Several lives were lost and a number of coasting vessels wrecked. At St. Andrew the hurricane was felt with more severity than at Kingston, and the destruction of property greater at Constant spring.
